ment in everything that tends to make a country has been brought about in no small said : degree by the occasional visits of influential and observant men to our shores, who on only object in writing or speaking on what they themselves have seen is that they may let those whom they address know what sort of a place Canada really is.

When Mr Joseph Arch and his travelling companion Mr Clayden, arrived in Canada a few months ago for the purposes of practically gaining information regarding the condition of the Canadian farm labourer. we expressed the opinion that Canada derive substantial benefit there-Mr Arch has devoted his time and energies to the very laudable endeavouring to improve the social position of the English farm labourer; and after much careful consideration of how that object was to be satisfactorily brought about, he has arrived at the conclusion that emigration to which he was originally opposed, is one of the best means for the accomplishment of the end he and those associated with him have in view. Not depending on public opinion nor being satisfied with unreliable reports, Mr Arch determined to see Canada for himself, and certainly during his stay he was not idle, he having visited all parts of the Arch's visit was of a most practical character.
