With we recall the position of Brantford, three years since, and contract it with what we now see, we may truly be proud of our townsmen. The public spirit manifested, even against seemingly overwhelming difficullies, in gatting our Canal completed, murits the and in according this, we must not forget the the fine Brick and Stone buildings of Messrs. Cookshutt, Turner, Walker, Cook, Strobnidge & Co., the large and commodious Brick Mill built by Wilkes, Brothers, &c. &c. But we have a still further cause of self-congratulation in the prospect held out for the next year. We understand it is the intention of Mr. Hunlington to adom our streets with three handcome first class Stores, and Mr. Muithead also maks of building two more, which, indeed, are only some of the many we hear are to be

We understand that the Canal will be in working order during the winter, ready for the first breaking up of the River, when this is done we hope to see a line of first-rate Steamers plying between this place and Buffalo .-There is no reason why a regular line should not be formed to take only ten hours to Buffalo; it certainly would be profitable. We hope our towasmen will not be hehind-hand in getting up this line, which would be of essen-tial benefit to this place. In connection with this subject, we may say, we notice in the phicial Gazette, that an application will be reade at the next Session of the Legislature for an Act to Incorporate a Company to con-struct a Railroad, from the Town of Brantford to the Shores of the Ningara River, op-posite Buffalo, under the name and style of the "Buffalo and Brantford Railroad Company." It originated, we believe in the state of New York. This route will connect by a vory easy grade (a descent of only 90 feet in of the New York and Eric Railroad, thus ern, would pass over the Suspension Bridge,

THE PROVINCIAL SHOW .- Our Toronto conate exhibition, states that the Home District and others eastward carried off a majority of quantity of valuable stock, yet a little attenion would have shown that they were very far from earrying off a majority of the prizes. AWEUL EFFECTS OF THE LATE STORM. CINCINNATI, Oct. 15, 1847.

The Nashville papers, which have just been

ricane, the poseder magazine in Nashville was struck by lightning. The fire simost instantly reached the powder, and the entire 715; since Admitted 36; Discharged 326; building was blown to atoms. The report of the explosion is said to have been equal to that of the most tremendous carthquake. The loss of life and destruction of property by this horrible calamity was immense. One hundred houses were either wholly destroyed

or materially injured.

Ten human bodies had already been exhumed from the ruins of the buildings.

N. Y. Herold. AN ISON MAN-SINGULAR PETRIFICATION. On Satorday last a gentleman brought into Portsmouth, from the bloom Furnace, Scotia Co., a part of an iron man, found in the ore bed! The part we saw, was the foot and part of the leg. Having been converted into ison by a gradual poeces, the minutest divisions, as between the toes, &c., were not visible, but the general outlines of the foot and ankle &c., were perfectly plain. We were told that the bead and arms were more perfect! There could not be the least doubt of its having been a man. Nor is there much doubt of the manner in which it came into this condision. The body must originally have been petrified in lime; but of this there remains now only the outside incrustation, which will cromble off. What was a man is now iron. By some natural process the iron must have ed their labors in this country, have left Canagrown out of the lime, and here is a theme | da for Scotland.

ADVERTISING .- The following item, from the Baltimore Sun, contains a great deal of truth, and deserves to be read and underflood by all husiness men. Summers. Organion,-Dr. Blackman of ing the upper jaw-bone, consing it to bulge out, as many of our traders who have seen the patient, may recollect, in the most frightful manner. It had already protruded from the nose and mouth, and was growing with alarming rapidity, threatening the boy with speedy destruction. An attempt had been nade by one of the first surgeons of New York to remove the disease, but so terrible was the bleeding which followed, that he was convelled to abandon the operation .-The only hope now remained for the boy, and

that a feeble one, viz: by cutting off its sup-

ply of blood, to starve the tumour! The right carotid was tied by Dr. B. fortyfour days ngo, and three weeks afterwards the same operation was performed upon the left. Notwithstanding the immense amount of blood thus suddenly abstracted from the brain, with the exception of a temporary blindness, (lasting only half an hour) not an unpleasant symptom has occurred! Both ligatures have come away, and the wounds on both sides of the neck are entirely healed. The lad, who is but thirteen years of age, and a son of Mr. Gideon Birdsall, Plattskill, exhibited the most beroic fortitude on each of these trying occasions, and won the admiration of numerous physicians both from our village and the adjoining town; who were present and assisted Dr. B. in this responsible undertaking. The disease we understand. has been materially checked in its progress, and we believe the doctor has now some hopes that a fatal termination may be averted."- Newburgh Telegroph.

