

Very well, Peter; that's all. Just stand up to Mr. Cobbe, as long as he's in your power; but don't hurt him. You'll be bound to do that.

There was a fellow of almost herculean formation, and carried in his appearance the heart of a Lion. As a man from the premises he walked on the stage, and pulling off his hat to Tom, said very humbly, 'I'm a regular servant to light you.'

'I'm a regular servant to light you,' said the actor, addressing him. 'I'm a regular servant to light you,' said the actor, addressing him.

An affecting spectacle of insanity, followed by a melancholy result, was witnessed at a short time ago, at a Lunatic Hospital at Saumur.

A lady and gentleman went to visit the establishment, accompanied by her child, a little girl about five or six years old. As they passed one of the cells, the wretched inmate, an intemperate young woman of twenty-five, who had irretrievably lost her reason, threw the dressing gown she was wearing over her head, and rushed towards the child.

England now slumbers secure under the shadow of Trafalgar and Waterloo; but let her infatuated children suppose that they are for ever removed from the chance of disaster, or that the want of citadels to surround the vast arsenals of Woolwich, Chatham and the Tower, will not ere long be bitterly felt either in the East or in the West.

Let no nation imagine that the magnitude of its resources relieves it from this necessity, or that the effulgence of its glory will secure it from ultimate danger.

It is by no means necessary for these important ends, that the whole metropolis should be confined by fortifications; it is enough that a citadel of great strength is at hand to contain all the warlike and civil resources of the Kingdom.

Let no nation imagine that the magnitude of its resources relieves it from this necessity, or that the effulgence of its glory will secure it from ultimate danger.

We have Montreal papers of Monday, and the Quebec Mercury of Saturday, but they furnish no intelligence of the arrival of the Governor General.

His Excellency Sir Richard Jackson, reached Montreal on Saturday evening from the Seat of Government, and was to proceed yesterday to Quebec to await the arrival of Sir Charles Bagot.

The Brockville Statesman has a long article in its last number upon portions of the Contemporary Press, which would perhaps be as its writer intended, very witty, if it were a little more intelligible.

The Bathurst Courier also mentions that one Gavin Baillie, while crossing the Calloway Lake in a canoe was drowned, the Canoe having upset. He has left a family in destitute circumstances.

The Prince Edward Gazette mentions that Mr. Jacob Dulmage, of South Bay, was drowned on the 26th ult. while crossing to the opposite shore in a Skiff. It is supposed that by the breaking of one of the oarlocks, he was precipitated overboard.

We beg leave to draw public attention to the Advertisement of Mr. Thomas Macneider which will be found in another column. The re-commencement in business of Mr. Macneider has afforded much pleasure to a large circle of friends and acquaintances in this place.

We have no hesitation in recommending Gentlemen who may require pleasure boats of any description, to Mr. Smithers whose advertisement appears in this day's impression, the neatness and strength of his workmanship, and his industry and attention to his business cannot fail to give satisfaction to all who employ him.

T. W. C. Murdoch, Esq. Chief Secretary to our late lamented Governor General, with his family, left this place on Saturday last for England and New York.

Captain Joseph Widdell. The death of this gentleman was lately briefly mentioned in this paper. We have much pleasure in publishing the following obituary notice on the subject, from the Correspondence of the Commercial Advertiser.

The late Captain Whitney. Perhaps you may have noticed in the Western papers the death of this gentleman. Few individuals were better known to the travelling community than Captain Whitney, while in command of Lake Ontario on the steamer Queenston, Great Britain and United States.

Good Water. The complaints against the Water in this place, have been very loud and frequent during the past Summer, and not without cause. The water of Lake Ontario is perhaps as pure and palatable a drink as any in the world, but unfortunately in the Harbour of Kingston, not being within the reach of the current, and subject to be mixed up with the filth of the Town it is rendered unfit for use.

The bottom is changed in like manner, the O Gage at the bottom of the neck is richly charged with ambergris shells and flowers. On one side is the head of Neptune, and on the opposite that of Mercury. The neck is quite plain, to contrast with the rich work below. The top rim above the neck is also in bold relief.

