CELESTIAL SCENES.—A dread of contact with the fever-bearing, pestilence stricken emigrants, has, we understand unfavourably to some extent affected the Springs this season. We have heard this reason assigned by some for not paying us their annual visit; but no such fear should exist. The sail up the Ottawa is not only a beautiful, but is also a *safe* one. Life at the Springs is now being roasted in earnest; the visiting season has now fairly commenced; the halls of the Canada House are again fast thronging with beauty, fashion, youth; mirth and gaiety are again reviewing their pleasant away; and we would invite all our friends, young and old, maidens and matrons, (aye, and despite Lydia Languish, spinsters too,) bachelors and benedicts, invalids and valetudinarians, "to come, to see, and to conquer" health and happiness. Here there is room enough and to spare. Come then, all ye who, dull and dispirited, sit mopingly nursing your fears, and as in fact, inviting the disease. Leave the city behind you; the change of air and the scene will dispel your dreads, the sparkling waters will give a vigorous tone to the enfeebled system, and the buoyancy of your spirits will be a happily convincing evidence of the intimacy of the connection which subsists between the state of the body and that of the mind.—*Life of the Springs.*

PEDESTRIANISM.—The heavy undertaking of Molloy, the veteran pedestrian, and his son, a lad of seventeen, to walk 100 miles between them in twelve successive hours, was brought to issue on Tuesday, according to articles; a great number of spectators being attracted by the nature of the performance and the peculiarity of the conditions. At 8 o'clock, A. M., the father and son, (the former in his 47th year,) started in company on their ardorous task, walking on a measured half mile, near the fourth mile stone Edgware Road. The performance of the match, it will be observed, involved the average completion of upwards of four miles per hour, throughout the whole period of twelve hours, and this was exceeded by more than an average, including all stoppages for refreshment &c., of four and a half miles. At one o'clock, 25 miles had been completed; but shortly after two, about the thirtieth mile, the elder Molloy was evidently going in difficulty, he, therefore, stopped while his junior partner in the undertaking walked one mile, after which the latter took the like respite, and the elder pedestrian footed it a mile solo to turn. From the thirty-second to the forty-eighth mile, they kept company, after which the younger Molloy went a-head, and made seven minutes out of the old man in the last two miles, completing his fifty miles in eleven hours, thirty-three minutes, the veteran also coming in terribly beaten in eleven hours forty minutes; thus winning with forty-seven minutes to spare between them; good work decidedly; and better than the public gave either of them credit for being capable of doing. The stake was thirty-five sovereigns, which, with some promised contributions in the event of success, has been well earned by both the men.—*English Paper.*

TO MAKE HENS LAY PERPETUALLY.—Hens will lay eggs perpetually if treated in the following manner: Keep no roosters; give the hens fresh meat, chopped up like sausage meat, once a day, a very small portion, say half an ounce a day to each hen, during the winter, on from the time insects disappear in the fall till they appear again in spring. Never allow any eggs to remain in the nest for what is called nest eggs. When the roosters do not run with the hens and no nest eggs are left in the nest, the hens will not cease laying after the production of ten or fifteen eggs, as they always do when roosters and nest eggs are allowed; but continue laying perpetually. My hens lay all winter, and each from seventy-five to one hundred eggs in succession.

If the above plan were generally followed, eggs would be just as plenty in winter as in summer. The only reason why hens do not lay in winter as freely as in summer is the want of animal food, which they get in summer in abundance in the form of insects. I have for several winters reduced my theory to practice, and it proved its entire correctness.

☞ THE PILOT.—It is said that the *Pilot* has gone into other hands, the concern having been purchased by a Free-Trader, formerly connected with the defunct *Economist*. The rumor, we think, has some foundation in fact, if one may judge by the marked change which has lately come over the Editorial Department of the Journal in question.

Wistar's Balsam of Wild Cherry.

ANOTHER LETTER FROM VERMONT.

Nov. 21, 1845.

Mr. Seth W. Fowle—

Sir—Having tested the value of Wistar's Balsam of Wild Cherry, I take pleasure in giving to you the facts in my own case, for your own satisfaction and the benefit of others. One year ago last April I was violently attacked with a severe cold and cough, with much pain in my side, which was considerably swollen. I applied to a number of physicians but obtained no relief, and they told me that if I did not get help immediately my case would be doubtful. It was my good fortune at this critical moment to take up a paper containing the Agent of Wistar's Balsam of Wild Cherry, and thinking it to be what I needed, sent some distance to procure a bottle, as it was not then kept in our vicinity, and to my astonishment, I received from that one bottle immediate relief.

I now keep it by me constantly, as I find nothing so good for common colds, and do cheerfully recommend it to all as being an article of great merit, hoping that others may by the early use of this valuable remedy, be saved from an untimely grave.
JAMES KING.

MONTREAL MARKETS.

Friday, Aug. 6, 1847.

