☞ GRAND ORIENTAL MOVING PANORAMA.—This Grand Panorama, which has been exhibited in the Cities of Montreal and Quebec, for the past two years (in the latter City, lately, under the patronage of the Governor General &c.,) opens for exhibition on Monday Evening next. An extensive addition has been made to the scenes in India, Hindostan, &c., by the present manager, Mr. G. Harvey and our old friend Lamb, late of the Theatre Royal. There are some fifteen or twenty views, the principal of which are the "View of Venice." The "war in India" with views of the Mountainous Passes, Battles, &c., and three distinct representations of the "Battle of Trafalgar" one of which shows the fall of the illustrious Nelson. The whole will be accompanied with a graphic and descriptive lecture.

THE REPRESENTATION OF TORONTO.

We are positively informed that Mr. Wm Boulton intends to be present in his place during the next Session of Parliament. We have heard many expressions of disapprobation of this course by those who supported Mr. Boulton at this election, but we cannot say that we agree with them. Mr. Boulton is the representative of Toronto, he has not been called upon by his constituents to resign his position, and he would be neglecting his duty were he not to be present, to attend to their interests. If the Tories are really sincere in their wish that Mr. Boulton should not represent them, let them call upon him to resign ; this is a matter in which the Reformers should interfere, they did not elect Mr. Boulton, and of course he could not be expected to obey such a request from them. We think the Tories are only punished as they deserve, for electing such men as Mr. Boulton, and we do not believe that there is much right feeling and spirit among them to induce them to take the step we have alluded to.—*Colonist.*

DEATH OF A BRITISH OFFICER.—Lt. Gen. F. Ruxton, aged 33, of the 88th regt., British army, died at St. Louis on the 29th ult., of dysentery. He was the writer of the Life of Dr. Morrison, entitled "Life in the Far West," and had obtained some fame by his volume of Adventure in Mexico and the Rocky Mountains.

An unfortunate occurrence happened yesterday evening, at Lawlor's Hotel, the particulars of which have been related to us as follows :—[illegible] Church, to John Tate and John Skelly, at the British Flag tavern, and during the drink. They were about to enter one of the rooms but they were told by the master of the house that they could not go in Tate. Whereupon he expressed himself in [illegible] manner which should never be heard there. Some recriminations ensued, and he ought to have left the house, but did not proceed. It is said he then sought a stick and heathen, the stick finally knocking on Tate's arm. Skelly was immediately afterwards thrust outside the door by the landlady and Tate, when he picked up a [illegible] and commenced to break the window of the glass door. At that time it appears that Cobb, the landlord, appeared on one of the windows, (an upper one, we believe) and fired upon Skelly, the contents of the piece, which was directed to the cheek bone and passing [illegible] back of the neck. The wounded man is not in apparent danger. The accused was fully committed this morning, but will no doubt be admitted to bail.

ANNIVERSARY OF THE HIGHLAND SOCIETY AT HAMILTON.

This celebration took place on Friday last, and we learn from the *Spectator*, whose report of the proceedings we here extract, that the weather was rather dark and lowering in the forenoon, but the mountain and the heath a fair opportunity for display, and consequently the numbers of spectators on the ground was not so great as it would otherwise have been. But even in this respect we were glad to notice a much better demonstration than upon the last occasion. The Theatre, in which the first portion of the celebration was held, was tastefully decorated, in box, pit and gallery, and the scene on entering was striking in the extreme. The stage was occupied by the chief officers of the Society and the competitors, in full Highland costume, and their kindly dresses formed a delightful contrast to the military uniforms of the officers and soldiers of the 71st Regiment, who were present in considerable numbers, and to the dress of the audience generally, which was chiefly of the modern fashion. We observed a number of ladies in Highland dress, and without paying an unmerited compliment, we might add, that the wearers did full justice to the costume. The competition was very interesting. For the High[illegible] Fling there were five competitors, all of whom performed well, but the palm of victory was borne off by the celebrated dancer in a manner in which Highlanders alone can excel. The Sword Dance was also performed beautifully. But perhaps the most pleasing feature of the day was the competition of an old lady, (from Nassagaweya, we believe) for the best Gaelic song, which was not only sung in, but composed for the occasion. When we observed this lady, who must have completed her three-score years, coming forward to sing the glories of her fatherland, and the noble bearing of her countrymen, we could scarcely wonder at the enthusiasm and love of country manifested by the former race. Three of four children, in full Highland costume, attracted a full share of attention, and well they deserved it. Upon leaving the Theatre, and proceeding to the field, where the remainder of the prizes were to be competed for, the sun shone out most gratefully, and the concourse of visitors was very great. We noticed among the number many gentlemen from a distance, residing in our own and neighbouring Districts. And the fair sex, which was so well represented at the Theatre, turned out much more numerously upon the grounds. Several hours were spent in exhibiting feats of strength and activity, but as we could not remain on the grounds for any length of time, we are unable to notice the competition for the various prizes. The anniversary, as a whole, was very satisfactory, and we may conclude our imperfect notice by congratulating the Directors and Members of the Society on the con-

IMPROVED PROCESS IN THE MANUFACTURE OF FLOUR.

