freefrom obstruction, is a point of such

primary importance, that every degree

of neglectis followed by more or less

of inconvenience or suffering. When

habitualcostivenessprovailsthe cheerful

vigor of health is soon impared, some-

times by slow degrees, and at other

times more rapidly, diseases make their

inroads on the constitution; and in

numberlessinstances, particularly where

the habits are sedentary, or where free

living is indulged, permanent ill health

is the painful result. It must be obvious

to the most superficial observer, that

when the functions of nature now al-

luded to are not performed with due re-

gularity, assistance must be obtained

from art. Aperient Medicines then be

come indispensably necessary, (except

where the use of fruits, or a change in

the mode of living may suffice for re-

movingthe ovil,) and must be had re-

course to until the necessity for such

tends more or less to the whole of the

intestinalcanal. Thelatter class of ape

rients is evidently the best adapted to

obviate the habitual confinement of the

Bowols, as they apply that additional sanishis which hattire then requires to assist her in the performance of her
