Mr. Mosgrove, in reply, pointed out that his motion only went to read the bills of the session, because he supposed the House would not take up at this late period the consideration of any measure of importance, which would give rise to discussion, and thereby afford the Members the opportunity of saying a few words for the gratification of their constituents, before the duties were terminated. The United States Congress also, did not sit till December, so that he thought there would be plenty of time to take proper precautions, would, however, consent to the Committee rising.

After a few words from Mr. Ranawoon (Attorney General,) Mr. DeWitt moved that the Committee rise, &c.

Mr. Ranawoon hoped the House would not accede to the motion. It was not a question of economy, but of protection. As a farmer, he had to pay his school, and would vote against it, and called upon all agricultural members to do so too.

On taking the numbers they were found to be, for the motion, 22, nays 9 - majority 20.

The Bill to regulate assize of grocers was then, on the motion of Mr. Aylwin, read a second time.

A bill amends that portion of the Law, which grants process in real actions from being served on defendants in Districts, other than those where the property in question is situated.

The second reading of the bill to provide for the limitation of actions was then passed, on the motion of Mr. Aylwin. The learned gentleman explained that this bill was merely intended to provide for some defects in the Act of last Session, which was intended to introduce the English law of limitation of actions; but which in consequence of some extraordinary errors in the drafting of it, was absolutely useless, as that at present according to the interpretation put by the Courts upon the law, a tailor or baker might sue his debtor, thirty years after the debt was contracted.

The bill was afterwards referred to a Select committee.

On the motion of Mr. Moffatt, the Montreal Gaming Company Bill was read a second time, and referred to a Select Committee.

The House then went into Committee of the whole on the engrossed bill to enable Ministers of Religious denominations to solemnize Marriages.

Mr. Parke now said in moving that the bill should not pass, he desired to remove the objections of various denominations might have, in having before the Quarter Sessions, to prove that they were actually the Ministers they professed to be; being thus subjected, perhaps to the interrogations of hostile parties.

The amendments which will be found in the ultimo business for this day were passed.

A number of orders of the day having been discharged, the House went into Committee of the whole on Mr. Ermatinger's Bill to establish back up Houses.

After some discussion, Mr. Solicitor General Aylwin pointed out some extraordinary enactments in the Bill as drafted, and recommending the hon. member for Middlesex to move that they, committee now rise and ask leave to sit again, and that the bill be referred to a Select Committee, Mr. Ermatinger consented, and the motion was

The House then adjourned.

ARRIVAL OF THE STEAMSHIP

CALEDONIA.

FIFTEEN DAYS LATER.

Flour Still Lower—Grains on the Decline.

The British steamer *Caledonia* arrived at Boston on Sunday last. Of the news she brings we have a very meagre account, taken from the *Albany Journal*. Flour and Bread Stuffs have gone down lower in the Home Markets, but not much. Great solicitude was evinced to obtain the earliest news by this arrival; and a fast sailing steamer lay several days at Oswego to get the news by Telegraph, and convey it down the river to Montreal, which she did yesterday morning very early. At Kingston early, when the news was, but those who had obtained possession of it did not communicate it, until after their own purpose was served. Knowledge is money, and this was found the case on the present occasion.

The Steamer Caledonia reached Boston at 4 o'clock this morning. The Herald at New York, has furnished our reporter with its telegraph synopsis

The Liverpool dates are of the 19th.

After the last steamer left, best Western Canal Flour went up to 46s. per bbl.

White Indian Corn went up to 60s. per quarter, and Yellow to 58s.

Since the promising appearance of the growing crops has become settled, prices have declined, and the Flour market closed on the 18th at 40s to 41s 6d for best Western Canal. (Quotations by last steamer, 42s to 43s.)

American Wheat per 70 lbs. 11s to 12s 3d.—(On the 4th it was quoted 12s 6d to 13s 3d.)

Indian Corn, White, 48s to 52s. (On the 4th, 52 @ 54.)

