GALE ON THE LAKE .- LOSS OF LIFE

AND PROPERTY. On Friday night last a fearful storm of wind and rain began from the South West and continged with little intermission till Sunday About 2 o'clock on Salurday morning the

Schooner Canada, of Kingston, Captain Thos. Davis, owner and commander, in attempting to get into Port Hope, ran ashore on Gull Island Reef, in about 7 feet of water and 5 rods from land. The Captain told us that he could casily have got into the Herbour if there had been a light on the Pier. On-Saturday the gale increased in violence, and about one o'clock, P. M., the vessel began to break up. During the morning repeated atwho lined the beach by hundreds, to open a communication with the hands on board, but they could not succeed. Shortly after 2, P. M., the Captain and Prederick Eccles, feeling that certain death awaited them if they remained, as the sea was continually breaking over the vessel, threw themselves into the Lake and reached the shore from which they were taken up insensible. Of those who remained on board Alexander M'Dowall and Solomon Hammond were good swimmers, but the former was afraid to venture, and the latter would not leave his brother, who could not swim. At 3, P. M., the gale was at its height, every sea going completely over the schooner, and shortly the three men (the two Itammonds and McDowall) dropped, one after another, into the lake and were drowned. Some idea may be formed of the violence of the surf in which she lay, when we inform our readers that no means could be found to render assistance to those on board, although the vessel was only from 60 to 80 feet from the beach. A spectator informs us that the sight was truly distressing. So many anxious to assist making every effort, and in vain. The cargo consisted of 967 harrels of salt, owned by a couple of American Speculators from Oswego, and 14 tons of goods for Mr. J. Beatty, Merchant, of this Town. Neither the res-

sel nor the goods were insured, .This (Monday) morning the bodies of the above unfortunate men were found. Two of them neer Mr. Mackecknie's, about eight miles from were the vessel strauded, and one near G. S. Boulton's.
