is most decided public utility.

AT TORONTO. Capital £500,000, in 50,000 Shares of £10 each.

The cetablishment of Joint Stock Banking Companies has been proved by their great success in various purts of the United Kingdom, to be of

tee of the House of Commons, induced the Legislature in the year 1926, to pass an act expressly for their encouragement in England.

It is now no longer doubted that Banking companies possessing an adequate capital, advanced by an influential and affluent body of proprietors, are most admirably calculated to sustain public confidence in times of difficulty, and to confer extensive advantages upon the Anunos at large.

A well conducted company, whose affairs are closely investigated by Board of Directors, and the results half yearly submitted to the proprietors, can never be injured or inconvenienced, in the very worst times, to the same extent that private establishments may be; for the known fact, that they possess a well secured capital, and have ample resources, would quiet the apprehensions of timed depositors, and prevent the necessity of sudden or ill-timed contraction of legitimate discounts.

To the proprietary of the proposed concern it can scarcely fail to prove of equal advantage, as may be inferred from the success of other companies of a similar character; the high premiums, borne without any known exception, by their shares, afford the be-teriterion of the extensive utility and the profitable nature of such a joint and mutual system of banking. Many grademen have long been of opinion, that an eligible opening presents itself for an additional bank in this province, the commerce, trade, population, and wealth of which have offate years been advancing with such a steady progress; and having attentively considered the fore-going facts, they are decidedly of opinion that it should be established upon the principles of a Joint Stock Company, as affording the best guarantee for permanent success. The originators of this institution wish it how-ever to be clearly understood, that in its establishment they are not actunted by any unfriendly feeling towards either of the respectable banks existing in this city, or in this vicinity.

The following outline is submitted to the consideration of the public, as the basis of such an establishment, subject to such modifications us the proprietors may be caffer determine on. At a meeting held at the Agri-cultural Bank in the City of Toronto on the 24th day of April, 1835; Dr. Onncombe, M. P. P. in the Chair.

neral meeting of the shareholders shall be called for the purpose of appolyting a Board of Directors, and making other requisite arrangements preparatory to the opening of the Bank; but that the provisional committee shall have power (if they think proper) to permit shareholders to pay up the last instalment sooner than the period above limited, and to allow oper cent. interest thereon; and in that case, such meeting shall be called as soon as 30,000t. can be realized as a starting capital.

5. That the superintendence of the concern shall be confided to a Board of twelve Directors, to be elected by ballot, by the shareholders, and that no credit shall be given or continued centrary to the advice of a majority of the Board of Directors. 8. That the Directors shall from among themselves select one not engaged in business, who, in conjunction with the President and manager

or in his absence a sub-manager, shall have the custody of the Bank chest, containing the surplus cash not required for immediate use, and the chief superintendence of the more private parts of the concern, cape cially those relating to bill transactions and applications for credit. 7.