The handles are formed of Dolphins, resting on shells, six inches in diameter, from which hang long sea-shell leaves, which make the glass look like the bottom of the sea. The foot is composed of coral and shells in situ relief, and the upper part is chased with flowers, &c.

Record, it was discovered that the papers in the Crown office in Toronto necessary for this purpose were also stolen!!! This being Sir Fitz's loss. For the credit of the profession we trust that an enquiry into the circumstances will be made by the Law Society in Toronto. [Hamilton Gazette.]

TOBACCO AND LAKE HURON GREAT ROAD. Office of the Board of Works, Kingston, Oct. 17, 1841. Sir, I had the honor to receive, in due course the Memorial from the Board of Trade of Toronto, respecting the contemplated communication between Toronto and Lake Huron, and urging upon the Board the propriety of immediately having the necessary survey, &c. undertaken.

On Saturday we copied an article from the Brockville New Era, explaining the present state of the "Brock Monument Fund"—and we take much pleasure in laying before our readers in-day the following plan—suggested by the same talented writer,—for raising the required amount.

From the Brockville New Era. SIMPLE PLAN FOR COMPLETING THE FUND REQUIRED FOR THE ERECTION OF BROCK'S MONUMENT. We have to thank those of our contemporaries, who embrace the majority of the Canadian press—who have paid us the compliment of transferring to their columns the explanatory article which appeared in the New Era on this subject:—it has been thought proper, at the same time, to express our regret that even that (admittedly clear and distinct) statement should not have proved altogether satisfactory to one or two, who still seem to think that the Committee had not, in the first instance, taken the proper steps in the matter, and who have possibly been misled by the fact that we do not feel ourselves authorized to state that they were, we can assure the still incredulous, from our own personal knowledge, that the acting members of the Committee have, step by step, in the matter, done every thing which could be expected of them, and which we have no hesitation in asserting were those most calculated to put the whole affair on a fair and equitable basis.

But our present object is not to defend the Committee—they require no defence;—but to point out a means, by which the whole amount necessary to complete the Monument, may be obtained, before the close of the present year, and consequently in such a manner as to admit of the contemplated plan being commenced early in the spring. When we show this plan to be one which must, in its furtherance, the warmest feelings of all loyalists in the Colony, we entertain no doubt of its full and complete success if acted upon.

What we then propose is—We trust we shall be second in our view by the whole of the press of the country—that on the occasion of the Royal Bazaar which will shortly take place, a Fancy Fair, in commemoration, to be given in every city and town of any note in Canada, these bazaar to be held at such a place as the intelligence shall have been received as possible, to be so arranged as to take place on different days within the same month, and to be under the direction of committees of management, who shall be appointed by the respective committees of the day, and who shall be bound to contribute to the fund, without the awkwardness of a direct appeal to them being made, at this eventful hour, by the present committee, while, by supplying their hands, as they are, with the funds, in several places, where their heads are not established, they can more effectually assist the fund by the consequent decrease of expense incident to the occasion.

The following rough estimate, and we deem it better to give a moderate one, than to give a high one, inasmuch as we are well aware that the amount of tickets would be, in each city and town, at the moderate price of five dollars, each person subscribing to have the privilege of introducing two ladies.

Montreal, 200; Quebec, 150; Kingston, 100; Toronto, 200; Hamilton, 100; London, 50; Cobourg, 50; Niagara, 50; Cornwall, 50; Bytown, 50; Perth, 50; St. Catharines, 50; Amherstburgh and Sandwich, 50; Three Rivers, 50; Sarnia, 50; Brantford, 50.

In addition to the passengers by the steamer Colborne, from Liverpool, whose names have been published, we observe that the Hon. Thomas Macneider, and the Misses Macneider, by their voluntary contributions, will have passed through Montreal, on their return to Bytown. [Montreal Gazette.]

During the last few years, Episcopacy has made rapid advances in Scotland, and we understand that the late Lord Brough, who has just returned from Edinburgh, in August last, had a meeting held at the College of St. Andrew's, for the purpose of erecting a new school of Theology, and the work of the meeting was presided over by the Rev. Mr. R. D. Stewart, of the Scotch Episcopal Mission, and the Rev. Mr. R. D. Stewart, of the Scotch Episcopal Mission, and the Rev. Mr. R. D. Stewart, of the Scotch Episcopal Mission.

