their manifest and sensible action in purifying the springs and channels of life, and conducting them with renewed tone and vigour. In many hundred certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the effects of Moffat's life Pills and Fhernix Bitters have been gratefully and publicly acknowledged by the persons benefited, and who were previously unacquainted with the brautifully philosophical principles upon which they are compounded, and upon which they constantly act.

The Life Medicines recommend themselves in diseases of every form and description. Their first operation is to loosen from the coats of the atomach and bowels the various impurities and crudities constantly settling around them, and to remove the hardened sees which col-

various impurities and crudities constantly settling around them, and to remove the hardened wees which collect in the convolutions afthe smallest intestines. Other
medicines only partially channe them, and leave such
collected masses behind as to produce habitual contiveness, with all its train of evils, or sudden diarrhem, with
its imminent dangers. This fact is well known to all
regular anatomists, who examine the human bowels after death; and beace the prejudice of those well-informed men against quack inedicines, or medicines prepared and herabled to the public by ignorant persons.
The second effect of the Life Medicines is to cleanse the
kidneys and bladder and by this means the liver and the
lungs, the healthful action of which entirely desends unlungs, the healthful action of which entirely depends upof the regularity of the urinary organs. The blood
which takes its red colour from the agency of the liver
and the lungs before it passes into the heart, being purified by them, and nourished by food coming from a clean
atomach, courses freely through the veius, renews evety part of the system, and triumphantly require the hea-

ry part of the system, and triumphantly mounts the ban-ner of health in the blooming check.

Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsis, Flatulency, pulpitation of the Heart, loss of appetite, heartburn and heatsches, restlessness, ill tem-per, anxiety, languor and melancholy, costiveness, diarrhess, cholers, fevers of all kinds, gravel, worms, diarrhors, cholers, fevers of all kinds, gravel, worms, asthms and consumption, scurvey, ulcers, inveterate socies, scorbutic cruption, and bad complexions, salt rhoum, erysipelas, estimon colds, and influence, and various other complaints which afflict the human frame. In Fever & Ague, particularly, the Life Medicines have been most eminently successful; so much so, that in the fever and ague districts, physicians almost universally prescribe them. Moffat's Medical Manual, designed as a domestic guide of health. This little pamphlet, edited by W. S. Medfat, 375 Froadway, New York, has been published for the purpose of explaining more fully Mr. Moffat's theory of discoses, and will be found highly interesting to account seeking health. It treats upon the teresting to persons seeking health. It treats upon the provident discusses and the causes thereof, price 25 cents—for onle by Mr. Modfat's agents generally.

DR. JAYNE'S EXPECTORANT, "This invaluable Medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have ever used it for Asthnia, Cough, Spitting of Blood, Hooping Cough, Croup or Hives, Consumption, Chronic, Pleurisy; Hourseness, pain and soreness of the breast, difficulty of Breathing, and every other disease of the Lungs and Breast, can and do attest to its usefulness. Bronchitis, a discusse which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of consumption, is always cured by it. The usual symptom of this discase (Bronchitis) are cough, soreness of the lungs or throat, hourseness, difficulty of breathing, Asthma, Hectic Fever a spitting up of Phlegm or matter, and sometimes blood. It is an inflammation of the line skin which lines the inside of the whole of the wind tubes or air vessels which run through every part of the lungs. This Expectorant immediately suppresses the cough, pain, inflammation, fever, and difficulty of breathing, and produces a free and easy expectoration, and a cure is soon effected. It always cures Asthnia—two or three large doses will cure the Group or Hives of Children, in from 15 minutes to an hour's time. It immediately subdues the violence of Whooping Cough, and effects a speedy cure, Hundreds who have been given up by their physicians as incurable with "Consumption," have been restored to perfect health by it.

perfect health by it, Rev. Jonathan Going, D. D. Pecsident of Granville

Rev. Jonathan Going, D. D. President of Granville College, Ohio, says—" he was labouring under a severe cold, cough and hourseness, and that his difficulty of bleathing was so great that he felt himself in imminent danger of immediate suffocation, but was perfectly cured by using this expectorant."——Mrs. Dilkes, of Salem, N. J. was cured of Asthma, of twenty years standing, by using two bottles of this medicine;—Mrs. Wand, also of Salem, was cured of the same complaint by one bottle,——A young lady, also of Salem, who was believed by her friends to be far gone with Consumption, was perfectly restored by three bottles.——Dr. Hamilton, of St. James, South Carolina, was greatly affected by a cough, hourseness, and soreness of the lungs, and on using a bottle of this medicine, found permanent relief.

source of great pleasure to Mr. M. and inspire and with new confidence to recommul the use of his medicines to his fellow-citizens.

The LIFE MEDICINE are a peoply VEGETABLE preparation. They are mid and pleasant in the roperation, and at the same time bloody acting rapidly upon the secretions of the spices—carrying off all acrimonious humors, and assimpling with and purifying the blood. For this reason, haggravated cases of Dyspepsia, the Life Medicines will give rehef in a shorter space of time than any over prescription. In Feverand-Ague, Inflammatory theumatism, Fevers of every description, Sick Headath. Heart-burn, Dizziness in the blood, Pains in the Chit, Flatulency, impaired appetite, and in every diseas, arising from an impurity of the blood, a disordered set of the stomach, the use of these Medicines has alway proved to be beyond doubt, greatly superior to any oils mode of treatment.

All Mr. Modiat asks of M. patients is to be particular in taking them stafetly articling to the directions. It is not by a newspaper refer, or by anything that he himself may say in their lever, that he hopen to gain credit. It is alone by the realts of a fair trial.
