PROSPECTUS OF THE FARMERS' JOINT STOCK BANKING COMPANY, AT TORONTO.

Copital £500,000, in 50,000 Shares of £10 each.

The establishment of Joint Stock Banking Companies has been proved their great success in various parts of the United Kingdom, to be of Institutions of this description have existed in Scotland for upwards of 100 years, and the experience of their benefits, amply proved before a

committee of the House of Commons, induced the Legislature in the year 1926, to pass an act expressly for their encouragement in England.

It is now no longer doubted that Banktog companies possessing an adequate capital, advanced by an influential and affluent body of proprietors, are most admirably calculated to sustain public confidence in times of di ficulty, and to confer extensive advantages upon the Asianoo at large. A well conducted company, whose offairs are cheerly investigated by a Board of Directors, and the results half yearly submitted to the proprietors, can never be injured or inconvenienced, in the very worst times, to the same extent that private establishments may be; for the known fact that they possess a well secured capital, and have ample resources, would quiet the apprehensions of timid depositors, and prevent the necessity sudden or ill-timed contraction of legitimate discounts

To the proprietary of the proposed concern it can scarcely fail to prove of equal advantage, as may be inferred from the success of other companies of a similar character; the high premiums, borne without any known exception, by their shares, afford the be-teriterion of the extensive utility and the profitable nature of such a joint and mutual system of banking. Many gentlemen have long been of opinion, that an eligible opening presents uself for an additional bank in this province, the commerce rade, population, and wealth of which have of late years been advancing with such a steady progress; and having strentively considered the fore going facts, they are decidedly of opinion that it should be established upon the principles of a Joint Stock Company, as affording the best guarantee for permanent success. The originators of this institution wish it however to be clearly understood, that in its establishment they are not actuated by any unfriendly feeling towards either of the respectable banks existing in this city.

isting in this city, or in this vicinity.

The following outline is submitted to the consideration of the public, as the basis of such an establishment, subject to such modifications as the proprietors may hereafter determine on. At a meeting held at the Agricultural Bank in the City of Toronto on the 24th day of April, 1835; Dr. C. Duncombe, M. P. P. in the Chair.

1. That the Bank shall be called "The Farmer's Joint Stock Banking Company."

2. That the capital be \$00,000l to be raised in \$0,000 shares of 10l. each. 3. That u call of 10 per cent. shall be made, to be paid up as follows: viz. 2 per cent. on subscribing, 4 per cent. on opening, and the remaining 4 per cent. in two months. If further calls should be found desirable. they shall be made as the Directors may appoint, not exceeding five per cent, every three months.

4. That as soon as 25,000 shares shall have been subscribed for, a ge

neral meeting of the shareholders shall be called for the purpose of ap-pointing a Board of Directors, and making other requisite arrangements preparatory to the opening of the Bank; but that the provisional committee shall have power (if they think proper) to permit shareholders to pay up the last instalment sooner than the period above limited, and to allow 6 per cent, interest thereon; and in that case, such meeting shall be called

as soon as 30,000%, can be realized as a starting capital,

5. That the superintendence of the concern shall be confided to a Board of twelve Directors, to be elected by ballot, by the sharehoblers, and that no credit shall be given or continued contrary to the advice of a majority of

6. That the Directors shall from among themselves select one not engaged in business, who, in conjunction with the President and manager or in his absence a sub-manager, shall have the enstody of the Bank chest, containing the surplus cash not required for immediate use, and the chief superintendence of the more private parts of the concern, especially those relating to bill transactions and applications for credit. 7. That the order in which the Directors shall stand in the list shall be determined in the first instance by lot, and the first three on the list sh

so out annually by rotation, but may be re-elected.

8. That the Directors shall appoint a President and manager, one more sub-managers, the clerks, and the other officers of the Company including Bankers, Brokers, and Agents in London or elsewhere; and require security in such cases and to such extent as they may deem needful, according to their respective saturations; and shall have the sole pow er of removing any such parties or officers. 9. That no person shall be eligible as a Director who is not a subscriber for, and afterwards an actual holder of at least 50 shares; and that

every manager shall be a holder of at least 50 shares, and every sub-manager of at least 36 shares.

