DR. BARKER'S LAXATIVE PILLS.

OF the numerous diseases to which the human frame is riable, there is scarcely one, the symptoms of which are not seriously aggravated by a confined state of the Bowels, and TO THIS ALONE many owe their origin and continuance. The preserving the alimentary Canal freefrom obstruction, is a point of such primary importance, that every degree of neglect is followed by more or less tion, and a Treatise on Diseases in general, of inconvenience or suffering. When habitualcostivenessprovailathe cheerful with the above pamphlets for gratuitous cirvigor of health is soon impared, sometimes by slow degrees, and at other times more rapidly, diseases make their inroads on the constitution; and in numberlessinstances, particularly where the habits are sedentary,or where free sweet and hitter, Candied Oranges, Louren and living is included, permanent ill health Citron, Sperin, Olive, and Land Oile, Spices of is the painful result. It was the children is the painful result. It must be obvious every description; Pickles, Sauces, Macca-toni, Vernicelli, Anchovies, Liqueice, Sardines, to the most superficial observer, that when the functions of nature now alluded to are not performed with due regularity, assistance must be obtained from art. Aperient Medicines then be come indispensably necessary, (except where the use of fruits, or a change in the mode of living may suffice for removing the evil,) and must be had recourse to until the necessity for such

Itis precisely on thislatter principle that the Pills now offered to the public are formed; and as their activity can be increased or lessened, merely by taking a larger or smaller quantity, they not only furnish an Aperient Medicine proper for general usein a Family, but are also well calculated to answer most o. the purposes for whichpurgative remedies are necessary.

The Pills are not, however, recommended as a SPECIFIC for the cure of ALL diseases; such preposterous statements are worse than ridiculous, and are only put forth for deception. But they will prove a Valuable Remody for that confined state of the Bowels which lays the foundation of much suffering, forthoseoccasional obstructions to which all are liable, and for all those disorders which arise from an overloaded state of the stomach and alimentary canal. Cousequently decided benefit will be derived from their use in Giddiness and Pains in the Head, accompanied with Nausea, or Sickness; in all Head-Aches where Costiveness provails; in Flatulencies, Billious Attacks, the commencement of Cholic, the early stages of Jaundice, and in promoting the expulsion of Worms.