MELANCHOLY AND FATAL ACCIDENT .-At the new Foundry of Messrs, Jas. Crombie & Co., on the west side of the River in this village, a very distressing accident occurred on the evening of the 29th September last, to the whole distance) with the Buffalo Branch Mr. Wm. Stewart, carpenter, employed about the works. It appears that the new steam giving Buffalo an opportunity of attracting the engine for driving the blast, &c., there, had travels, which otherwise, by the Great Westtioned undergoing a trial. The deceased was direct to Rochester. We understand it is the attempting to keep the strap from coming off opinion of Engineers that this Road can be built entire, for the expense of descending and ascending the Hamilton Mountain alone.

They have built also a town called "Winter-quarters," which al-ready contains a population of some 7000 souls. This term is entirely picketted in.

There is at the present time, and constantly in Ireland, a larger British armed force than the whole a my and navy of the United States, including the armies in Mexico. The Liverpool Albion gives the following summary of the British force in Ireland at the beginning of last month: -- Ten regiments of cavalry, thirty regiments or hattalions of in-fantry, two troops of house artillery, nine com-panies and detachments of artillery, and two companies of marine. These give 23,000 rank and file of all arms. There are in addition, 21,692 enrolled pensioners, militia staff-, and recruiting parties. ANOTHER RESTORED IN KENNE-BECK CO., ME. East Livermore, Aug. 12 1845.

Dear Sir:—You may publish this letter, or make such use of it as you think best. A year ago last full was taken rick with a severe cough-was very much pressed for brotth - last my appetite and become very much reduced in general health - sweat profusely, and could not steep nights. I applied to a physician, who done all in his power to relieve and restore me, but did not succeed. I was emfined to the house most of the winter-often had long spells of severe coughing, raised some blood. Some time in the spring I commenced taking Wistars Balsom of Wild Cherry. Before I had finished one bottle I was relieved; my cough removed; my sleep restored; I bled no more. I

have taken four buttles the past season. My strength & general health is good. I attribute it to WISTAR'S BALSAM OF WILD CHERRY. Signed. NATHAN WELLINGTON I am personally acquainted with Mr. Welling ton, and believe his statement to be true.

OSWEGO NURSERIES AND FLORAL GARDEN MR. J. W. P. ALLEN having sold his interest in this Establishment to E. & S. SIIELDON, the business will hereafter be conducted under the name of SHELDON & KLINE. Mr. Allen will in future devote his time as an Amateur and Market Cultivator, and has very kindly offered us his services in the introduction and testing of every new and tare variety of Fruit, of which we flatter at the same hour and place. ourselves we shall soon be able to show the finest collection in the Union, especially of Prars and Peaches, to which our soil and climate seem remarkably well adapted. The position of our Nurseries being the most northerly of any in the United States, being situ-ated upon the immediate shore of the Lake, fully exposed to the winds, which at the same time that they serve as a protection to our more tender varieties of fruit, render our trees much | cember, 1817, will be Sold at the hardier and far more desirable for transportation, particularly to the Canadas and West, than those grown in more Southern and protected localities, and on stimulated soil. Our trees are all vigorous and healthy, and perfectly free from the numerous diseases with which Fire Blight of the Pear, are diseases never

known in these Nurseries. We would call the attention of the public o our increased and extensive stock of Fruit and Ornamental Trees, Bulbous Flower Roots, Shrubs, Herbaccous and Green-House Plants, Defoudant in Lot No. 104, in the Village &c. &c. Twenty-five Acres are exclusively devoted to the culture of trees, which consist in part, of trees suitable for transplanting to the Orchard or Garden.

30,000 Peach Trees of the largest size and the best and most popular sorts, at 25 cents

10,000 Pear Trees, including all the choicest varieties, 50 cents each, except a few rare kinds, and those of extra size, 75 to 100 cents. In addition to our usual stock of Pears, we have a few hundreds of the Oswigo Peurre, a new and inestimable Pear originating here, now for the first time offered for sale, and only to be obtained from these Nurseries; \$2 for trees two years old from the bud or graft. 12,000 Apple Trees, including everything

that is worthy of cultivation, 25 cents each. Also a very extensive and desirable assortment of Phons, Cherries, Nectarines, Apricots, Grapes, Gooseberries, Currants, Raspberries, Strawberties, &c. &c. All packing of trees and plants for transpor-

tation, done in a manner to render their success as certain at the distance of a thousand mile, as in our own town. Persons unacquainted with different varieties can leave the selection with us and he sure of obtaining the best. All orders for this Fall should be sent immediately. Catalogues sent gratis to all postpaid applications.