Among the items voted for supplies in the House of Commons were £2,147 for the expenses of the London Dock, £10,000 for the expenses of the Admiralty, £27,700 for the expenses of the British North America Company, £12,500 for the maintenance of the moral and religious instruction of British troops, £19,000 for the expenses of the British North America Company, £19,000 for the expenses of the British North America Company, £19,000 for the expenses of the British North America Company.

We understand that Mr. Hough, of this city, who arrived in the United States, has concluded to a contract for erecting the main between a Halifax and a Montreal, and that he has in place a large number of the road with earth, for the speedy and sure conveyance of passengers. We hope the amount of fare between the two cities will be reduced. It will be found more profitable, as it will be an answer to the way of the United States. [Quebec Gazette.]

The Rev. Henry Caldwell Cooper, B. A., of Pembroke College, Cambridge—Missionary at Colborne, in the Huron District. The Rev. Michael Fenner, A. R., of Trinity College, Dublin—Missionary at Gait, in the Gait District. The Rev. Thomas Fuller, Missionary at Fenelon Falls, in the Newcastle District.

Mr. William Maw Shaw, B. A., of Sidney Sussex College, Cambridge—appointed to the Mission of Emily, and parts adjacent, in the Newcastle District. The Rev. J. C. Taylor, A. M., has been appointed to the Mission of Emily, and parts adjacent, in the Newcastle District.

Mr. William Maw Shaw, B. A., of Sidney Sussex College, Cambridge—appointed to the Mission of Emily, and parts adjacent, in the Newcastle District. The Rev. J. C. Taylor, A. M., has been appointed to the Mission of Emily, and parts adjacent, in the Newcastle District.

Public Meeting. On Thursday last at 3 o'clock, the adjourned meeting of the committee for the appointment of Sir Allan N. McNab, and Henry Sherwood, Esq. to proceed to England, in advocacy of the claims of the city of Toronto, to retain alternately with Quebec, the Seat of Government. Ward Committees to collect subscriptions to defray their expenses, were appointed, and Messrs. Dunn and Buchanan named to co-operate with them. [Toronto Transcript.]

To the Editor of the Chronicle & Gazette. Sir,—Nearly three months have now expired since the Kingston Races came off, and yet, as far as late years have been common, no account is laid before the public of the expenditure of money collected for that purpose; in the hope that you may do us the favor to publish in the columns of your journal, your giving insertion will oblige us. Subscribers to the Race Fund. Kingston, 1st Nov., 1841.

To the Editor of the Chronicle. Sir,—Would you be kind enough to inform your readers what preparations are making to receive the new Governor. Doubtless his reception will be commensurate with the exalted station he holds in the Royal service, and his Majesty, and his friends to the good citizens of the Metropolis of United Canada.

The Banners of the National Societies must be unfurled on the occasion and under the auspices of our worthy Mayor, I trust a cordial welcome will be given to the new Governor of Canada, and that the dignified society that prevailed on a former occasion will give place to those hearty British and Scotch Banners and Banners which are, and which will be happy to join. Yours obliged, Kingston, 2nd Nov., 1841.

ADVERTISEMENT. We are requested by Dr. Williams, Oculist, to copy the following from the "News" of Thursday. Mr. Williams.—By the following note addressed to us by Mr. W. W. Williams, we will be seen that this celebrated English Oculist has returned, and is prepared to relieve those afflicted with diseases of the eye. Of the efficacy of his remedies we can speak confidently, as during a residence of six months in this city, when the doctor was present in that city, several instances were under his observation—we may venture one instance, a gentleman with whom we were well acquainted had become totally deprived of the use of his eyes, and was in a bad state as to the prospect of recovery; he was in so bad a state as to threaten the speedy loss of his eyes. Mr. Williams, under whose care he continued for some time, and was eventually restored to the irretrievable loss of perfect sight with both eyes. We had occasion to remember this, when having frequently expressed to Mr. W. Williams, for the recovery of his eyes, we were glad to hear of his recovery of his sight. Mr. Williams may be residing either at his present residence in School Street, from 9 to 12 a. m., and from 2 to 5 p. m., or at the Hotel de la Ville, at 10 a. m. At the latter place he receives and attends to his patients. This Mr. Williams has uniformly done, whether for four or five years, but as there is a possibility of his leaving this city, we would advise all who are afflicted with any of the diseases to which the eye is subject, to make an early application.

