No. 1, PRINCES STREET, BANK, LONDON.

A POWERED BY AC OF PARLIAMENT AMES SAMPSON, Esq., MEDICAL REFEREE. THOMAS GREER, Esq., AGENT.

FINE real and substantial advantages afforded to the Public by well-regulated Establi-hments for the Assurance of Lives, and the sound basis on which there Institutions are founded, are proved, incontestibly, by their complete and continued sucoess, and by the remarkable fact, that, in no one instance, have they ever failed in their engagements, in consequence of an exhaustion of the Funds provided to meet the claims. So decided and so manifeet are the benefits resulting from the system of Life Assurance in general, both in regard to the Provision it affords to Families, in the event of prefeature death, and the Security it gives to Creditors for debts otherwise irrecoverable, that with every increase of information and intelligence, there appears to be excited, on the part of the public, an increased desire to partreipate in its protective advantages. So sound and unerring also are the principles on which Life Assurance Companies are based, that neither commercial difficulties and distrust, on the one hand, nor pestilential maladies, on the other, have ever yet affected their stability or impeded their successful progress.

The Directors of the BRITANNIA LIFE AS-SURANCE COMPANY are thus satisfied that they have rendered an acceptable service to the community by founding an Institution which affords the Benetits of Life Assurance in their fullest extent to Policy-holders, and at the same time offers greater facilities and accommodation than can be obtained present the outline of the plan of the Company to the Public, in full confidence that its merits will be appreciated, and that it will meet with a decided preference and support.

SECURITY and ECONOMY being the main objects to be regarded by Persons effecting Assurances on their lives, the Directors have at once discarded the eystem of MCTUAL ASSURANCE, which not only makes it imperative, on the part of the Assured, to pay much higher rates of Premium, in the first inrenders them liable to a contribution for the claims Capital, and in order to afford the means of effecting Arsurances with the greatest possible Economy, they have adopted a set of Tables, extensively varied, to suit the circumstances and convenience of every class of Policy-holders, and presenting the Cheapest Rates of Assurance that can be Offered,

without compromising the safety of the Institution. TABLE L Equal Rates of Pecanium.

able of Premiums required for the Assurance of £100 for the whole Term of a Single Life, in annual, half-yearly, or quarterly payments.

110		CAPIT	AL.	

The Company is supported by a Capital of ONE MILLION, which will be invested in such a manner as always to be immediately available, as the claims ly death arise. TABLES.

Table I. presents the Equal Rates of Premium payable either annually, half-yearly, or quarterly, for the whole term of life. The Policy-holder is not compelled, as in other Companies, to make his election, at the time the assurance is effected, whether he will pay annually, half-yearly, or quarterly, and baving once made an election, to adhere to it as long as the Policy remains in force. On the contrary, he will have the option, in this Office, of making such election at the beginning of each year, paying, if he think proper, the annual premium during the first year, two half-yearly premiums during the second, and four quarterly premiums during the Agency of the Quebec Fire Assutation of the Canada West, is now successive year, as may best suit his pleasure or

labour, from all the valuable and authentic records, at moderate rates of premium. relative to the contingencies of human life, which the Assurance of Lives according to an Increasing ing the lighest confidence. Scale of Premiums. In every existing Table of in-ereasing Rates, the Policy-holder is exposed to the very serious inconvenience of paying, after a given period, a considerable advance of premium or for-feiting his assurance altogether. But in the Britannia he would, by resorting to this Table, commence paying two-thirds only of the premium at the same age in Table I. and have the option, at the end of each successive period of five years, either of paying the increased rate stated in the Table, or of continuing the previous payment, and having the Sum As-sured diminished according to an Equitable Scale of Reduction. The importance of this improvement on

In addition to the published rates, an extensive set Twine of Different Sizes. of Tables has been computed for Assurance on Jointtives, the Survivor of two or more lives, and for Conlinge it Assurances; also for Reversionary Annuities, Eudowments for Widows and Children, and for every possible contingency affecting human life, exainst which it may be prudent or expedient to pro-

Tables have likewise been constructed for various Poreign Climates, and for different Chronic Disorders not attended with immediate danger o life. The extra charge being in no case greater than is accounts to J. Murray for payment. absolutely necessary to cover the increased risk. mation, as to the mode of effecting Assurances, may be obtained, either by letter or personal application. Full Subscriber has for sale a few de-door from the corner on Brock Street, North Subscriber Village and Park Lote more side of the Market Square, where he will be
