BUSINESS ENGAGEMENTS .- They are of far more importance than people generally suppose. By men who are thrifty and successful in making money, they are always promptly attended to; and when you know a man to be in a constant state of excitement, and always "hard pushed" for the "dollars needful," you may be sure that he seldom keeps an engagement. Promptness in keening them, and not competition, is the life of business. Often have we known a poor but honest man establish his credit the oppointed hour; and we have known more than one business man to lose his credit by thinking more of his cigar than the en- | cure of Coughs, Colds, Asthma, Croup, gogement he has made.

PROFABITY .- A man of sense will never swear. The least panionable of all vices, to which the folly or capidity of man is addicted, is that of swearing. Could be who so freely indulges in profanity and indecent language-in fine, could the profane swearer behold himself in a glass, as all others behold him-he would shrink from his own

image as from a thing of contamination. In other vices, more or less excuse may be found-the gratification of some passion, or indulgence of some appetite, may be pleaded us a palliation : but in this vice are no mitigating circumstances to be found-no plausible pretext for such fully.

RUSTIC COURTSHIP .- At a rustic merry making, Roger was seated facing Patty; enpassion in sly looks, and now and then touching Patty's toe, with his foot, under the table. Patty, either fearful that the pu i ty of her hose might be soiled, or determined to make the youth express a passion which he appeared so very warmly to feel, love me, why, tell me so; but don't dirty my

Theatrical Anecdote .- Mr. Macready' colloquial manner of delivering some of his most striking passages, furnishes the subject matter for a brace of amusing anecdotes in Wemyss' book:-

"In rehearsing the play of Virginius, at Baltimore, an occurrence took place which caused a hearty laugh at the expence of Mr. William Forrest, (brother to the Trage-

He has prescribed it in almost every variety of disease and with unparalleled success, espe-cially in Cutaneous affections, Cancerous, Scrofulous and Scorbutic diseases, and diseases originating from obstruction or enlargement of the Glands or impurity of the Blood.

CANCER and Cancerous Tumors.—He has

used this preparation in twenty-one well defined cases of Cancer and Cancerous Tumours, and in every case but one with perfect and entire success. BRONCHOCELE or Goitre, (swelled neck.) He has prescribed the Life Preservative in
