THE ROYAL CANADIAN INSURANCE COMPANY

Authorized Capital \$5,000,000.

THE present rates for Fire Insurance throughout the Dominion (the result of combination | a large variety of among the various Insurance Companies) are, it is believed, not only excessive, but unnecessary; and however severe the losses to those Companies may have been in the late calamitous fires in Chicago, Boston and other cities in the United States, the losses in the business of Insurance throughout the Dominion, does not warrant the great increase which has lately taken place in the rates.

Such being the case, this Company represented by the wealthiest merchants of the Dominion obtained a charter during last session of Parliament, and are now prepared to do business at moderate rates. The promoters can with full confidence rely on the citizens of Kingston, giving this Company a liberal support, the directors pledge themselves that in the event o loss claims will be settled in the most liberal manner, and risks will be taken on their merit irrespective of any Company.