—A mode has been invented by S. Hentz, of Hancock's, Maryland, of hulling wheat and other grains, more entirely to remove the outer skin, by which a pure white flour is made combined with the qualities. The advantages claimed for it are, that a saving in time in grinding is effected of from 25 to 50 per cent., and of 40 to 52 pounds of wheat in each barrel, and that it is rendered capable of enduring the heat of hot climates. Mr. Heath supposes that the fine particles of bran remaining in the ordinary flour is the reason why it sours. Specimens of grain before and after this process, and also of the bran and hull removed, have been furnished the Patent Office, and the method has received the high commendation of gentlemen engaged in agriculture.

A CURIOSITY.—An apple tree in the garden of Mr. O. P. Chamberlain, of Rochester, is just at present in bloom and fruit at the same time, some of which still hangs on the limbs, and it is now ripening in full bloom, presenting the most thrifty appearance !

FACTS TO BE REMEMBERED

That Consumption is almost always produced by a cold that might easily be cured. That Wister's Balsam of Wild Cherry will cure any cough or cold no matter of how long standing.—That the milder form of Consumption itself is also cured by this Balsam. That it is conceded by many lawyers, clergymen and physicians, that this Balsam has never been equalled for efficacy in all affections of the Lungs and Liver. That scores now rejoice in the possession of good health who, but for this Balsam, would have been in their graves—having been given up to die by their friends and physicians. Above all it merits first this invaluable medicine has been imitated under various names, and that Dr. Wister's Genuine Balsam of Wild Cherry only can be relied upon to CURE. It has been warranted to cure Asthma in every stage—what no physician has ever achieved—and has never been known to fail. For delicate health in young females it stands unrivalled—and is a balm for all diseases of this climate.

For sale, Wholesale & Retail by Chas Brent and N. Patmore, Kingston ; and Druggists generally in Canada.

BOWEL COMPLAINTS

Occur more frequently during the summer months than at any other period, because at this season the system being debilitated, digestion is not sufficiently active to dispose of the food before it becomes putrified ; hence a special or acid is generated in the stomach, which is the cause of all or most of the diseases called dysentery, cholera morbus, inflammation of the bowels, &c. *Wright's Indian Vegetable Pills* are a natural remedy, and therefore the certain cure for bowel complaints ; here one gives you the strength and health to expel from the system all the causes of the above distressing complaints. Consequently as they remove the cause, every form of disease it is impossible for them to fail in making a perfect cure.

The above Pills are for sale in Kingston, by Chas Brent, Princess Street, and Henry Martin, Market Square.

IMPORTANT NOTICE.

PRICE OF CALEDONIA WATER REDUCED TO

THREE SHILLINGS PER DOZEN.

OFFICE, FRASER'S BUILDINGS, ONTARIO STREET.

IN consequence of the increased demand for the Caledonia Water, the Proprietor has been induced to make such a reduction in the price as will enable the Druggists and others to retail the water at the reduced rate, and put it in the power of almost every person to enjoy the benefit which is daily seen to be derived from its use.

These justly celebrated waters have performed more wonderful cures than any other Mineral waters in America ; and many of the most eminent amongst the Medical faculty have given their testimony to the great virtues these waters possess.

As a general drink they cannot be too highly recommended. In summer they cool and cleanse the blood, remove all febrile symptoms, and dissipate the lassitude generally felt in times of excessive heat.

In the spring and fall, when every person requires the aid of medicine to prepare the body to meet the change of season, the Caledonia Waters are admitted to be the simplest, the safest, and the most efficacious aperient that can be obtained.

☞ Arrangements have been made so as to have always on hand a supply of the Water from the "Intermittant Spring," which is now so highly appreciated.

The Subscriber's present arrangements place him under the necessity of doing business for Cash.

Athletic Dutch or Irish Emigrants would be preferred ; but none need apply save those who can produce certificates of ignorance and presumption, or who are gifted with a natural taste for blundering and incapacity. It will not be necessary for applicants to possess the least idea of correct punctuation or Orthography, as the *Herald* is determined to adhere to the good old plan of being a patch above aping the vulgar practices so common amongst his contemporaries. The profound and arduous duties of revising (by sleight of hand) will be generally attended to by the Editor himself, who will not miss a single opportunity of rendering his sanctum as ridiculously ridiculous as possible.
