## MARYLEBONE.

An Unlucky Squint .-- Yesterday a young woman, very splendidly attired, who gave her name Eliza Cook, was brought up on a warrant charged with having assaulted Marianne Washington, a young lady of equally stylish appearance, residing at No.

42, York square, Regent's-park. The complainant, a very pretty woman with slight obliquity of vision, being sworn, stated, that on the preceding day, as she was returning home from the park where she had been taking an airing, she met the defendant, who suddenly drew back as if some object of great aversion had met her eye, but after a moment's pause, she sprang towards her, and without the slightest provocation, spat full in her face. She expostulated with her, and inquired what she meant by adopting such a strange and unlady-like mode of salutation, to which the defendant replied with a countenance more expressive of anger than, contrition, that she always made it a strict rule to spit in the face of every squinting woman she met, as she considered it extremely unlucky to fall in with a person of that description; and, having given her this loconic explanation of her conduct, she hastily withdrew.

The defendant did not deny having committed the assault, but said in palliation, that the complainant had in return seized her by the nose & squeezed it violently, tearing at the same time, a handsom blonde veil which she wore. She, therefore, considered that she had been sufficiently punished. She was ordered to find bail.

DELICIOUS NOVELTY IN COOKING .- A journeyman tailor, named Edward Plank, was summoned to answer complaint of Mrs. Frances, the keeper of cook-shop in Norton-Folgate. Mrs. Frances said that on Monday the defendant, who had been in the habit of annoying her by entering her shop when full of customers and asking for plates of stewed cats. grilled monkeys, and other dishes, which she never sold, walked in tipsy, and ordered a pound of stock ing-feet pudding. She civilly told him she had none. "What! (said he) can you tell such a lie, when it was only this-blessed morning you bought the stockings off my feet to boil your pudding in."-The Alderman: You never could have had any dealings of the kind with him .- Complainant: Never, my Lord, with nobody. So he takes up a piece of plumpudding I just weighed out to a young woman, and he puts it to his nose, and says he l'Il give my outh that'ere pudding was boiled in my hose.

The young woman walked off, leaving the articles behind, and I took up a pint of beer I had just had in, and throwed it at his head, upon which he seized me by the shoulders, and shaked me so violently that I thought I fairly lost my skin, and I'm sore all over me from my neck to my toes ever since. - The Alderman: Well, defendant, what have you to say in answer to the tharge of having first injured the traof this poor woman, and then having assaulted her -Plank :- Please you, my Lord, I'm in the habit of getting my wittles in this city lady's shop, for she sells good things now and then, only sometimes she an't nice in such fuzzy weather, it won't keep sweet. -Well, my Lud, when I went in, says I, 'Mrs. Frances, do you steam your oven with gas ! - 'No. you blackguard tailor,' says she. So I sees a stocking laying on the counter, and says I, 'May be you make pudding bags of old stocking, and I can tell you shant have no custom of mine.' Upon that she up with the pot and flings it at my head. It's a common thing with cook-shops, there and one on e'm as don't sell stocking feet pudding in the dog day, and it's a rascally shame-Complainant, I don't care who sees the cooking in my house .- Plank; I never know'd one of you as liked for a person to look inoften from the houses all round; but I believe the neighbors an't kept awake all night by the cats; poor creaturs .- Complainant: I'm affeid of my life of this man, please you my Lord, I hope you'll send him to Noogate.-Plank: I won't do her harm, un Lord. I throwed her down a penny for the pudding but she would not deal with me, and I said these here shops ought to sell to poor people, or they ought to shut up for ever,-The Alderman; And what would you have done with the pudding? -Plank; Done? why I'd have just are every bit of it .- The Alderman: Now that convinces me that you wished to do this poor woman an injury; for if it had been what you call stocking feet pudding, you would not have touched it. You must find ball to answer for this assault .- London Paper.

Power of Machinery in Great Britain. - Mr. W. Pare, at a public meeting lately at Birmingham stated, in proof of the increase of the powers of production, by the improvement of machinery, that in 1792, the machinery in existence was equal to the labor of ten millions of laborers; in 1827, to 200 millions; and in 1833, to 400 millions. In the cutton trade, spindles that used to revolve 50 times in a minute, now revolve in some cases \$,000 time in a minule. At one mill at Manchester there are 180,000 spindles at work, spinning one million two hundred thousand miles of cotton thread per week. Mr. Owen, at New Lanark, with 2,500 people, daily produces as much cotton yarn as will go round the earth twice and a half. The total muchinery in the hingdom is calculated now to be equal to the work of 400 millions, and might be increased to an invalculable extent, under proper arrangements .-- Birmingham Journal.

> The Chronicle falls foul of the Spectator for representing true state of Kingston. In corroboration of our learned cot. perary's statement, we shall give a list of the houses shops at present unoccupied in Store Street, the leading the of business of a town containing less than 4000 inhabites

At the top of the street are the houses of Mr. Bryant and late Mr. Vanalstine: below them is the late store of Rose. Cameron, most door is the late stoop of Nr. Heath; us not posite are two sleeps belonging to My. G. H. M' Leure; near hum is a shop belonging to Mr. C. Hatch; epposite is the by store of Parker & Ben ou; mext corner is the late store of Dext & Vanalstine; opposite is a store belonging to Mr. Tragbelow that is the late store of Mr. Wm. Leaslie; opposite is late shop of Mr. John Thomas; lower down on the other six is the house of the late Mr. G. M'Kenzie; some distance let er down is a small shop next door to Mr. Bearn's; opposite the late store of Mr. Haycock; opposite are the houses Messra. Bidwell & Kennedy. All the above mentioned area this present time uneccupied; two or three we believe are ken, but only one is by a new inhabitant.

The main cause of this desertion of the town is to be for in the extreme party spirit which is displayed by the tea who have at present the upper hand; they commenced displaing this spirit at the election of the Commercial Bank Director for the present year, turning out J. G. Parker, Esq. the h gest morehant in the town and the man most capable of a one person to discharge the duties of Director, and placing M James Sampson in his room! What was the consequence Mr. Parker at once closed his lusiness and left the town, a more than thirty families have since fellowed his example satisfied, that if party feeling predominated over the merca tile relations of society, that Kingston was no place for

That Kingston will recover from its present stagnated state is our canest hope and belief, but that expectation does not di minish the suicidal conduct of the Tories, who to gratify malignant spirit have not besitated to drive away from amou them a large portion of their fellow townsmen.

We offer the following as a choice sample of the species of newspaper composition, styled twadd It is taken from that most learned of all learne newspapers, the Toronto Recorder. Verily Me Bull is a great .1ss.
