...ith Grand Jury. The disastrous events ...t week, when several helpless though misguided females perished in the streets from cold, is ...ch to their credit. They cannot, therefore, ...ntemplate the approach of a long and inclement ...ter without dreading the misery and wretchedness to which many unhappy persons will necessarily be exposed from the want of an institution of the description alluded to. The following Address of condolence to the late Governor General was passed by the Common Council on the 14th inst. and presented to Lord Sydenham but a few days before his death. Such a mark of sympathy and respect confers credit upon the Corporation, and will now be looked on with melancholy interest.

To His Excellency the Right Honorable Charles Baron Sydenham of Sydenham, in the County of Kent and of Toronto in Canada, One of Her Majesty's Most Honorable Privy Council, Governor General of British North America, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY.

We the Mayor, Aldermen and Commonalty of the Town of Kingston, in Common Council assembled, beg leave most respectfully to declare to Your Excellency our sorrow for the recent unfortunate accident which has placed you upon a couch of suffering, and deprived this country of Your Excellency's invaluable services, as the Representative of our most Gracious Sovereign, at a highly important juncture.

We desire to express our sincere condolence for Your Excellency's misfortune, and our anxious wish that your health may soon be restored, so that Your Excellency may be able to resume your accustomed indefatigable attention to those public duties—the discharge of which has conferred pre-eminent distinction upon Your Excellency's reputation, and incalculable benefit upon the inhabitants of Canada.

On behalf of the Common Council.

(Signed) J. COUNTER,
Mayor.

Princess Royal.—This splendid and fast sailing Steam Packet arrived in port on Saturday evening, realizing in point of speed the most sanguine anticipations of her spirited proprietor, Donald Bethune, Esq.

The *Princess Royal* has taken the place of the *St. George* in the regular line;—and we think we may say without fear of contradiction, that the *Niagara, City of Toronto*, and *Princess Royal*, which form a daily line between Kingston and Toronto, are not surpassed on this Continent for accommodation, speed, and safety. They reflect the highest credit on their builders, the Niagara Dock Company.

We beg to draw the attention of the Trade, and the public generally to the Extensive sale of Dry Goods, &c., advertised in an other column to take place at the Stores of Messrs. Greenshields & Miller, on Wednesday next. The Goods are in prime order, and we are persuaded will be sold cheap.

Circus.—The lovers of this amusement have now a rare opportunity to divert themselves in witnessing the performances of the Messrs Turner's extraordinary troupe who commenced their antics here last evening, being the *first of the three nights* they have advertised to perform in this place.

AFFAIRS OF CANADA.

CORRESPONDENCE RELATIVE TO THE AFFAIRS OF CANADA.

COPY OF A DESPATCH FROM THE RIGHT HON. LORD SYDENHAM TO LORD JOHN RUSSELL.

Government House,
Montreal, September 27, 1840.

My Lord.—I have the honour to inform you that I returned to this city on Thursday last, the 24th instant.

I shall transmit to your Lordship by the next mail copies of the various addresses which I have received during my tour, and of my replies. In the meantime it affords me the most sincere satisfaction to be enabled to say, that throughout the very extensive district of country which I have visited, comprising nearly the whole of the Province of Upper Canada, the best possible spirit prevails.

From the Province-line to Amherstburgh and Sandwich, from Lake Erie to Penetanguishine, I have everywhere found a determination to forget past differences, and to unite in an endeavour to maintain, under the Act of Union, those practical measures for the improvement of the country, which have been too long neglected in the struggle for party until personal objects—the Toronto excepted, where party spirit reigns with more violence than in any other part, the general opinion of the Province at last prevailed over the opinions of the extremes, and I met there, with a most cordial reception from all parties, and I had the opportunity, of which I was glad to avail myself, of doing much to soften down the asperities which had existed.

Amongst the British inhabitants of this part of Lower Canada, I am also happy to say that the same good feeling reigns, and the same confidence in the principles upon which I have conducted my Government, and in the exertions I have made to introduce improvement.

The citizens of Montreal had prepared a public entry for my return, which I have reason to know would have been most numerously attended, but this I was compelled from illness to decline.

Of many of the French Canadians, I am sorry to say that the reports which reach me are not so favourable. Great efforts are made by some few of the leaders of the old Papineau party to mislead the people, and they are seconded in the most mischievous manner by Mr. Neilson of Quebec. But although they may be successful in imposing on the credulity and ignorance of the *habitants*, so far as to obtain the return to the United Legislature of a small party of violent men opposed to British connexion, I am satisfied that they will not again induce the peasantry to support any attempt at disturbance.