10. That no person shall be allowed to subscribe for more than 400

11. That the scale for regulating vo'es at general meetings shall be, It shares, 1 vote-30 shares, 2 votes-60 shares, 3 votes-100 shares, 4 votes. Proprietors resident more than 50 miles from Toronto, may give their votes by proxy, through the mediant of any qualified shareholders.

12. That neither the books of the Bank, nor any of the hills nor securithe which may pass through the same, shall be open to the inspection of the persons duly appointed for a special purpose, in order that the credit and private transactions of individuals may be preserved inviolate. 13. That the accounts of the company shall be made up half yearly

Toronto, Thursday, at noon, and arrives at Niagara, and a general summary of them, without any specification of names and individual credits, shall be laid before the proprietors at an annual meeting, when a dividend, founded on actual profits, shall be declared. 14. That a guarantee fund shall be provided to meet the extraordinary losses or emergencies, by apportioning such part of the annual profits beyoud 6 per cent, on the paid up capital as may hereafter be agreed on. 15. That in the event of the loss of the guarantee fund, and 5 per cent. of the subscribed capital, it shall be in the power of any shareholder to lissolve the company, unless other shareholders think proper to continue

the concern, in which case they shall pay the dissentient the then value of of his or her shares, to be ascertained in case of difference by arbitration 16. The capital of the Company shall not in any case be invested in fo reign loans, mining institutions, or merchandise 17. That a deed of settlement shall be prepared, containing all accessary clauses for the protection of the proprietors, and giving the company lieu upon the shares of any proprietor, on whose responsibility the Di rectors may have felt themselves justified in making any advance.

This Company contemplates the establishment of branch banks in other Districts, where promising openings may present themselves as soon as it may be be deemed advisable. CHARLES DUNCOMBE, M. P. P. in the Chair. That a provisional committee he now formed, consisting of the follow

ing gentlemen, with power to add to their number, viz. The members of the House of Assembly, the Post Masters, the Treasurers, the Sheriffs, the Clerks of the Peace in the several Districts in this That the above committee be empowered to receive and report on applications from persons wishing to take shares; to collect further information, and to report their proceedings to Messrs. Truscott, Green & Co. at Toronto, for them to submit the same to another meeting, to be called as soon as it may be deemed expedient.

PROSPECTUS OF A WORK TO BE PUBLISHED BY J. MACKINTOSH.

IN compliance with the request of numerous friends threughout Lower and Upper Canada, as also the States, I have now finished my work, to be entitled "THE ANTIQUITY OF THE GAEL OF ALBYN AND ERIN," "A VINDICATION OF THE NATIONAL CHARACTER OF THE GAEL," AND A GRAMMAR OF THE GAELLIC LANGUAGE," which will be sent to the press as soon as a subcient number of subscribers can be procured.

In compiling this brief sketch of the amignity of the Onel, I have col-

leated my underials from the most exteemed antiquaries that trave dis-

cussed the subject. A few projudiced writers are the only historians who have questioned the high antiquity, learning and early eividization of

the Gaef, while both Greeks and Romans have left maple testimonies behind them which sufficiently support the pretensions of the Gael.

The ignorance of such however, it must be reinterked, was owing to

terest and amusement. Or an Inquiry into the Origin and History of the Irish, SOME of the Greatest and most Important Discoveries had their rise One of the most distinguished Members of the Highland Society of Kingdon, in a company where the author of this "Inquiry" was present, asserted that "the Irish had their origin from the Highland, or (what he called) Celtic Scots: and that the Progenitors of both the one, and the other, had come across the Strutt of Dover, from the continent of Europe!" This simple occurrence determined the Author to institute this inquiry. 11. That all who have rightful claim to the Galic and Irish as their na-
