TOFFAT'S VEGETABLE LIFE MEDICINES-IVE These Medicines are indebted for their name to their sanifest and sensible action in purifying the springs and channels of life, and conducting them with renewed and changes of the, and conducting them with releven-tone a of vigour. In many bundled certified cases which have been made public, and in almost every species of discuse to which the human frame is liable, the effects of Moffat's lite Pills and Phomix Bitters have been grateful-ly and sublicly asknowledged by the persons benefited, and who were previously unacquainted with the benuti-fully philosophical principles upon which they are compounded, and upon which they constantly set.

The Life Medicanes a commend themselves in diseases of every form and description. Their first operation is to loosen from the costs of the stomach and bowels the various imporities and crudities constantly settling as-

round them, and to remove the hardon dures which col-set in the convolutions of the smallest intestines. Other medicines only partially cleaner them, and leave such therein masses behind as to produce habitual continues, with all its tann of evils, or smaden durrhers, with the habitual charter. This fact is well known to all regular its small indicate, who example it must be well affected the partial or of those well-informations and hence the projective of those well-informations are not those well-informations or actions are not those well-informations or actions of the projective of those well-informations or actions of the projective of those well-informations or the projective of those well-informations or the projective of the projective d men against quack medicines, or medicines pre-pared and herabled to the public by ignormat persons. The second effect of the Life Medicines is to cleane the bedreys and bladder and by this means the liver and the engs, the healthful artice of which entirely depends upon the regularity of the urinary organs. The blood
which takes its red colour from the agency of the liver
and the langs before it passes into the heart, being purified by them, and neurished by find coming from a circutied by them, and nourished by long coming from a circulationach, overses receiv through the veins, renews exercive part of the system, and triumphantly mounts the ban-nes of health in the blooming check.

In almost all countries the office of public executioner is one which excites in the mind, feelings of unmitigated loathing and contempt, not more from the dandful nature of the functions which he is re-quired to perfo. m, than from the knowledge that, in general, the person so officiating is himself a victous body. In France, the office of executioner is established upon an entirely different footing; altho' subfunctionary; for in that country the office of public devolving to the next of kin, who is invariably ex-pected to accept the horrible charge, which may, friends with them to the ball, the four strangers, therefore, most truly be designated a family tenure. Formerly, this rule was obligatory, and enforced with the utmost rigor of the law; nothing could absolve the sons of nearest relations of these functionuries from following the dreadful calling of their fathers; and, in more instances than one, where Nature has recoiled from the task thus imposed upon them, young men have been known to expairiate themselves, rather than submit to the tyrannous law Company of Montreal, Passengers between Kingston and Montreal, arrive at those places on which doomed them to become spillers of blood; the afternoon of the second day.
