KINGSTON FOUNDRY.

THIS Establishment is now in full operation, and the Proprietor is resolved to spare no expense to render it worthy of public encouragement. He trusts that as to materials and workmanship, and variety of Castings, the KINGSTON FOUNDRY will be found second to no similar establishment, and that there will hereafter be no necessity for sending to the United States for Castings, when they may be had in this Province.

There will be kept on hand, or manufactured to order all kinds of

Castings for Saw Mills and Flour Mills.

The establishment is now furnished with patterns of the Oswego and Rochester plans, and persons building Mills can be supplied with good Castings on as reasonable terms, as they can be procured in the State of New-York.

Saw Mill Cranks; Fulling Mill Cranks; Mill Screws, at £3; Lighter Screws and Clothier's Screws; Die Stalks, Taps, and Dies for Screwing Bolts, on the best plan; Sleigh Shoes and Fanning Mill Irons; Four different kinds of Ploughs; Waggon Boxes; Pipe Boxes, and Axle-trees for Carriages.

Screw Tops made from 4 to 20 threads to the inch. Letters cut for brands and stamps.

BRASS CASTINGS

made of every dimension. Cast Steel Axes, wholesale or retail. All kinds of Iron Finishing done in the best manner.

In addition to the present conveniences for casting, the proprietor is now building a Cupola, so as to be able to make a casting from 1000 to 2000 lbs. weight.

FORWARDING.

THE OTTAWA STEAMBOAT COMPANY having increased their Capital Stock by the purchase of three Steamboats on the RIDEAU CANAL, in order to complete and extend their line to Kingston, will hereafter transact their business under the name of THE OTTAWA AND RIDEAU FORWARDING COMPANY.

The undersigned, the committee chosen to manage the affairs of said Company, are determined to use their best endeavours to secure the confidence of the public by having a sufficient number of Steamboats and other craft on the OTTAWA and RIDEAU waters, suitable stores, and steady, capable and attentive agents, clerks, and conductors to perform the forwarding business with fidelity, safety and despatch.

Although the committee would not wish to underrate the advantages of any other route, they confidently solicit the encouragement of the public in general, as their charges will be moderate, and they trust that losses and vexatious disappointments caused by delay and damage may be avoided, both upward and downward, by having their persons and property conveyed on this route.

For Emigrants, this line of communication is particularly adapted, as they may embark on their luggage along with themselves, on board a covered boat, and continue in the same the whole length of the line to Kingston, being towed the entire distance.

The committee consider insurance unnecessary, from the superior safety of this route, but as accidents cannot always be avoided, any persons confiding property to their care are particularly requested to order insurance, if they wish it to be done.

On the opening of the navigation, the Company will be ready to do an extensive business—with the following boats.

The Shannon, receiving two new engines of 40 horse power each.

A New Boat building to receive the Shannon's engine, 56 horse power.

The Ottawa with a 50 horse engine, and the St. Andrews—together with Five Steamers on the RIDEAU CANAL, and a competent number of covered Barges.
