

as they have hitherto done, free of all port-charges, "if they only carry passengers, letters, or baggage," but if they carry any other articles, however small the quantity, they are to pay tonnage dues at the rate of one shilling per ton register. This article further provides for the smallest of such vessels being considered to be 75 tons burthen, and the largest 150 tons burthen; beyond which last size they are to be classed as foreign ships, and to be charged tonnage dues according to Article 5th of the General Regulations.

The following three rules were further laid down in this Article, which is only applicable to the port of Canton, for the guidance of these small vessels.

"1. Every British schooner, cutter, lacha, &c., shall have a sailing letter or register, in Chinese and English, under the seal and signature of the Chief Superintendent of Trade, describing her appearance, burden, &c. &c."

"2. Every schooner, cutter, lacha, and such vessel, shall report herself as large vessels are required to do at the Bazaar Tientsin, when she carries cargo, and shall report herself at Whampoa, and on reaching Canton deliver up her sailing letter to the British Consul, who will obtain permission from the Hoppoo for her to discharge her cargo, which she is not to do without such permission, under the forfeiture of the penalties laid down in the 3d clause of the General Regulations."

"3. When the inward cargo is discharged, and an outward one (if intended) taken on board, and the duties on both arranged and paid, the Consul will restore the register or sailing-letter, and allow the vessel to depart."

The Consular Commission is authorized to conclude the Supplementary Treaty being immediately carried into effect; that on receiving the gracious assent of the Emperor in the vermilion pencil, the Imperial Commissioner will deliver the very copy of the treaty containing it into the hands of His Excellency Hwang, judge of Canton, who is to proceed to such place as the British Plenipotentiary may appoint, and deliver it to the Plenipotentiary to have and to hold.

"Afterwards the sign manual of the Sovereign of England having been received at Hong-Kong, likewise graciously assenting to the confirming of the treaty," the British Plenipotentiary will dispatch that copy of the treaty containing the Royal sign manual, by a special appointed officer to Canton, to deliver it into the hands of his said Excellency Hwang, who will forward it to the Imperial Commissioner as a rule and guide to both nations for ever, and as a solemn confirmation of our peace and friendship."

ROYAL MARINE RESIDENCE.

The treaty for Norris Castle has terminated unsuccessfully, and it is stated that the improvement was the high price required. If this be the case, a correspondent has suggested a plan admirably adapted for the proposed object where the sum required is not likely to be an obstacle. Our readers must have heard a few years since very much about the Baroness de Feuchères, whose complicated law proceedings ended very triumphantly two years ago; she however, was only spared a year or two to enjoy her triumph success and her great wealth. It may be remembered that she erected a splendid mansion villa, in the New Forest, close to Christ Church, where the bathing is proverbially as good as any in England. We have been favored, at Mr. George Robins's office with a sight of the drawings, which were executed by a first-rate artist of Southampton, when the sale was in contemplation, three years ago, and it gives a very good idea of the imposing character of the building. Some little notion may be formed by an intimation that this splendid abode cost twenty thousand pounds, quite independently of the little park, of thirty-one acres, and the beautiful gardens and grounds that surround it. It is accompanied by the attractive feature of the New Forest; and the accommodation, it is apprehended, is quite equal to the expectation the word "comfort" would imply in its most comprehensive meaning. Besides its great desideratum will be found in its approximation upon the sea, from which it is only distant a short five minutes' walk. This favored property is consigned by the present owner to the late Mr. George Robins's hammer in the spring, but he will necessarily be too happy to negotiate for its occupation by our good Queen and her lovely infants during the coming summer.

Some faint idea of the sort of place we have been noticing, may be inferred from a very short but pithy paragraph of "the knight of the hammers," which we extract from his printed particulars of the same—"The Baroness has given unequivocal proof of her extraordinary taste in the arrangement of this domicile; and the accommodation is so perfect, as to leave nothing to be desired. Twenty-five beds can, on an emergency, be made up. The arrangement has evidently been planned by the hand of an artist, and is highly admired. It is very nearly perfect in every respect, indeed, seems to reign triumphantly through these regions of splendour and delight."

The effect in the grand suite is absolutely electrical. The entire to the mansion is by a lodge of clever design and a cautious route through the prolific plantations and pleasure grounds leads to the novel scene of several rural bridges across the meandering stream, which is seen pursuing its natural course until it is exhausted in the wide ocean. Such is a brief outline of Mr. George Robins's description. If Royalty do not entirely fall in love with it, he will offer it for unreserved sale in the month of May, together with the elegant furniture and effects. It is a five hours' journey only from the metropolis.

MURDER OF LORD NORMANBY'S KEEPER.

