MOT AND WANTON DESTRUCTION. GEN. SCOTT'S LETTER ON ANNEXA-East night about Go'clock persons to the number of about 2000, riolously disposed, as-Cuamplain Street-the Customs Buildingand without ceremony entered and demolished yelling and booting all the time, everything that could be broken, doors, partitions, stair railings and windows; the few policemen who were lodged in the house were compelled to make a speedy retreat. The military were not turned out; the police could not prevent the destruction; the Police Magistrate is in Montreal obtaining information concerning a riot which occurred in that city; Mr. Symes, J. P. interfered, in the hope of checking the destruction; but we regret to

jaried about the head. The design of the Board of Health to convert the Rouse into an Hospital for Cholera patients was the cause of the destruction,

This riot is to be regretted, and strongly censured; the end contemplated by the Board was a good one, the preservation of life by providing as convenient a place, as people, suddenly afflicted with sickness; we been a better situation for an hospital ; but certainly there could have been none more convenient for the Champlain Street population. The riot is not excusable on any ground's though we may attribute it to a fear of the disease spreading in the vicinity of a Pest Honse. But facts are against this supposition. Some of the Landon hospitals are in the heart of the city, and the inmates of the surrounding houses are seldom, if ever, afflicted with that two-thirds of our people would rejuice at epidemic diseases; they seem to be peculiarly the incorporation, and the other third would exempt, we merely allude to the fact, the exemption may be accounted for philosophicelly, or may be simply an arrangement of

The destruction is to be regretted on other grounds. The city must pay for the damage. The inhabitants of Champlain street had a night to remonstrate against the intended use of the Customs building, and had a remonstrance been made in the proper quarter, we are sure, both the Brant of health and the City Conneil would have attended to a just complaint,-Queber Chronicle.

Champlain Street was last night, the scene of a riot as descraceful as unjustifiable as it must have been premeditated. The city being some time back threatened with chotera, which is now, we are sorry to say, doing great havne, the Board of Hea'th determined as in 1632, on opening hospitals in contain wards of the city, to obviate the necessityalways attended with considerable danger of transporting the sick from one part of the city to the other. The Custom House now enoccupied, a large and commedious building, well suited for an Hospital was selected owing to its proximity to Champlain stree: which has a'ready been visited by the epidemic, and will probably continue to be so an hospital is a source of attracting disease in its neighbourhood, when it is well ascertained that the reverse is the case, re-olved to pull days the edifica which they sacthe pefarious week being consumated before the troops could be called out. From the want of the presence at the Police Office of the Stil endiary Magistrate to attend to this particular duty-none of the depredators have as yet been appprehended, and the probability is that the disgraceful outrage will go unpunished, in consequence. We regret to hear that R. Symes, Eq. J. P. was must severely beaten and his face disfigured while enworing to quell the affray .- Mercury.

OUTRAGES IN TORONTO.-From an early hour on the morning of Thursday, the 12th, a number of disorderly persons assembled in groups of from three or four, to a dozen to have a red flower 20, at the corners of streets near the East Herold, July 13th. end of King street; and amused themselves by insulting passers by, at intervals during the day. Towards evening their conduct became more offensive, and several persons were assaulted with sticks &c. About right o'clock, three or four persons, wearing orange ribbons, were quietly passing along on their way to their homes, when they were set upon by a gang of rullians, and severely beaten. One man carrying a child in his arms, was struck a tremendous blow with a stout stick, and much hurt. The assailant was about repeating the blow, when he was stopped by by a constable, and arrested along with two or three others, who were most conspicuous in the attack.

Yesterday they were examined at the Police Office, and three of them sentenced, each to a fine of five dollars, or one month's imp isonment. A fourth, was sentenced to pay a fine of ten shillings, or a formight's confinement.

We have made inquiries, and cannot hear of a single instance of disorderly conduct on the part of the Orangemen, whose conduct was quiet and peaceable throughout .- Patriot.

The ancient fraternity of Freemasons assembled in their Lodge-room, in this place, on Priday last, to pay the last tokens of respect to their deceased brother, the late John Wright, by enterring his remains according to the ancient Masonic Custom. The procession formed the Dead March, in Soul. After which, they moved to the Methodist Chapel-the Body carried by six brethren of the order, and relatook up its line of march (in reversed order) for the grave. Here the beautiful Masonic service was performed by A. C. Hamilton, Accepted Moson," back to their Lodge-room, in the same order they left it. A number of distinguished Bretheren were present from neighboring Lodges. - St. Cutherine's Journal.

My Dean Sin,-The news from the Par-liament of Great Britain, this morning, must, I think, increase the discontent of our neighbors on the other side of the St. Lawrence and the Lakes not a little; and that those discontents will, in a few years, lead to a separa-tion of the Canadas, New Brunswick, &c. &c. from the Mother Country, seems equally prob-

In the course of the debate in the Asclared there was no danger of war. During the Jubate Gen.