Corn Meal, 21s @ 22s per bbl. (On the 4th, 28 @ 31.)

Philadelphia and Baltimore Flour, 39s to 40s.—Ohio, 37s @ 39, and Sour, 33s @ 35s 6d.

Arrival of Wheat from Ireland, very considerable, as also the imports from the United States.—The rumored re-appearance of the potato disease does not exercise the smallest influence upon the market.

Cotton advanced ½d per lb. Beef large business—best U. S prime mess 90s. @ 95s. bbl.; or inary 81s. @ 84s.; mess 55s @ 60s. bbl. Pork more inquired after—best U. S prime mess, old, 65s @ 70s bbl; new 60s @ to 61s. Bacon fair demand—fine sorts scarce—range from long middles, free from bone, in salt, to shoulders 68s @ 35s. Cheese none in market—all sold at full prices—fine U S. fetched 52s to 60s; middling 45s to 47s; ordinary 42 to 44s. Lard advanced 3s to 4s on fine sorts, and 2s on ordinary qualities —market bare. Butter U. S. no demand. Hams sold very freely

Bank of England discounts more freely. Monetary prospects of the country are of more encouraging character.

The steamer Washington arrived at Southampton on the 16th ult.

The French steamer sailed from Cherbourg 15th of June.

MR. SKERRETT'S COMPANY.

On Monday Evening, this far-famed Company played Goldsmith's Comedy of "She Stoops to Conquer," with the admirable farce of "Tom Noddy's Secret." The "Merchant of Venice" had been announced, with Mr. Wallack as *Shylock*; but in consequence of the disarrangement of the American Line of Steam Packets, occasioned by the Excursions on the 5th of July to Yankeeland, the American boat of that day, having Mr. Wallack on board, did not come to Kingston at all, but passed down the American Channel to Ogdensburgh, leaving Mr. Wallack at Oswego, to find his way to Kingston by the boat of the next day. The consequence of this double disappointment to the public and to Mr. Wallack, was the aforesaid change of performance, and an indifferent House. In fact, Mr. Skerrett wished to dismiss the audience, and not play until Mr. Wallack did arrive; but those who were in would not hear of it, and the performance went on.

The public throughout Canada have so unequivocally expressed their opinion of Mr. Skerrett's Company, that we shall not detain the reader with an account of their several excellencies; suffice to say, that it is as good a Stock Company as any on this Continent. "She Stoops to Conquer," although played on the nonce, never flagged one instant, from beginning to end, and was greeted with continuous roars of laughter; while "Tom Noddy's Secret," in which Mrs. Skerrett and Mr Pardey very greatly distinguished themselves as *Gabrielle* and *Tom Noddy*, positively con-

LANDING OF EMIGRANTS.

To the Editor of the British Whig.

MR. EDITOR,—

Permit me to bring under the notice of the proper authorities through your columns, the impropriety of landing Emigrants on Mr. Smith's new Wharf, at the foot of Queen Street. There those poor unfortunates are hurried from off the barges, as they arrive, with scarcely a foothold to secure them from falling into the water, and drowning; because of the wharf being generally almost entirely covered with cordwood. Last night one of them fell off the wharf, and was, with difficulty, saved. It is impossible that they can sleep without danger of losing their lives, and as to their being able to cook, or otherwise obtain any comfort while there, the thing is out of the question. Humanity demands that their condition should be looked to at once.

Yours Respectfully,

AN OBSERVER.

RETURN

To an Address of the House of Assembly to His Excellency the Governor General bearing date 9th June, instant, and praying that His Excellency would be pleased to cause the proper Officer to lay before the House, Copies of all Correspondence which have taken place between the Executive Government and Joseph André Taschereau, Esquire, late Solicitor General for Lower Canada, touching his resignation, and touching his appointment to the Office of Circuit Judge.

By Command,

D. DALY, Sec'y.

SECRETARY'S OFFICE,
Montreal, 17th June, 1847.

(Copy.) Quebec, 26th April, 1847.

