SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

IF there be a plague on earth which superior beings cannot enjoy, and to which they might also deny the possession of, it is the power of relieving pain. How, consulting them, is the consciousness of having been the recipient of pain, without the consciousness of its cause?

What an amount of suffering can be prevented, by the use of Sands' Sarsaparilla! The unfortunate victim of hereditary disease, with swollen glands, contracted sinews and bones, and a nervous system that is greatly affected. The scrofulous patient, covered with ulcers, laboring to himself and his attendant, who has been made wretched by the disease, who has been rendered helpless for years under untold and glandular disorders, chronic rheumatism, and many other complaints springing from the impurity of the secretory organs and the circulation, have been raised as it were from the rack of disease, and now, with regenerated constitutions, gladly testify to the efficacy of this inestimable preparation.

The following certificate, recently received, was addressed to our agent in Madison, Ga. The patient was severely afflicted with Scrofula and Mercurial sores—had tried various remedies without any benefit, and the afflicted are now invited to read what he says in reference to Sands' Sarsaparilla.

MADISON, GA., August 5, 1844. C. F. HOFFMAN, Esq.—Dear Sir: As I have derived so much benefit from the use of Sands' Sarsaparilla, I feel it my duty to give it to the community to make the fact in my case public. I was afflicted for four years with running sores and sores on my lower extremities, and also suffered severely from mercurial sores on other parts of my body, from the effects of blue pill and other mercurials. I tried every medicine I could get, but without any benefit, until I obtained a bottle of Sands' Sarsaparilla, which I found benefited me very much. I continued its use until I had taken eight bottles, when I was perfectly cured. Judging from my own case, I have reason to believe Sands' Sarsaparilla is the very best remedy for scrofula and mercurial sores; it is entirely radical, eradicates the poison from the system. I now find myself a well man—entirely recovered.

Yours respectfully, WILLIAM BASS.

The following interesting case is presented, and the reader invited to its careful perusal.—Comment on such evidence is unnecessary.

NANTUCKET, MASS., Oct. 31, 1844. A. B. & D. SANDS—Esteemed Friends: Although an entire stranger to you, I do not feel as though I have to defer the acknowledgment of a great indebtedness to you for your invaluable Sarsaparilla, which has been the means, under a kind Providence, of my inexpressible relief. I am also urged to this acknowledgment by reflecting, that by my humble testimony may be induced to try this remedy, and experience a cure as speedy and as happy as mine. For ten years I have been suffering under a Scrofulous affection of the Bones in my head, and during a great part of this time, my pain and sufferings were so severe, that I was unable to do any thing but lie in bed, and should have desired, and most probably have died, had I not been supplied with your Sarsaparilla, and within the space of three months, the use of twelve bottles has, with the most beneficial operations, completely arrested the disease; the healing process going forward, and I am rapidly approaching to a perfect cure. Being extremely anxious that others laboring under similar complaints, may have the advantage of my experience, I will be most happy at any time to communicate to them or to you, such further and more minute particulars as may be desired. Please accept assurances of my great obligation and regard.

BENJAMIN M. HUSSEY. NANTUCKET, 9th Mo., 31, 1844.

A. B. & D. SANDS—Respected Friends: Benjamin M. Hussey is a person of perfect respectability, his statement in relation to the wonderful effects of your Sarsaparilla upon him, may be implicitly relied upon. His case here is considered a very extraordinary one, and the cure altogether is such as to entitle the Sarsaparilla to be ranked as a great blessing to the human family, and we consider it as such. Yours with regard, WILLIAM MITCHELL. Cashier of the Pacific Bank, Nantucket.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained gratis. Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Druggist, 79 Fulton-st., N. Y.

Sold in Kingston by CHARLES HEATH. Also sold by Druggists generally throughout the United States. Price \$1 per bottle; six bottles for \$5.

IF the public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly relieving such remarkable cases of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other.

THE PERIODICAL SALES FOR THE FALL SEASON, AT THE STORES OF JOHN PATTERSON,

ONTARIO STREET, KINGSTON. WILL take place the second week of each Month, in the following order:

EMIGRATION TO OREGON AND CALIFORNIA—POLICY OF THE U. S. GOVERNMENT.

From the New York Herald. We have received intelligence from Washington relative to the progress of preparations for the formation of an extensive emigration to California.

Several similar expeditions are preparing in the great Atlantic cities, and also in the Western and South-Western States. The accounts which have been communicated by the pioneers in this great movement, have been so encouraging—have stimulated to such a degree the spirit of enterprise—and the triumphant success of Texas annexation has produced such a wide-spread moral effect in the same direction, that an immense impetus has been given to the advancing life of emigration to California and Oregon; and in less than two years, we have not the slightest doubt, that these fertile and attractive regions will be occupied by many thousands of the most energetic and determined of the American people.

In another column of our paper to-day, we give an interesting description of a portion of the journey to Oregon. Following the course of the principal tributaries of the Missouri, the traveler reaches near its source the great Snake Pass in the Rocky Mountains—a valley nearly twenty miles wide, and affording ample facilities of communication, by means of railroads, between the extensive regions that lie beyond the United States. In the Oregon Territory the American population already numbers nine thousand men; except in the use of the rifle, and capable of immediate organization into a strong military force. They have organized a government, and intend sending a delegate to the United States Congress. The chief settlement is Oregon city, situated in Willamette Valley, and not far distant from Fort Vancouver.—Linton is another American settlement, finely located and rapidly increasing. The British population is about five thousand, consisting chiefly of the Hudson's Bay Company, and a considerable number of Indians, connected with the Hudson's Bay Company, and having a sort of government under the control of the Canadian laws. But the British population is by no means equal in strength to the American, and the latter is even now able to drive the former out of the country, unless they were assisted by a force from England, which it is no at all likely they would obtain.

Under the conditions, however, it would appear to be the most favorable destination of great numbers of those hardy adventurers who are seeking their fortunes in these regions. The country in the neighborhood of San Francisco—destined to be one of the greatest seaports in the world—is described as extremely fertile, and the climate is remarkably agreeable and salubrious. The broad and smiling plains, watered by the Sacramento river, are attracting much of the emigration that is proceeding to the shores of the Pacific. The population at present consists of about four thousand Indians—one thousand Spaniards—and five hundred Americans. But several large expeditions to California are now preparing to start from various points of the United States, and the probability is, that that territory will be still more rapidly filled up with Americans than Texas was; and that as soon as they are strong enough, they will at once assert their independence, and seek admission to this confederacy. It is proper to observe, that several of these associations of emigrants have applied to the British Minister at Washington for official
