Hon. Mr Tilley returned to the Capital last night. The St. John Telegraph (Opposition) commenting on the result of his misison to England, says :- Mr Tilley's visit to England was very opportune, as our readers ; had previously learned, the intercolonial having been placed on the most favorable terms. By the English papers received last evening, it appears that the date of the arrival of the news of the panic in New York and the failure of Jay Cooke & Co, was received immediately on the closing of the Capadian loan. Had it been deferred longer. Canada would either have suffered loss 'or experienced delay or disappointment Mr Tilley and the Government are every way to be congratulated on the result of the Finance Minister's visit to Lugland .- Citizen.

A feature of the opening was the introduction of the representatives of the lately admitted Province of Prince Edward Island. Various statements have been circulated respecting the political complexion of the new comers, but these gentlemen settled the matter, at least for the present, by all taking their seats on the Ministerial side of the House, as did Mr Appleby, the new member for Carleton, N. B. The opinion as to the Government strength, to which we alluded on Tuesday seems to have been borne out by the proceeding in the House. Sir John A. Macdonald moved an adjournment to Menday to allow members time to consider the various documents submitted. The leader of the Opposition opposed the resolution but apparently did not care to face a vote on the subject, and in the words of the de-

spatch, "the motion was carried. -Star. The vexed question of the Montreal Flour Inspectorship has been decided by the appointment to the office of Mr Matthew Hutchison, who was Hon. John Young's deputy On Saturday last Messrs. McDougall and Labella, two of the three examiners, granted him a certificate, and he was thereupon immediately appointed !nspector by means of a telegram from Ottawa. The Witness thinks "there may be further developments," and says there is "much dissatisfaction on the part of many of the prominent flour men" at the appointment. It seems to us however, that the man who for years has done nearly all the work of the office, and who has passed the examination and obtained the needful certificate, is by no means an unlikely or improper person for it. Every? thus removing the cause of one cannot be pleased in such cases, and it is just possible that the dissatisfaction said to exist in the matter is more political than otherwise .- Monetary Times.
