the afternion of yesterday, a respectably-dissent and felt that their accomplishment will be a faral man who was endcavoring to cross from the Longueil blaw to the peace and security of Louis ana, and of

The Tariff question may also be considered as mas precipitated into the water, in the midst of the crumbling fragments. He managed, however, to ex. tricate himself, and with great coolness and adroit-ness ultimately escaped from his dangerous situation. Crittenden, made from a knowledge of the senti-ments of Senators, that no change can or will be made in the tariff at this session, settles the matter. But the course of the House also settles it. They The prospects of the Timber business of this season have again refused, to-day, to go into committee on the new tariff bill, year 90, mays 92. This vote is considered as decisive of the views of the House .--One third, at least, of the minor members who voted tity made, though unusually large, will not be too great for the demand. With the exception of deep snow in the Eastern parts of the Timber producing district, the winterhas not been unfavorable for lumber-

For the Commercial Advertiser.

The following eloquent remarks of Mr. Calhoun "on the ratification of our late treaty with Great according to the best estimates, is nearly as f llows :- Britain," have a peculiar interest at the present juncture. They reflect back from the subject upon the smaker. As indicative of the temper with which Mr. Calhoun will enter upon the negociation of another boundary question, they are full of propitious omen. They declare a mind accustomed to view questions of international policy with a comprehen-sive eye-and to look far above the mock-patriotism which measures its own merit by the degree of its out its due effect in directing the operations of the Lambermen; for altho, there has been no increase in the article of Red Pine, about twice the quantity of will feel a satisfaction, amid the noise of cowardly White Pine has been got out this season. A large propertion of this timber is on the smaller streams, spectacle of these two eminent statesmen rebuking the clamor of prodetermined fault-finders, and ex-changing from their lofty position the honest conwaska rivers will reach the market much earlier, and gratulations, not of patriots only, but of philanthropin's. In these remarks we have a pledge that our foreign relations are in worthy keeping. And mo-mentary rumors will not easily disturb the confdence of reflecting men, that in such hands they will be administered in a spirit of magnanimity which will secure at once the peace and the honor of the

"I have now stated my opinion fully and impar-The business season seems to be opening with tially on the treaty. On reviewing the whole, and brighter prospects than usual. The facilities for trav-elling, and the transportation of merchandise, ulthough bereinfore good, are about to be greatly increased. If we have not gained all that could be desired, we Our neighbors, on the other side of the waters, are have gained much that is desirable; and if all has prepared to enter boldly into a fair competition on the not been settled, much has been, and that not of litroute from Kingston via Oawego to Niagara. Their the importance." "Nor is it of little importance to steamers are the best of sea boats—very commedious, have, by the settlement of these inveterate and diffiof good speed and as to their conveyances, will not cult questions, the relations of the two countries setwigon speed and as to their conveyances, will not cult questions, the relations of the two countries setsiffer in comparison with any on the Lake or St.
Lawrence. Our Canadian neighbors complain that
the American boals, the last season, abandoned their