I should do injustice to my own feelings if I were not to state to your Lordship the impression which has been left on my mind by the inspection which I have made of the Upper Province. It is really impossible to say too much of the advantages which nature has bestowed upon it, especially that part of the country which lies between the three Lakes Ontario, Erie, and Huron. If these great advantages are properly used, I foresee that in the course of a very few years Upper Canada must become one of the most valuable possessions of the British Empire. Its population may be trebled, and its products increased in an immense ratio; whilst, if properly governed, its inhabitants will, I am satisfied, become the most loyal, intelligent, and industrious subjects which Her Majesty can number.

I have, &c.

SYDENHAM.

PROGRESS OF THE PROVINCIAL GOVERNMENT.

COPY OF A DESPATCH FROM THE RIGHT HON. LORD SYDENHAM TO LORD J. RUSSELL.

Government House,
Kingston, August 4, 1841.

My Lord,—I had the honor to receive via New York, by the Great Western, Your Lordship's despatch, (No. 307) conveying to me leave of absence from my post for six months; in consequence of the serious indisposition under which I have suffered, and I lose no time in requesting your Lordship to be good enough to lay at the foot of the Throne my humble acknowledgements to the Queen for this mark of Her Majesty's consideration.

It will be my anxious endeavor that the interests of Her Majesty's service should not suffer through this, or through the resignation of the office, which I had the honor to transmit to your Lordship last mail.

I shall not avail myself of the Queen's gracious permission to absent myself until I have entirely completed the work which I have in hand, by bringing the present session of Parliament to a close, and by taking all the steps incident to the measures which will have then probably received their completion; and with regard to some of these even, namely, the financial arrangements to be made for the Provinces, in accordance with my instructions, my presence in England may, I hope, not be altogether without value.

I expect to be able to complete this by the middle or end of September, when I shall proceed home; but of this I shall be able to judge more exactly in the course of a short time, and I shall then apply to the officer commanding the naval station at Halifax to furnish me, if he conveniently can, with a vessel which may convey myself and my suite to England, of which I trust your Lordship will approve.

I have, in the mean time, great satisfaction in stating that the anticipations which I expressed in my confidential despatch of the 26th of June last, have been fully realized.

The proceedings of the House of Assembly were at first retarded by the necessity of making arrangements, and laying down new rules and regulations for the conduct of business, and by the proceeding of the matter of election petitions, in which the laws of the two Provinces were different, and great confusion and embarrassment naturally arose; but this delay was rather productive of advantage than otherwise, as the Members from different parts of the Province had thereby the opportunity of becoming better acquainted with each others views and opinions, and the difficulties inherent to the union of the representation of the two countries, hitherto so distinct and separate, gradually wore off.

But latterly the Legislature has been able to devote itself to the practical business of the country, and, I am happy to say, has made great progress and with great advantage.

Many measures of public utility has been gone through, and amongst them three measures of great importance, introduced by the Government, have already passed the House of Assembly, and are before the other House—a Bill for the establishment of a Board of Works, conferring the most extensive powers on that department, and thus enabling us to proceed safely and securely in whatever may be undertaken on the public account, or with public aid; another for the establishment of District Courts of Justice; and a third for the Naturalization of Aliens—a subject of the deepest interest to many of the inhabitants of the Province. A Bill for the establishment of District Councils in Upper Canada, similar to the Ordinance which I passed in the Lower Province, is in Committee, and will, I have little doubt, be shortly passed; and the other measures are all, more or less, in a state of great forwardness.

I have, &c.

SYDENHAM.

The Rt. Hon. Lord John Russell, &c.

TO THE PHYSICIANS AND SURGEONS OF CANADA.

GENTLEMEN,—As the Profession of which I have the honor to be a Member, is likely to become deteriorated from unadvised relaxations of the Rules and Regulations—which now govern it in this Country, I request your serious attention to the letter addressed to you in the Kingston Chronicle of the 25th inst. from Dr. Dunlop. To allow a Profession which has ranked in our ages, amongst the learned, to become immerged into a mere assumption of Quackery, is quite derogatory to a British Colony, our Schools at Home are the proper models we should adopt for an Education in our own Department, but it is well known, that an unlettered Student of this Country may proceed to the South of the St. Lawrence, and many months not elapse, when he returns with credentials which would entitle him to practice in a Profession requiring years of Study.

The suggestions of Dr. McCulloch and Dr. Dunlop are well defined, and equally well arranged. And I beg of you Gentlemen, that your serious attention be drawn to this subject. The cause which actuated me in taking notice of this letter was the same as that of the Medical Gentlemen to whom I have alluded, the "upholding the honor of the Profession to which I belong"—with respect to my own immediate interest, perhaps it may not be a matter of great importance, but I may add, that were such infringements even proposed to be made, amongst either of the other learned Professions, the tocsin would ring in the very wilds of the Country.

I remain, Gentlemen,
Your most ob't. humble servant,
A MEDICAL OFFICER,
in Her Majesty's Service.

Kingston, 27th Sept., 1841.

