We have much pleasure in learning from our enterprising Townsman, Captain Gildersleeve, that on Wednesday next, about three hours before the illumination commences, the fine new steamer just | would intimate, that as Christmas and New Year

We sympathize most sincerely with those innocent and injured individuals who are losing their all, and what is even worse, haunted by well-grounded apprebension that before day-light their dwelling may be a heap of ruins, their own and their children's lives jeopardized, as well as their property destroyed .-We cannot, however, go the length of our contemperary, in urging the kind of retaliation which he recommends. There is something in such a state of things revolting to our best feelings, and much as we deprecate war, with all its horrors, we feel that actual war would be preferable to it. The effect must be to depopulate that an application to the British Government for indemnity would be by far the best means of arousing their attention to an mountrous an evil, and induce them to compol the security of those holding policies, to remind £45ar, Mrs. moustrous an evil, and induce there to compol the security of those noticing posicies, to remain an army in detecting and punthern that those policies do not cover any France, George Fitzpatrick, Thomas ishing its abettors. We greatly fear, too, that such attacks will not be confined to the borders when the ice shell enable these secondrels to pass over readily; and we strongly recommend all the authorities to be on their guard—to watch every movement, and should it be necessary to take the same measures as were taken in 1828. MR. EDITOR, Sta-The startling and melancholy fart communicated in your last paper, that six of our race have periahed in the streets of our Term during the short period of twelve months, calls loudly on every one to exert themselves and produce without further delay a House of Refuge for the destitute. The apathy heretofore evinced speaks but little for the philanthropic views of the inhabitants of the Metro-

"how long shall this reproach remain 1"
By resolutions passed at a meeting of the inhabitants of this City, it has been determined to illuminate the Town next Wednesday, and that a public
Ball be given on the evening of the day following,
in honor of the birth of a Prince of Wales. With all due deference to the gentlemen composing that moeting, I do think that if the money thus to be expended was collected and given so aid for the erection of a House of Industry, it would answer a far better purpose, it would be a lasting monoment, livery, in Cash, or approved endorsed notes, at whereas the other, like a tale that is told, would 30 days, with interest, for which 10 per cent. pass away and be forgotten.

. While so this applicate I beg to call the public at the Reluge, nome years ugo the lebabiliants of this Town subscribed I believe upwards of one thousand pounds towards the erection of a General Hospital, a grant in aid was made by the Provincial Legislature, the building erected, but strange to say, it has sever been appropriated to its legitimate purpose—for what reason I cannot tell. It is now of a college until one could be erected—application was made to the trustees of the Houses of the Provincial Parliament, and there can be no doubt if the subject is brought before the Houses of Parliament next Session, that a sum fully equivalent, to that asked the Trustees of Queon's College would be obtained as a reatal. Now, Sir, here we would have a large fund which could be made available in the construction of a House of Industry and in the support of its inmates. Knowing that you Mr. Editor take a inmates.