Another instance that proves the inefficiency of the present game-laws, happened on Tuesday last, the 30th instant, at two A. M., at Mulgrave Castle, the seat of the Marquis of Normandy. It is stated that the Earl of Mulgrave had been entertained a party of gentlemen at that mansion, and that after shooting on Monday, the keeper attended by six watchers, went to watch the woods, as is customary. But perhaps a better view of the case may be attained by our readers if we give the evidence taken before two magistrates who happened to be staying at the house at the time:—Charles Loewher, thirty-seven, for the wilful murder of William Moffat, keeper to the Marquis of Normandy; and Matthew Pierson, nineteen, as accessory to the murder. T. Bell, Esq., M. P., of Thirsk, and E. M. Tuckey, Esq., of Kildale, Cleveland, two of her Majesty's Justices of the Peace for the North Riding of Yorkshire;—William Moffat deposed:—I am gamekeeper to Lord Normanby, and proceeded, as is my custom, to watch, accompanied by six other men. About two o'clock, I heard some shots fired in the direction of South-Loke, and we went thither. After consulting ourselves for some time, the witnesses and I then came on, and I went forward and fired at him. "Halloo!" He immediately stepped back and fired at me, the shot entering my abdomen. (At this stage of the evidence, the prisoners kept crying out, "O Lord accept my soul.") "Christ save him!" I immediately fell, and cried out, "I am murdered!" One of the watchers then rushed forward, and he knoed him down with the butt end of his gun. Two other men succeeded in catching him. The other excepted. By Mr. Tuckey's evidence we were armed with guns? No, we had only

sticks. Did you say anything but "halloo?" No. No words of intimidation?—No; when I was lying on the bank he said, "O, forgive me, and shake hands." I said, "I will, if you will tell me who was the other man?" and he said "Matthew Pierson, of Eskdale-side." This witness gave his evidence in great agony, and lingered on till Tuesday evening, when he died in excruciating pain. Three watchers then substantiated this evidence. Matthew Pierson said he would give voluntary evidence. He was a farmer's servant in Eskdale-side; that Charles Loewher had taken him out poaching twice before; that this night they had shot four pheasants when the sad catastrophe happened. They were both committed to York Castle for their trial at the Lent Assizes. The murderer is the son of respectable parents, large farmer in Cleveland, but has long been a notorious bad character, and has repeatedly been convicted of poaching, and was taken up on suspicion, when Mrs. Robinson was murdered, near here, two years ago.

BIGOTRY AND DESECRATION OF THE SABBATH.

The following detail of very disgraceful proceedings in the Church of Tatham, on Sunday last, has been sent us by a highly respectable correspondent:—The anti-Christian spirit among the members of the rigidly holy Basse-shire folks, commonly called "Free Churchmen," though slumbering somewhat, does not appear to be altogether lulled, as the following statement of facts most clearly proves. The Rev. Mr. M'Bride of Kilnwin Easter, preached on Sabbath last in the Church of Tatham, lately vacated by the resignation of Mr. D. Campbell, and when about to commence the English sermon, a number of laids were seen hastening from the Free Church shed, (a place recently put up in the immediate vicinity of the church,) who, accompanied by a highly respectable and independent party, who had previously been engaged in the carrying of those who had come to attend church, assembled themselves in a holy round the church, commenced shouting and hooting, entered the church, and danced and whistled during the greater part of the service, while others of the party were busily engaged throwing stones in at the doors and windows. The Reverend Gentleman performed the whole services of the day in the most solemn and impressive manner possible, and at no time seemed to pay the slightest attention to what was going on, but merely raised his voice (particularly at prayer) to the noise increased. It is worthy of note that the respectable part of the community in Easter Ross have nothing to look to, for the preservation of both life and property, but the strong arm of the law. The second great head of God's laws seems to be quite unknown to those "Free Church people." It may well be asked, "what were the authorities about? Have they already forgotten that assistance had to be obtained from the Castle of Edinburgh and elsewhere, to check the sinful pretensions of the Free Church?" Surely the public have a right to expect a little more vigilance on the part of those whose duty it is to govern a branch of the people, as well as restore peace and order.—*Ross-shire Advertiser*, Feb. 2.

VERY LATE FROM EUROPE.

By the extraordinary short arrival of the *Sylvie de Goussé*, we have received Havre and Paris papers, which, in this city, being two months from the continent, than the dates of the last steamer.

The most important intelligence is the announcement that the *Queen Christina* has made her entry into Spain, which is stated in the *Globe*, of the 4th ult. This is a most important movement, and may lead to another revolution in Spain, and more fighting.

THE REVENUE FROM HAYTI.

By an arrival we have just received the following:—**PORT REPUBLICANS, March 1, 1844.**

I avail myself of the earliest opportunity afforded me, to inform you that a new rebellion has commenced in this ill-fated island. The present government was organized in January last, and now the whole Spanish part of the island is in arms in opposition. I have not seen the manifesto put forth by the disaffected, but I am given to understand, that a power was assumed by the Catholic priests, the principal origin of the disturbance, and then General Riviere, the President, in forcing his cabinet did not choose any of his secretaries from that part of the island. This was impolitic, to say the least of it. By the new constitution, all religions are tolerated, and the citizen guaranteed in his religious privileges, as with us, and admitting of no state church.

RUSSIA.

A letter from St. Petersburg of the 20th ult., in the *Herald Gazette*, contains the following:—"The chief of the frontier district near Khabarovka, has reported that at Macmahon, a few weeks distant from Khabarovka, the local Chinese authorities discovered two 'Chinese who were smoking opium, which they said had been supplied by Russians. The Chinese chief immediately opened negotiations with the Russian authorities on the frontier, and the Emperor of Russia having been informed of the fact, has ordered that the Chinese, published in 1811, against the sale of opium to the Chinese, shall be scrupulously enforced, and that all persons who may violate it shall be strangled by a Court Martial." The same journal states that the inhabitants of Poland are now free to establish their residence in Russia on taking out passports, and choosing for themselves within a delay of nine months the place at which they intend to reside permanently.