PROVINCE OF CANADA.

PROVINCE OF CANADA.

RICHARD DOWNES JACKSON

By His Excellency Sir Richard Downes Jackson, Knight Commander of the Most Honorable Military Order of the Bath, Administrator of the Government of the Province of Canada, and Commander of Her Majesty's Forces in British North America.

To all to whom these presents shall come, or whom the same may concern,—GREETING.

A PROCLAMATION.

WHEREAS it has pleased Almighty God to call to His Mercy The Right Honorable Charles Baron Sydenham, in the County of Kent and Toronto in Canada, Knight Grand Cross of the Most Honorable Military Order of the Bath, and one of Her Majesty's Most Honorable Privy Council, Governor General of British North America, and Captain General and Governor in Chief of the Provinces of Canada, Nova Scotia, New Brunswick, and the Island of Prince Edward, &c. &c. And whereas by Her Majesty's Royal Letters Patent, bearing date at Westminster the twenty ninth day of August, in the fourth year of Her Majesty's Reign, constituting and appointing the said Charles Baron Sydenham, to be Her Majesty's Captain General and Governor in Chief in and over the Province of Canada, and to him addressed, it is provided that in case of the death of the said Charles Baron Sydenham, the powers and authorities to the said Charles Baron Sydenham therein granted, be given and granted to the Lieutenant Governor, or to such person as may by warrant under Her Majesty's sign manuel and signet be authorized and appointed to be the Administrator of the Government of this Province, to be by him executed and enjoyed during Her Majesty's Royal pleasure, but that if upon the death of the said Charles Baron Sydenham, there should be no person upon the place commissioned and appointed to be Her Majesty's Lieutenant Governor or specially appointed to administer the Government within this Province, then until Her Majesty's further pleasure shall be known, the Senior Military Officer for the time being in command of Her Majesty's Forces in this Province of Canada, shall take upon himself the administration of the Government thereof, and shall execute in the same the said Commission and the instructions therein mentioned, and the several powers and authorities therein contained, in the same manner and to all intents and purposes as other Her Majesty's Captain General and Governor in Chief should or ought to do; And whereas by reason of the lamented death of the said Right Honorable Charles Baron Sydenham, and under and by virtue of the provisions in her Majesty's said Letters Patent contained and above recited, the Civil Government of this Province; and the execution of the powers and authorities in the said Letters Patent contained, hath devolved upon me as being the Senior Military Officer commanding Her Majesty's Forces in this Province of Canada; I have therefore with the advice of Her Majesty's Executive Council for this Province, thought fit to issue this proclamation to make known the same, and I do hereby require and command that all and singular Her Majesty's Officers and Ministers in the said Province, do continue in the due execution of their several and respective offices, places and employments; and that Her Majesty's Loving Subjects and all others whom it may concern do take notice thereof and govern themselves accordingly.

Given under my Hand and Seal at Arms, at the Government House, in the Town of Kingston, in the said Province of Canada, the twenty fourth day of September, in the year of our Lord one thousand eight hundred and forty one, and in the fifth year of Her Majesty's Reign,

By His Excellency's Command,

CIRCUS NOTICE.

THE Public and Inhabitants of Upper Canada are most respectfully notified that the OLYMPIC CIRCUS, under the management of S. B. Howes, & Co., intend taking a tour through all the Towns and Villages of Canada, between Kingston and London, where this Company in the month of September, 1840, received such unbounded patronage, and I am happy to say gave the greatest general satisfaction. In addition to this already extensive establishment, the manager has the pleasure to announce to the public that the great German Rider Otto Motty (who created so much excitement through Canada last season) is expected to join the Company at Kingston, the manager having complied with the terms of his engagement. Mr. Wm. Cole the India Rubber Man is now convalescent and will join the Company in a few days. Those performers in addition to the Company which is already the largest in the country, cannot fail to give satisfaction to an enlightened audience. The Readers of the *Montreal Herald* and other papers of Lower Canada, cannot but have noticed an advertisement signed by T. V. & N. B. Turner, intending to injure the reputation of this Company; which was done through jealousy, from our having received such very liberal patronage in Canada for two successive seasons. Their Company not being known in these parts, they have endeavoured to impose on the people by stating their Company to be the Bowery Amphitheatre, which I considered it my duty to contradict, they never having owned a dollar's worth of stock or even travelled with that popular Company. They having failed to get patronage by that dishonorable mode of deceit, have now introduced another still greater imposition, issuing a hand-bill in which the principle feature represents the addition of an American giant,—Nexta Theatrical Company, Mr. O'Conel, Tatooed Man, &c. &c. I am certain they are not acquainted with the character of the Inhabitants of Canada or they would never attempt to gull them with such a miserable humbug. Do they pretend to think the Inhabitants here have never seen a Theatre, that they should advertise playing Tragedies, Comedies or Melodramas in a dirty Circus Ring, under a poor old ragged canvas Pavilion, like theirs; they have never attempted any thing of the kind, nor will they—that much to their credit—although they have made their Company appear more ridiculous by advertising such impossibilities to an enlightened community. This American giant I think will fail to attract any great attention when the public are informed that they have probably seen him already as he was attached to the real Bowry Amphitheatre last season when travelling in Canada, as a Baggage man, and driver of a Baggage waggon. Mr. O'Connel, Mr. Risley and the India Rubber Boy have left the Company—a Theatrical Company they never had. The public can judge by this statement (which is strictly true) what to expect before they are gulled out of their money—a view of the Company as it comes into Town will satisfy the Inhabitants what will follow.

