HARNDEN & CO. appeal with great confidence to the vast number of Passengers who have in past years shipped under their instructions, to certify to the vigilant care bestowed upon those thus entrusting themselves to their protection. HARNDEN & CO. are the sole agents for Train & Co's Boston and Cope and Co.'s Philadelphia line of Packets from Liverpool, and in the selection of all their other Passenger ships, the greatest care is taken that they are such as to contribute the most to the comfort of the Passenger.

CHEAPEST RATES OF ANY OFFICE DOING BUSINESS IN CANADA.

Medical Referee for Kingston,

DR. THOS. W. ROBISON.

THE undersigned having been appointed to act as Agent for this Company, which has been doing business in Canada and this City since the year 1839, respectfully requests persons requiring Life Assurance, to call at his

OFFICE, PRINCESS STREET,

Kingston, where Prospectuses and all necessary information will be given.—Also, a variety of Tables, to meet the circumstances and convenience of applicants, can be seen.

The Rates of similar Tables in the Offices doing business in this Province, are as follows:—

For an Assurance of £100.

Colonial Life Assurance Co.,	age 30....	£2	4	0
National Loan Fund,	do.	2	5	2
Britannia Assurance Co.,	do.	2	0	8

These moderate Rates, (little more than sufficient *safely* to provide for losses,) put it in the power of most persons to assure; and with reference to the present state of the health of the inhabitants of the Province generally, it *may* be thought necessary, should the prevailing sickness increase, to decline taking any risks. It appears therefore to be a duty on those who have to provide for their families to take the timely precaution of assuring their lives and thus provide against the risk of perhaps leaving those dependant upon their exertions or means, to suffer difficulties, if not destitution.

FULLY established as the best Family Medicine now in use, by the astonishing cures it has performed, under the blessing of an all wise Providence, who has filled the earth with Vegetables suitable for the cure of every Disease incident to the Human Frame; and which as Dr Anderson says, "has been the instrument sending thousands back to society cured, who had given up all hopes of being recovered."

OF the numerous diseases to which the human frame is liable, there is none in one, the symptoms of which are not seriously aggravated by a confined state of the bowels, and to this abuse many owe their origin and continuance. The preserving the alimentary Canal free from obstruction is a point of such primary importance, that every degree of neglect is followed by more or less of inconvenience or suffering. When the mutual intercourse prevails the elected vigor of health is soon imparted, sometimes by slow degrees, and at other times more rapidly diseases make their inroads on the constitution; and in numberless instances, particularly where the habits are sedentary, or where the living is indulged, permanent ill health is the painful result. It must be obvious to the most superficial observer, that when the functions of nature are found to require assistance, recourse must be had to such medicine as will restore the natural tone and vitality of the blood.

It also by its powerful alterative qualities, secretes and permanently effects a purification into the blood and invigorates the system. Indeed, this medicine is unrivalled for all the delicate diseases to which women are subject.

Great Blessing to Mothers and Children.

It is the safest and most effectual medicine for purifying the stomach and relieving the sufferings of children from worms. Those who have used it think it indispensable. It is highly useful both before and after confinement, as it purifies the blood, and prevents fever, &c. Those who have used it, recommend it to their friends. In Cholera Infantum, Sour Stomach, Fever, Scarlet, Typhus, Measles, Hysterics, Colic, Cramps, Scalding of the Feet, Drowsiness, Heartburn, Vomiting, Pain in the Back and Loins, Pains Rising from Indigestion, and in regulating the Menses and regulating the Bowels, it has no equal. The great beauty of this medicine is that it is always safe, and the most delicate use it with success fully.

It is well as in the fashion of each and every lady that is, and is to be prized for, A free, active and healthy circulation of the fluids, or the *coursing of the pure rich blood* to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable vigor and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of *nature—not of powder or soap.* If there is not a free and healthy circulation, there is no beauty. If the body is fair or ruddy, if the skin is clear, if the complexion is rich, and the blood is th