FLOUR.—Our market still continues inactive, owing to the small quantity offering. The enquiry, however, is good, and a large business might be done at 25s @ 27s 6d, according to quality, if buyers would accept these rates. Within that range, a few sales took place to-day, but they are not worth alluding to more particularly.

Nothing doing in grain, the rates asked being above the views of the buyers.

ASHES are in good demand, and readily placed at 27s @ 27s 6d per cwt for both Pots and Pearls

FREIGHTS.—Large engagements are made daily by vessels at Quebec, but chiefly for London and Glasgow, the rates being 5s 3d @ 5s per brl from Quebec. For Liverpool the demand is more limited, but yet a fair business has been done at 5s @ 5s 3d per brl. For a vessel expected here daily 6s 6d has been offered for a full cargo to London.

EXCHANGE nominal at 6½ 90 days.

STOCKS.—"Montreal" Mining shares have declined to $2½ per share. "Prince's" has been placed at $8 per share. "Montreal Telegraph" stock is enquired for, and upwards of 150 shares have been taken during the week at par. "City Bank" stock is still offering at a discount, as well as "Commercial Bank," and "Banque du Peuple," "Montreal Bank," and "Bank of British North America" are enquired for.

BUFFALO MARKETS.—AUGUST 7.

FLOUR—Good brands readily brought $5, 87½ @ $5. At the close of the market parcels were very firmly held at $5,25.

WHEAT—Good article sold at $1,03 to $1,106. CORN in good demand, but the supply limited. For mixed holders ask 50 cts. which was about the views of buyers. there are no sales to note.

OATS brought 30½ cts.
PROVISIONS without change.
CANAL freights to Albany—flour 64c wheat 17c corn 14c.

NEW YORK MARKETS.—AUGUST. 7.

EXCHANGE is steady at 6 @ 6¼ for good bills.
FREIGHTS are dull at previous rates. There was a heavy rain during the morning which put a stop to all business.
FLOUR and GRAIN were held at previous rates and market quiet and steady.
CORN was steady, rather firm. Moderate demands, sales 40,000 bushels.
WHEAT—Good red wheat $1,20.
COTTON is steady with a fair demand.
ASHES without change.
PROVISIONS dull.
LARD, good inquiry.

VALUABLE

REAL ESTATE

FOR SALE,

THAT large and Valuable FARM belonging to JAMES RUSSELL, Esquire, known as Tuttle's Hill Farm, agreeably situated on the Montreal Road, only three miles from this city, containing about

540 Acres,

Of which 200 are now under cultivation, the remainder being well wooded.—There is also pertaining to the Farm an extensive MARSH, from which an immense quantity of good Fodder for Horned Cattle may be annually cut, rendering it a most desirable Farm for an extensive DAIRY.

Being composed of what was originally three distinct, though contiguous Farms, viz., one of 96 acres, one of 200, and one of 236 Acres: it is still so subdivided, with excellent fences as to admit of each being occupied separately, and will be so sold if desired. The erections are

Four Dwelling Houses, Two Barns;
With Stables, &c.

There are now upon the Farm about 200 Tons of Hay, and 50 Acres under crops of Wheat, Pease, Corn, Oats, Potatoes and Turnips, which, with a span of Horses, a yoke of Oxen, and the farming implements, may be had at a valuation, payable in 6 and 12 months.

NOTICE.

THE Subscriber having obtained from the Court of Chancery, an Injunction restraining the Revd. GEORGE OKILL STUART from intermeddling in any manner with the real or personal Estate of the late CHARLES STUART, Esq.; formerly Sheriff of the Midland District, either by Sale, or by the receipt of monies due by Bond or otherwise, on account of the said Estate; and having been compelled to file a Bill against the said George Okill Stuart, and Allan McLean, Esq., as Executors to the Will of the said late Charles Stuart, Esq., to obtain an Account, the Public are hereby CAUTIONED neither to accept any Deeds from the said George Okill Stuart, nor to pay him any money, as they will do so at their own loss and peril, the said George Okill Stuart having hitherto refused, and still refuses to render a just and honest account of his Executorship to the said Estate, but on the contrary, asserts that he is the Heir at Law thereto.

All those persons who are in possession of, or claim title to Land formerly belonging to the said Charles Stuart, under conveyances from the said George Okill Stuart, and Allan McLean Esq., or either of them, as Executors as aforesaid, are also notified that all parties in possession will be ejected therefrom, unless an arrangement be effected with the Subscriber; as all such Deeds are invalid for several reasons, one of which is, that the Power of Sale in said Will is given to all the Executors—five in number—and not to any one or two of them, and therefore neither the said George Okill Stuart, nor the said Allan McLean, Esq., nor either of them, were ever authorized to convey the Real Estate, one only of the remaining Executors having Renounced, and no valid Titles can be given by any one while the said Suit in Chancery remains pending.
