THOSE extensive and commodious pre-

large Dining Room, three spacious elegant  
private Parlours, and twenty Bed Rooms.

## MOFFAT'S VEGETABLE LIFE MEDICINE.

These Medicines are intended for the relief of  
all the most distressing and dangerous diseases  
of the human frame, and are the result of  
many years of patient and successful experi-  
ence. They are the only medicines which have  
been made public, and in almost every species of  
disease to which the human frame is liable, the effects  
of these Life Pills and Phlegm Bitters, have been  
tried and publicly acknowledged by the persons  
affected, and who were previously unacquainted with the beau-  
tifully philosophical principles upon which they are com-  
pounded, and upon which they constantly act.  
The Life Medicines recommended in a disease  
of every form and description. Their first operation  
is to loosen from the coats of the stomach and bowels  
various impurities and crudities, constantly settling  
around them, and to remove the hardened acids which col-  
lect in the convolutions of the smallest intestines. Other  
medicines only partially cleanse them, and leave such  
collected masses behind as to produce habitual consti-  
pation, with all its train of evils, or sudden diarrhoea, with  
its equally disastrous consequences. The Life Medi-  
cines, however, remove the impurities, and leave the  
regular assimilability, which is the basis of health, and  
the source of all our strength. They are the only medi-  
cines which are not only safe, but also beneficial in  
all cases of dyspepsia, indigestion, flatulency, and  
all the other diseases arising from an impurity of  
the blood, and a diseased state of the stomach, the  
liver, and the bowels. They are the only medicines  
which are not only safe, but also beneficial in all  
cases of dyspepsia, indigestion, flatulency, and  
all the other diseases arising from an impurity of  
the blood, and a diseased state of the stomach, the  
liver, and the bowels. They are the only medicines
