to culegare this body, for we detest the modern system of pulling every man as if he were a bag of wind. But the present condition of our corporate affairs, particularly the finances, demands a word or

The public know that there has been more done in improving the streets of Kingston during the last year, then for any previous five years, braides maintaining for the past six months a body of police that have been very useful in preventing crime and detecting criminals. The thought has no doubt occurred to many persons, that for all this their pock ets would have to suffer heavily by increased taxes. But we are happy to inform them that this will not be the case. The Finance Committee of the Cornoration have just completed a thorough investigation of their financial affairs, and they find that at the close of this year they will have about £1,800 in hand, after paying all claims against them, and for all improvements now ordered, in fact, for every thing except redeeming the £2000 of notes issued. There will probably be other improvements ordered to the amount of about £300 or £400, so that at the end of the year there will be a clear surplus of shout £1,400 towards redeeming the Corporation notes, if wanted, for they are not redeemable until the following spring. The market Tolls have been let for £690 per annum, to be paid quarterly in adcence, and on the best security. Under these circonstances, it is probable that steps will be taken during the coming winter towards erecting the following season a spacious and handsome MARKET House and Town HALL, one that shall be a pub-He convenience and an ornament to the town. In all this there is cause of congratulation. It will be remembered that but a very small proportion of the town revenue is expended in salaries, neither the Mayor nor any member of the Corporation receiving any thing, so that the taxes are laid out for the public benefit with as little deduction as possible. The following gentlemen have been appointed Assessors for the Town the current year : Ward No. 1 Henry Gildersleeve, Esq.

Samuel Mucklestone, Esq. Charles Hales, Esq. 4 Charles Heath, Esq.

that it is necessary for them to be prepared to answer the questions of the census lists and thus facilitate the labors of the Assessors. Mr. A. Mayne retains the Collectorship .- [He

Sin,-Will you be pleased to correct the error. which were made in your paper of the 16th current, by the Mechanic of Kingston, respecting the questhe proposer not notice those errors, or can be not give the frue answer himself? Why the variation of the false (298 acres) from the true (232 acres,) in-law to Lord Stanley,) for their zeal and ability is more than the contents of one of our lower country under the trying circumstances in which the compa-Seignorial lots here, (60 acres), Oh let not that Me-chanic turn a Mechanical Surveyor, and come down Scott and carried unanimously, when the meeting seto us here to lay out our land in large circles as parated. pounder, or some of the Surveyors or Literate of monk "some would like to get through the world tial English paper, contains all that might be said. of S. Forster & Co. in Sloth and Ignorance," did not apply to him in It contains enough, however, to make every Protesmany other cases it might well be applied in this. Inin heart sad, when it is remembered, that the Harrever, waiving all preamble, will you have the fuseyism the extract states is fast developing itself goodness through the medium of your widely diffused in Great Britain .-- [Christian Guardian. and useful paper to let the Mechanic have a little

straight lines joining their centres must pass through the points of contact by the 12th of Euclid's 3rd book, we have then an equilateral triangle the side of which is 3 miles: Multiply the square of the side by the tabular area 433, which gives the con-tent of the triangle 3,797 miles. In this triangle there are 3 equal Sectors equal in area to one of the Semi-eireles viz. 35,343 square miles, the difference of the area of the Sectors and the triangle is 3,627 which multiplied by 640, the acres in a square mile gives 232 acres 0 roods 20,48 polls, which is the content of the curvelineal figure or space bounded by the circles, and which is one of the quantities re-

Now if we could so order it that, 3,125 parts could remain between the area of the equilateral triwhich is the other required No.

One word more Mr. Editor-I think it very elrange that the Mechanic did not perceive the in-congruity of having his circles bounding 200 acres a greater diameter than those bounding 298 acres, mantain the lawfulness of prayer for the dead;" for the double of I mile 1150 yards is more than 3

The Dukes of Burkinglam and Benufort, and the Marquis of Salisbury are to be the fortunate recipients of the distinguished honour.—(Morning Herald.