N. B. The Olympic Circus will visit Sackett's Harbour, Watertown, Oswego and several other Towns in the State of N. Y.—returning will finish their season in Canada.

PROSPECTUS OF

The People's Library,

Or Magazine of choice and entertaining Literature.

A DISTINCTIVE characteristic of the present age is the multiplication and cheapness of its Literature. In every department of letters new works are constantly falling from the press, and notwithstanding the extraordinary supply, the demand continues with unabated activity. This is especially true of those lighter publications which convey instruction in agreeable and attractive forms, and supply a means of recreation at the same time that they offer facilities for improvement. Scarcely a day passes in which some work of this description is not given to the public, and though among the large number thus issued some may be unworthy or useless, generally they are deserving of commendation.

In most of the publications offered to the public in bound volumes, they are inaccessible to the mass of those readers who are remote from large cities. The cost and difficulty of transporting books to places which do not lie on the great thoroughfares of the country, are such as to prevent their extensive circulation in the interior, and to make their prices so high as to impose a serious tax on all who purchase them. To obviate in some degree this difficulty, and to place within the reach of all, the choicest portions of the Entertaining Literature of the day, the Subscriber intends to publish, in a form suitable for transportation by the mails, beginning on the first day of October next, a monthly periodical to be called "The People's Library, or Magazine of Choice and Entertaining Literature." The "People's Library" will consist principally of reprints of the best productions of the British press. The Novels of *Bulwer, Dickens, James, D'Israeli, Marryat, Lever, the Author of "O'Malley and Lorrequer, Lover, the author of "Rory O'More," Warren, author of "Ten Thousand A-Year," Miss Pickering, Agnes Strickland, Mrs. Gore, Miss Austin, Lady Blessington, Mrs. S. C. Hall*, And all the other modern writers of distinction will be embraced in the collection as soon as possible after their publication abroad; and in occasional instances prior to any publication which can be made by the Booksellers here.

In addition to the Novels, the Library will contain such amusing Memoirs, diverting Travels, and other fresh and racy Works as may from time to time be thought worthy of being transferred to its pages.

It is a subject of familiar remark, that along with the widespreading taste for literature, there is springing up in all parts of this country, a taste for the finer works of the pencil and the graver, which denotes a rapidly progressive civilization. To minister to this taste, and to render "The People's Library" of the highest value, and worthy of the most extensive patronage, the proprietor intends to furnish along with each number an EXQUISITELY ENGRAVED STEEL PLATE, from the burins of the most distinguished artists. These plates will be accompanied with Letter Press Illustrations from the pens of Miss Leslie, Seba Smith, Mrs. E. C. Embury, Miss H. F. Gould, Mrs. L. H. Sigourney, &c. &c. &c., and other eminent American writers. This feature in his proposed publication is of an importance which the proprietor believes cannot be over estimated. The series will embrace many original pictures, and each subscriber will thus receive, in addition to the regular matter of the Library, a number of Elegant and costly engravings, which will make a valuable addition to the ornaments of the Drawing Room and the Centre Table. Accompanying each number of the Library four pages of extra matter will be furnished in the form of a cover. This will comprise Notices of New publications, a monthly compend of Literature, contemporary events, &c. &c. The critical department will be supplied with judicious and impartial articles, the aim of which will be to elevate the character of our literature.

"The People's Library" will be printed in large octavo form, on paper of the finest quality, from clear, distinct, and elegant type. Each number will contain over 80 pages, making at the end of the year 1000 Pages!!! The whole of this, with the engravings, additional matter, literary news, &c. &c. will be furnished at the singularly low price of $3 per annum, payable in advance. This price, even in this age of cheap literature, is unrivalled for cheapness. Nor can it be objected that its cheapness will lessen its merits, as the proprietor pledges himself, that in every department of the Work, Literary, Typographical and Pictorial, it shall be at least equal to the best periodicals of the day. Terms,—Single Copy, $3.—Two Copies, $5.—Five Copies, $10. Five Dollars remitted, postage paid, will command The People's Library and Lady's Book one year.

The First Number will be issued on the 1st day of October, 1841.
