fices doing business in this Province, are as follows :-For an Assurance of £100

Colonial Life Assumace Co., age 30 ... £2 4 4 National Loan Fund,

Britanniu Amuranee Co., These moderate Rates, (little more than sufficient sufely to provide for losses,) put it in the power of most persons to assure ; and with reference to the present state of the health of the inhabitants of the Province generally, it may be thought necessary, should the prevailing sickness increase, to decline taking any risks. It appears therefore to be a duty on those who have to provide for their families to take the timely precaution of assuring their lives, and thus provide against the risk of perhaps leaving those dependent upon their exertions or means, to suffer difficulties, if not destitution.