SIR,

The Official Gazette received this day has confirmed the rumour of the appointment of Mr Badgely to the Office of Attorney General for Lower Canada. Having filled the Office of Solicitor General for the same part of the Province upwards of eighteen months, I can view a departure from the English practice in similar cases, in no other light than that of a slight to which, I cannot submit consistently with what I owe to myself, my constituents, and the Bar of this District. Placed in such position, I have, obviously, but one course to pursue: it is to tender, most respectfully, to His Excellency the Governor General, through you, my resignation of the Office of Solicitor General; and to beg that he will be pleased to accept of the same.

I have the honor to be, Sir,
Your most obedient Servant,
(Signed.) J. A. TASCHEREAU.

Honorable D. Daly,
&c. &c. &c.

(Copy.) SECRETARY'S OFFICE,
Montreal, 23th April, 1847.

SIR,

I have the honor, by command of the Governor General, to acknowledge the receipt of your letter of the 26th instant, tendering your resignation of the Office of Solicitor General for Lower Canada.

Prior, however, to accepting your resignation, His Excellency is desirous that you should receive the assurance that no slight whatever was intended to be put upon you by the arrangements recently effected in the Office of Attorney General; and as further evidence of His Excellency's disposition in your regard, I am commanded to offer for your acceptance, the Office of Circuit Judge at Quebec, in the event of your continuing to desire that your resignation of your present Office shall be accepted.

I have the honor to be, Sir,
Your most obedient Servant,
(Signed,) D. DALY,
Secretary.

Jos. A. Taschereau, Esq. Solicitor General,
&c. &c. &c. Quebec.

(Copy.) Quebec, 2nd May, 1847.

SIR,

I have the honor to acknowledge the receipt of your letter of the 29th ultimo, conveying to me His Excellency the Governor General's assurance that no slight was intended to be put upon me by the arrangements recently effected in the Office of Attorney General, and at the same time offering for my acceptance, the Office of Circuit Judge at Quebec, in the event of my continuing to desire that my resignation of my present Office shall be accepted. You will be pleased to convey my best thanks to His Excellency for the assurance which he gives me, that no slight was intended to be put upon me, by the appointment in question. This sincere declaration on his part, is highly gratifying and might be so potent to induce me to continue in my present Office, could public opinion only view this matter in the same light; as it is, the blow has been struck, its moral effect cannot be repaired, and I could not occupy the same position again, or command the same influence in or out of the House. Under such circumstances, I regret that I cannot do otherwise than to persist in my prayer of the acceptance, by His Excellency of the resignation of my present Office; and beg to inform you, that I accept, with grateful thanks the offer which His Excellency has been pleased to make to me of the office of Circuit Judge at Quebec, as further evidence of His Excellency's disposition in my regard.

I have the honor to be, Sir,
Your most obedient servant,
(Signed,) J. A. TASCHEREAU.

The Honorable D. Daly,

(Copy,) SECRETARY'S OFFICE,
Montreal, 31st May, 1847.

SIR,

I have the honor, by command of the Governor General, to enclose to you herewith a Commission, appointing you to be one of the Circuit Judges for the District of Quebec, at a salary of five hundred pounds, currency, per annum.

I have the honor to be, Sir,
Your most obedient servant,

☞ ROW AT OSWEGO.—A disgraceful occurrence took place at Oswego on board the British steamer, the *Queen*. This vessel took over a party of pleasure to Oswego from the Bay of Quinte and Kingston, to witness the celebration of the 4th of July; and while lying in the harbor, the *Queen* was further engaged to take out another party from Oswego on a short cruise on the lake. While going out, some little damage was sustained by coming in contact with a schooner, and on the return to harbor, a violent row took place on board the *Queen*, during which a blackguard Yankee mob, composed of the vilest of the vile, tore down the British Flag, trod it under foot, and committed numberless other outrages. The Oswego Authorities behaved in the handsomest manner, and promptly interfered to protect the vessel, her passengers and crew from further injury; and the captain and crew of the American steamer *Lady of the Lake*, then in harbor, also gallantly interfered to save the lives and property on board the *Queen*; and through their assistance, the latter vessel was enabled to get up her steam, and return to Canada. From the fullest enquiries we could make, we learn that no persons in Oswego were to blame, save the vilest of the vile, the canal boatmen and canal laborers, then half drunk with liquor and re-publicanism. Everybody in town did their utmost to repress the violence and insolence of the brutal mob.