BRITISH AMERICAN LAND COMPANY. On the 30th ult., the ninth annual meeting of the coprictors of this company was held at the London lavern, Bishopgate-street, G. R. Robinson, Esq., the chair. From the report it appears that the debt due by the company to her Majesty's Government had been settled by a surrender of part of their territory, and the expenses of the company at home and abroad had been greatly reduced. The District council of Sherbrooke, in Lower Canada, had since then passed a by-law, which imposed a tax of one penny per acre on the company's lands, which, if not disallowed, would not only absorb the existing funds, but eventually compel the sale of the remainder of the company's lands. It was hoped that the Secretary for the Colonies would see the injurious consequence of such a tax, after the numerous losses a which the proprietors had already been subjected by a series of unfortunate events in that country, and n the event of its removal, the directors expected to br able to effect such sales of their lands as would enable the proprietors to receive some return for heir large and hitherto unprofitable outlay. The eccipts to the present time were 234,1381, 17s. 10d. and the balance in hand was near 60001. 'The Chairman then stated that the interviews of the directors with Lord Stanley had as yet not enabled them to say that the tax would be removed. The number of icres liable to it was between 500,000 and 600,000. and the tax consequently between 20001, and 30001. annually. In answer to a proprietor, Mr. Craufurd said there was 6000 shares, and 371. paid out of the 501, share. Some suggestions having been made to the directors in respect to a further reduction of the expenditure, and the method of selling the land, the Chairman said the lands only needed capital and labor to make them most profitable, and he thought the period was not remote when the lands would be extensively sought after. There being between 700,000 and 800,000 acres, if an improvement of only is, per acre were effected on them, a sum of 35, 0001, would at once come to the proprietors. Mr. Anger informed the Chairman that he had received a letter from a gentleman in Hamburgh, in- ness, and have been ridden by ladies. Height forming him that he was coming over to treat with about 15 hands, the property of Hon. T. W. the company for a number of German emigrants .- C. Murdoch. Mr. Craufurd said he knew from experience that the Germans were the best settlers about the Lake Ontario, and during the war their conduct was excellent. After some remarks from Mr. Poynder, the report was adopted on the motion of Mr. Scott, and carried unanimously. A very complimentary vote of thanks was then proposed to the Chairman, deputy chairman, and directors, by Mr. Penrhyn (brother-

Puscyism .- It has often been asked, "What is

"What is Poscyism ?" It is (1) to "say anathema to the principle of Protestantism;" (2) to depart more and more from the principles, drawn or described, touching each other : they can of the English reformation;" (3) to " sigh to truch each other but in one point only, and the think that we should be separated from Rome;" (4) to regard " Rome as our mother, through whom church of England as being "in bondage, as working in chains, and as teaching with the stammering George Keogh, to present the same immediateing in chains, and as teaching with the stammering George Keogh, to present the same immediateing in chains, and as teaching with the stammering George Keogh, to present the same immediateing in chains, and as teaching with the stammering in chains. we were born to Christ." (5) It is to denounce the gize the Church of Rome as having "free scope to the feelings of awe, mystery, tenderness, reverence, and devotedness;" (7) and as having "high gifts, dersigned. and strong claims on our admiration, reverence, love, and gratitude." (8) It is to declare that our " articles are the offspring of an un-Catholic age ;" (9) and that the communion service is a judgment on the church ;" (10) it is to teach that the Romich "ritual is a precious possession," (11) and that the missal is a "sacred and most precious muniment of the anostles." (12) It is to 'assert that "the Scripture is not the rule of faith;" (13) that ced without note or comment in the hands of uninstructed persons, is not calculated, in ordinary cases, to make them wise unto salvation." (16) It is which is 1,3923 miles, or 1 mile 690 yards the radius to assert, that in the Lord's Supper, " Christ is pre-of the circle having just 200 acres between them sent, under the form of bread and wine:" (16) that he is then " personally and bodily with us;" (17) and that the clergy "are entrusted with the awful (19) to make "a distinction be ween venial and mortal sin;" (20) and to "assert that a person may be renerated, that saints may be invoked, that May inst., at one o'clock, for the purpose of there are seven sacraments, and that we may, with a good conscience, subscribe the 39 articles of the Church of England;"-[Oxford Chronicle.

> Church Diocesan Society .- A great meeting was held yesterday afternoon in the City Hall, for the purpose of forming the Church Society of the Dioese of Toronto. The Lord Bishop took the chair STRONG & GREER, will pay the amount on or Mr. Kent acted as Scorctary. A large proportion before the 10th day of May, next, otherwise By order of the President and Directors, of the Clergy from all parts attended in their robes - they will be placed in the hands of a lawyer and the Hall was filled with the laity of the church. for collection. Many admirable speeches were delivered and some 25 resolutions were passed, drawn up with great care are requested to send them in on or before the for the organization of the Society. We will notice the meeting fully in our next .- [Toronto Colonist.

Distressing Calamity .- It is our melancholy duy to record the sudden and violent death of Miss Ellen McKee, the daughter of a widow lady in this Town, who came by her death in consequence of the accidental discharge of a shot-gun, on the nipple of which her brother had just placed a cap when the fatal instrument went off and lodged its contents in the side of the deceased. Medical assistance was promptly obtained but the hemorrhage being inward the wound was beyond the skill of the faculty, and the sufferer expired about 20 minutes after it was received. No blame can attach to her unhappy bro-

A coroner's jury sat upon the body to-day (Saturday) and returned a verdict of ACCIDENTAL Friday, will be interred this afternoon .- [Western last heard of, was in Kingston. Any informa-

Deplorable Accident.—Yesterday evening, be-tween 8 and 9 o'clock, Mr. A. Vidal, ship-builder, accidentally met with his death in the following manner. Mr. Vidal had launched a ressel in the morning which was moored at Diamond Harbour Wharf, a short distance from Mr. Munn's new yessel; in the evening he went on board to see that all was right, and afterwards proceeded to visit Mr. Muno's ressel for a like purpose; but, we regret to state, that on leaving the latter, he fell overboard and was unfortunately drowned. The body was and was unfortunately drowned. The body was Street, opposite D. Keiller's Confectionary,
