of Hives, Consumption, Pluricy, Hoarseness, Pains and
Soreness of the breast and lungs. Broochitis, a disease
that is sweeping hundreds to a premature grave, under
the fictitious name of consumption, can be cured by this
modicine. The usual symptoms of this disease (Bronrhitis) are cough, soreness of the lungs or throat, hoarseness, difficulty of breathing, anthms, bectic fever, a
spitting up of phlegm or matter, and sometimes blood,
it is nothing more than an inflamation of the fine skin
which line the inside of the whole of the wind tubes or
air vessels which run thro' every part of the lungs.

The peculiar virtues of this companied have for a long
time attracted the attention of the medical profession;
and a lively interest has receastly been directed to the
developement of their active powers and pulmonarie
qualities, which the proprietor is now able to gratify,
and presents this medicions to the public with full confldence of its beingthe most usfe and valuable remedy
ever discovered and shapted to all diseases of the lungs,
when any of the functions de not perform their natural
or healthy action.

It is universally believed that God in his providence
has not afflicted his children with pain and disease,
without at the same time giving them something in the
garden of acture that will not only mitigate, but is many
tasse contirely relieve them. With these views strongly
impressed on our minds, every one should feel a great
desere to investigate to the utmost of his power, the
great arens of nature, and to draw from that source
that instruction which the windom of man has failed to
attain.

In presenting this article to the public, the proprietor
was influenced by the hope that a medicine prepared
with much care and strict regard to the chemical properties of its several ingredicate, should take the place
