THE KINGSTON BUILDING SOCIETY .--On Monday, June 7th, will be sold Five for this money, provided all the purchasers or the whole affair. borrowers pay the same. For instance, if 40 per cent. bonus be given, it will allow seven £6 per annum for his loan, in seven years he students .- Montreal Herold. will pay £81. And if he borrow privately £60, and pay 6 per cent, for seven years, the principal and interest will amount to £81 10 : the expenses of Deed and Registry, being in both instances the same. And if he receive £75 at the rate of 25 per cent, honus, and then pay the same rate of interest for ten years, he will pay £120; and £75 with simple interest for ten years will amount precisely to the same sum, viz. £120. Thus it matters not what be the rate of bonus, provided all after putchasers pay alike. But the danger to the borrower is, to give too large a bonus for his money, leaving to more careful men to pay the exact and proper value.

A PROSPECT OF THEATRICALS.-We have some reason to believe, that Kingston will be visited next week by a Company of Comedians from Rochester, under the management of Mr. John C. Potter. This gentleman is well known in the Southern States. as the Proprietor of various Theatres; and being now engaged in the building of a new Theatre at Rochester, has a fortnight's time on his hands, which he wishes to fill profitably. He therefore purposes to visit Kingston, here to stay until the new Theatre is ready for his reception. His Company is tolerably large, with some names well known in the theatrical world; and should be think proper to fulfil a promise hastily made last Saturday, we trust his reception with us will leave him no reason to regret it.

CAUTION .- Persons should be extremely cautions in the use of wild vegetables. eircumstance occurred on Sunday last which, but for the prompt attention of the Surgeon of the 46th Regt., would have proved fatal to no less than twelve persons. It appears that some of the men residing in the Block House, with their families, had gathered what they supposed to be wild spinnage (which proved to be some poisonous weed) and cooked the same with pork for dinner; and in about an hour afterwards, all who had partaken of this weed were taken alarmingly ill. Some praise is due to the Surgeon of the 45th Regt, by whose unremitting attention the parties are now all doing well .- Com.

A CHANGE IN THE WEATHER. -On Sunday night it began to rain, and sufficient fell that night and the following morning to be of the utmost service to the parched land. The Fall Wheat was dreadfully in want of vain, and looked uncommonly had before the rain fell, which it is to be hoped may revive it.

The two criminals, recently sentenced at the Assizes in this Town to be hanged on the 27th instant, have had their sentences commuted to confinement for life in the Provincial Penitentiary .-- Brockville Recorder.

FREE TRADE. - The Jamaica House of Assembly has adopted some resolutions, which are thought in the Island highly important for the well-being of that important Colony. It has abolished the Differential Duties in favor of the manufactures of Great Britain, and it is hoped that Kingston will next year he made is hoped that Kingston will next year he made Shooter, Quebec; A. Sir John Ross has written to the Royal Astronomical Society, stating that he had · made proposals to the Admiralty to attempt to reach the North Pole, in order to measure an proper season, it is Sir John's intention to attempt to reach the North Pole on sledges drawn by Swedish horses, being a modification of the plan proposed first by Dr. Scoreby, and of which that highly talented individual has given his most unqualified approbation .-Ross, the crime of murder very tarely occurs. The Leeds Mercury says that an experienced printer has discovered a mode of making printing ink rollers of the prepared and improved India rubber, and which is more permanently elastic, and will last at least ten and of the ordinary material.

To No License Law in the State of New York, was repealed during the last hours of the session of the Legislature, by a vote of 25 to 2 in the Senate, and 68 to 33 in the House. The No License heresy is very dead, but it will probably rise in some other shope. Well, if it does, it will not live after the people have spoken on the subject. Give us all the temperance you please, but let us have none of your lock jaw laws.

It is with feeling of popular distress that we an. Prepared by Mr. J. Noble, Clerk of the Market monce the death of the Rev. Thomas Fibres, Missionary at Fencion Falls, who as we have just searned from a Correspondent came to an untime end by a most appaling accident.
