Forwarding.

The greatest possible activity prevails in this department in forwarding the vast quantity of flour and other provisions, with which our store-houses are loaded.

Our enterprising Townsman J. H. Greer & Co., have we understand already forwarded an immense quantity—and we observe several of their first class barges, now loaded or loading for departure.

We have no means of knowing the actual quantity already forwarded by other houses, but it must be very great—whilst scarcely an hour passes in which some noble steamer or beautiful schooner with their thousands of barrels does not come along side our wharfs to take the place of what goes away.

ISTER'S BALSAM OF WILD CHERRY.

This medicine, prepared by a long experienced and skilful physician, tested and approved by a great number of intelligent, discriminating and respectable persons in various parts of the country, is now received and use with confidence and with great success by those afflicted with pulmonary complaints. It is also recommended as a valuable medicine for other diseases, such as colds, coughs, and particularly diseases whose tendency is to consumption. Should its efficacy continue as it has thus far been proved in various obstinate cases, it will indeed be a most valuable medicine.
