PROSPECTUS OF THE FARMERS' JOINT STOCK BANKING COMPANY, GLOUCESTER HOUSE ESTABLISHMENT AT TORONTO.

Capital £500,000, in 50,000 Shares of £10 each.

The establishment of Joint Stock Banking Companies has been proved by their great success in various parts of the United Kingdom, to be of he most decided public utility.

Institutions of this description have existed in Scotland for upwards of 100 years, and the experience of their benefits, amply proved before a committee of the House of Commons, induced the Legislature in the year 1928, to pass an act expressly for their encouragement in England.

It is now no longer doubted that Banking companies possessing an adequate capital, advanced by an influential and affluent body of proprietors, are most admirably calculated to sustain public confidence in times of dif-Sculty, and to confer extensive advantages upon the Antinos at large.

A well conducted company, whose affairs are closely investigated by a Board of Directors, and the results half yearly submitted to the proprietors, can never be injured or inconvenienced, in the very worst times, to the same extent that private establishments may be; for the known fact that they possess a well secured capital, and bave ample resources, would ulet the apprehensions of timid depositors, and prevent the necessity of sudden or ill-toned contraction of legitimate discounts.

To the proprietary of the proposed concern it can scarcely fail to prove fequal advantage, as may be inferred from the success of other compaes of a similar character; the high premiums, borne without any known exception, by their shares, afford the be-teriterion of the extensive utility and the profitable nature of such a joint and mutual system of banking. Many gentlemen have long been of opinion, that an eligible opening presents itself for an additional bank in this province, the commerce trade, population, and wealth of which have offate years been advancing with such a steady progress; and having attentively considered the foregoing facts, they are decidedly of opinion that it should be established upon the principles of a Joint Stock Company, as affording the best guarantee for permanent success. The originators of this institution wish it however to be clearly understood, that in its establishment they are not actuated by any unfileddly feeling towards either of the respectable banks ex-

isting in this cit, or in this vicinity. The following outline is submitted to the consideration of the public, as the basis of such an establishment, subject to such modifications as the proprietors may bereafter determine on. At a meeting held at the Agriultural Bank in the City of Toronto on the 24th day of April, 1835; Dr.

C. Dancombe, M. P. P. in the Chair. 1. That the Bank shall be called "The Former's Joint Stock Banking

That as soon as 25,000 shares shall have been subscribed for, a general meeting of the shareholders shall be called for the purpose of appointing a Board of Directors, and making other requisite arrangements preparatory to the opening of the Bank; but that the provisional committee shall have power (if they think proper) to permit shareholders to pay up the last instalment sooner than the period above limited, and to allow 6 per cent, interest thereon; and in that case, such meeting shall be called as soon as 30,000L can be realized as a starting capital.

5. That the superintendence of the concern shall be confided to a Board of twelve Directors, to be elected by ballot, by the shareholders, and that no credit shall be given or continued contrary to the advice of a majority of the Board of Directors. 6. That the Directors shall from among themselves select one not engaged in business, who, in conjunction with the President and manager,

or in his absence a sub-manager, shall have the custody of the Bank chest, containing the surplus cash not required for immediate use, and the chief-aperiatendence of the more private parts of the concern, especially those relating to bill transactions and applications for credit. 7. That the order in which the Directors shall stand in the list shall b determined in the first instance by lot, and the first three on the list shall go out annually by rotation, but may be re-elected.

 That the Directors shall appoint a President and manager, one of more sub-managers, the clerks, and the other officers of the Company including Bankers, Brokers, and Agents in London or elsewhere; and require security in such cases and to such extent as they may deem need ful, according to their respective situations; and shall have the sole pow er of removing any such parties or officers. 9. That no person shall be cligble as a Director who is not a subseriber for, and aderwards an actual holder of at least 50 shares; and that
