"O," said he once to me, "I have seen the footprints of the Indian and panther where now the fields are white with harvest; they have possed away with the wildness, and my own grey head will soon lay down in the dust-I must not murmur-yet I will be the last who has witnessed nature on this spot in her naked and solitary grandeur; but if I could once again exhibit a panther skin as the trophy of my old age, I could even forget

great-he expired in a short time after.

Barclay's celebrated feat-celebrated feel, too, if you will-of walking a thousand miles in a thousand successive hours, we considered to be a wonderful instance we can vouch. The wager " came off" within three or four years; the parties to it are living, and the winner has the honor of appending F.R.S. to his name. " I will bet any man one hundred pounds," said one, " that he cannot make a million strokes with pen and ink within a month." These, he it observed, were not to be mere dots or scratches, but fair down-strokes, such as from the child's first lesson in writing, and which even the Rev. Sydney Smith, whose intellectual powers are of no common order, has lately confessed his inability to accomplish. Bat all minds are not for all things. A gentleman present, with noble self-reliance that augured success, gallantly stepped forward, accepted On the hanks of the beautiful Susque- the challenge, and (having resolved to aphannah, lived some years ago an indivi- ply his mental faculties to the interesting hours' labor in every four and-twenty !-When we reflect by how much this exceeds the time daily devoted by Sir Walter Scott to the composition of his immortal fictions, some notion of the gigantic nature of this task may be formed, as well as of those powers which were brought to its accomplishment. But this is not all .-With a proper feeling of the respect due to the observance of the Sabbath, the intrepid acceptor of the wager determined to abstain from his work on the Sundays; and although, by this determination, he diminished by four days the period allowed him, at the same time that by so doing he increused the daily average of his strokes to upwards of forty-one thousand, there can be little doubt that the consciousness of the propriety of this sacrifice frequently cheered him in the course of his Herenlean labor. On the first day he executed about fifty thousand strokes, on the second nearly as many; but then his mind was fresh and unwearied. To say the truth, his mind never flagged; at the last stroke of the million that remained as bright and as vigorous as it was at the first. But at length, after many days, the hand became stiff and weary, the wrist swollen; and it required the almost constant attendance of it, without interrupting its progress over the paper, with a lotion calculated to relieve and invigorate it. And lo! so certain of success is well-directed perseveverance! the goal is attained—the exploit is achieved! On the three-and-twentieth day the million strokes (exceeded by some few thousands, to "make assurance doubly sure") are accomplished; and the ples of paper that exhibited them, testify that to the courageous heart, the willing

"Certainly," said Sir Richard, handing the gentleman the note, and quite sure at the same time there was no such marks as the other had described. The applicant glanced at the note in a careless way for a mere instant, pronounced it not to be his, returned it to the Magistrate, thanked him very politely for the courtesy shown him, and boving, left the Court. A few hours after another gentleman, equally respectably attired, made a similar application, stating that he had seen the advertisement combent length together, then suddenly in the papers, and had no doubt the note expanded itself, sprung through the air to- was his. " In that case," said Sir Richwards its victim. WESTMINSTER COURT OF REQUESTS. The following novel case came on lately before the Commissioners of this Court, and created considerable astonishment and laughter :-

it had obtained.

A cab proprietor, named Watson, summoned Mr. George Wyld, the lessee of the Olympic Theatre, for £5, under the following singular circumstances :- In order to give due effect to a scene representing the cab-stand at Temple-bor, in the new drama of the Road of Lefe, a real cab and horse had been engaged by Mr. Wyld, to be driven off the sta as a cabman, at the end of the first act, being hired off the rank_by one of the characters, who orders the cabman to drive him to Blackwall. The cab-owner of whom the vehicle was hired happening a drive to Blackwall. Under an extraordinary hallucination that the cab and horse had actually gone to Blackwall, and that

Mr. Lewis, treasurer of the Olympic Theatre, appeared in the Court for Mr. Wyld, and explained to the Commissioners the extraordinary and almost incredible delusion under which the plaintiff was laboring. " The fact is, gentlemen," said Mr. Lewis, "both Temple-bar and Blackwall have been brought within the walis of the Olympic Theatre-Temple-bar is on the stage, and Blackwall (the destination of the cab) is in the painting-