To the Editor of the News. Sir,—I take pleasure in announcing, through the columns of your journal, that Mr. Williams, the celebrated English Oculist, has arrived in this city, and is prepared to attend to the diseases of the eye, and especially to those afflicted with blindness, and are just recovering from that dreadful calamity, as Dr. Williams, in compliance with the request, has consented to remain at his present residence until the 12th of October, at which time he will inform our readers that on the 12th he will be in Ottawa or the St. Lawrence, due notice will be given by Dr. Williams.

From the Canada Times. The son of Mr. J. B. Schourin, trader, who has been obliged to seek for some quarters past, was taken by his father as a last resource to Dr. Williams, the Oculist. After having applied for remedies for five days, the boy could see well enough to walk about alone, and there was every prospect of his obtaining the total recovery of his sight. This fine little boy now sees clearly. JOHN COOPER, Mayor. Kingston, Oct. 20, 1841.

From the Commercial Messenger. Through us ourselves are blessed with excellent eyesight, we can easily understand the pleasure which the following letter from His Excellency the Mayor of this city will afford to those afflicted with diseases of the eye, and especially to those afflicted with blindness, and are just recovering from that dreadful calamity, as Dr. Williams, in compliance with the request, has consented to remain at his present residence until the 12th of October, at which time he will inform our readers that on the 12th he will be in Ottawa or the St. Lawrence, due notice will be given by Dr. Williams.

Having been present to-day at the Methodist Chapel, where you were in attendance on, and observing that a great number of poor people, afflicted with blindness, were present, and having heard from most of them that they had derived great benefit from the application of your remedies; and being satisfied in my own mind, from the statements which they made, that your remedies were more efficacious than any other which they had used, and that you would be of lasting service to those afflicted with blindness, at their solicitation, and on their behalf I request that you will continue your benevolent exertions among them as long as your other engagements will permit. PETER MCGILL, Mayor.

N. B.—All persons afflicted in their eyes, must apply to him personally, or by letter post paid, (for a receipt to be sent to him) to Mr. Baymond's private Boarding House, Schourin Street, near the Public Office, where he will receive and attend to his patients, and from 9 to 12 a. m., and from 2 to 5 p. m. Mr. Williams may be residing either at his present residence in School Street, from 9 to 12 a. m., and from 2 to 5 p. m., or at the Hotel de la Ville, at 10 a. m. At the latter place he receives and attends to his patients. This Mr. Williams has uniformly done, whether for four or five years, but as there is a possibility of his leaving this city, we would advise all who are afflicted with any of the diseases to which the eye is subject, to make an early application.

And all afflicted, with weakness or inflammation of the eyes or eyelids, or dimness of sight, may purchase Mr. Williams' Remedies, No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

The Cornwall Observer says:—"We are happy to have in our power to inform those who are afflicted with diseases of the eye, and especially the blind, that Mr. Williams, the English Oculist, will pay Cornwall a short visit on his way from Montreal to Kingston. He intends leaving the former place on the 13th instant. Mr. Williams is now in this town, so that those who wish to avail themselves of his invaluable services have no time to lose. His humane exertions have been rewarded with the greatest success in Quebec and Montreal.

Mr. Williams, being apprehensive the Oswego Canal will be frozen, and be prevented from returning to his present residence at the Hotel de la Ville, he has sent to Mr. Williams, the English Oculist, to pay Cornwall a short visit on his way from Montreal to Kingston. He intends leaving the former place on the 13th instant. Mr. Williams is now in this town, so that those who wish to avail themselves of his invaluable services have no time to lose.