Facts and Scraps, original and select.

☞ APOLOGY.—We regret exceedingly that the impression of the *British Whig* is not so good as we could wish it to be. The evil however, is quite within remedy, and means will be taken to accomplish it. We think it right moreover to inform our readers, that we shall take an early opportunity to return to the old days of the publication, Tuesdays and Fridays; but hampered as we now are with the bad workmanship of our big press, we cannot pledge ourselves to the precise day.

☞ CONCERT AT THE COURT HOUSE.—The Philharmonic Society gave their last Concert this season at the Court House on Saturday evening. The Court room was full but not crowded. The several pieces in the programme were executed in the usual style of excellence, and drew forth a proportionate degree of applause. At the termination of their initiatory labors, the members of this Society may congratulate themselves on having achieved a great triumph—they have introduced a taste for music into Kingston; and have shewn, that with moderate self exertion, and a little kind patronage, things may be successfully attempted that were considered inconceivable.

☞ THE WEATHER.—A heavy Thunder and Hail Storm, accompanied with much rain, passed over Kingston and part of its vicinity on Sunday afternoon, about 2 o'clock. The storm lasted about an hour, and was the severest of the kind witnessed in these parts for many years. The hail stones were exceedingly weighty, being of the size of small marbles, and when the storm was over, lay on the ground to the depth of one inch at least. An immensity of damage was done to the young fruit and growing vegetables. The weather was exceedingly sultry both before and after the storm.

☞ SILVER ORE.—A piece of stone was shewn to us this morning by Mr. John Ramage, silversmith of Kingston, from which he had chipped off two ounces and a half.—From this bit Mr. Ramage had extracted five penny weights of pure silver, (also shewn to us,) with very little trouble; and he makes no doubt, but from the remaining piece of stone, he can extract a corresponding amount of silver. This piece of ore was brought from Lake Superior, and the person who brought it assured Mr. Ramage, that it was taken from a vein of similar quality, extending thirty feet in width, and after having been quarried to depth of fifty feet, it was still found to exist in like width. If this be fact, and we see no reason to doubt its being so, this silver mine, for mine it is to all intents and purposes, will prove one of the richest in the known world. The piece of ore shown to us weighs about three pounds, and is exceedingly ponderous.

☞ THE CIRCUS.—A prodigious row is being kicked up in all parts of the province, respecting the performances of the Circus, so much in vogue in Canada. We have always professed ourselves friendly to public amusements of all kinds; "all work and no play makes Jack a dull boy;" and if the people of Canada take delight in Circuses, we see no reason why they should be prevented, which it would appear, is the aim of certain pious persons in the Legislature. What we complain of is, that while the Canadians, men, women and children, take such delight in the scenes of the Circus, they take little delight in anything else. Comparatively speaking, there is ten times more indecency, and ten times more vulgarity exhibited upon a single Circus performance, than in all the Theatres in the universe: and yet religious people, or folks calling themselves such, make no scruple in visiting the one place of amusement, while they look down upon the other, as the devil's own shop. And another thing has often struck us; which is, that while the *pagan*, dear souls, turn their heads away, and affect to shudder at the too great display of legs of a ballet dancer; yet they never scruple to stare with all their eyes at the nude figures of the postere masters of the Circus. The pretty creatures should bear in mind, that what is immoral and indecent in one sex, is equally so in the other; although custom may render the practice more tolerant. Instead of prohibiting the Circus, the attention of the Legislature should be drawn to the rendering of its performances less indecent.

☞ PETTY LARCENY.—The *Chronicle & Gazette* takes an article on the Treasurership of the Midland District from the *British Whig*, and gives conspicuous credit for the same to the *Hamilton Spectator*. This is very honest and very gentlemanly, and is quite in accordance with similar practices on the part of other Kingston newspapers.

☞ CORPORATION OF KINGSTON.—Mr. Smith (Frontenac) has brought in a bill relieving the inhabitants of Garden Island from the exaction of Harbor Dues, no small item, since upwards of one hundred vessels are unladen during the season at Messrs. Calvin & Cook's Establishment at Garden Island.

☞ A CIRCUS ROW.—In describing a row which recently took place at a travelling Circus at Hamilton, the *Spectator* says: The greatest row of the night, however, was after the Circus men had packed up their traps and were about to depart for Brantford. The real origin of this battle we have been unable to ascertain, but we believe it was in consequence of some insult or offence given by the clown, during the performance, to some of the occupants in the pit. Be this as it may, the mob made an attack upon the baggage waggon of the company, which with axes they cut to pieces in a very short time. The dresses were next torn to pieces, and every thing that they could lay their hands upon was destroyed with all imaginable despatch. During the melee stones and brickbats were flying both thick and fast, and as a matter of course several of the combatan ts were more or less injured. The police were early on the spot, and succeeded in arresting a number of rioters.—It was well for the proprietors of the Circus that their golden chariot happened to leave before the row commenced, had it been there it would have doubtless shared the fate of the baggage waggon.

☞ MASONIC.—The Anniversary of St John the Baptist was duly observed in our good City on Thursday last. The Installation of officers for the ensuing year took place at two o'clock P. M. when W. Br C. H. Webster, being re-elected, was installed as W. M. At half-past three o'clock the Brethren proceeded in procession to St Andrew's Church, where an excellent Sermon was preached by the Chaplain of the Society, the Rev. Alex. McKid, from 1 Kings vi. 7. and was listened to with marked attention. In the evening the Brethren dined together at the Commercial Hotel. *St. John's Lodge* of York Grand River, also celebrated the day in a becoming manner, and were joined in their festivities by Brethren from the "Baston" and other Lodges.

☞ POLITICAL CONUNDRUM.—Why is the Hon J. A. McDonald like a high tornado-trump?

Because he checks the adversary's game. No, not that.

Because he is the last winning card. Good, but not so.

Because he is at the bottom of the shuffle. Cut still.

Because he never shows himself until the last Excellent: still, that is not the thing. D'ye give it up?

Because he is the *law* to regulate the play of the whole pack.—*Satirist.*

MONTREAL MARKETS.

FRIDAY EVENING, July 2, 1847.

FLOUR.—The market has been dull throughout the week, with a downward tendency. A mixed lot of 1800 brls were placed to-day at 32s 6d per brl. and a round lot of 600 brls, part fine and part extra fine, at 33s 6d per brl; at the same time the best shipping brands of fine cannot readily be bought under 35s per brl. The only exception to the dulness of the week occured on the 30th ult. when a few brands were in demand to complete contracts, and sales were in consequence effected to a limited extent, say about 5000 brls, at 35s 6d @ 36s 2d per brl.

WHEAT dull. About 5000 bushels of middling red and inferior mixed U. C. were placed to-day at 7s per 60 lbs.

ASHES have declined considerably. Pots are offering at 24s 10d @ 25s, and Pearls at 25s 1½ @ 25s 3d, in moderate parcels.

FREIGHTS.—Flour was taken to-day, to Glasgow, at 5s 6d, "to fill up." But the general asking rates to London, Liverpool, and the Clyde, are 6s and upwards, per bil, and 11s 6d @ 12s per quarter for Wheat. Ships however, find it rather difficult to fill up.

EXCHANGE nominal, as quoted, say Bank 8 @ 60 days, and merchants 8½ @ 9 prem @ 90 days.
