had been held there in the afternoon. FROZEN TO DEATH. - The day before yesterday a party of ten students started out from the academy of Our Lady of Angels, near Lewiston, to get some evergreens to decorate their school and chapel. They descenned a steep-almost perpendicularbank to within a few yards of the rivers edge. where, being intensely cold, they built a fire. One of the lads complained of being tired, and expressed his intention of remaining near the fire while the others went to hunt for greens. His comrades left him and retuaned some time afterwards to finn hun stretched stiff and cold on the snowy ground It took an hour and a half to carry him up the steep ascent. The poor lad was taken | nac, Ontario Street, Kingston, directly oppo to a farm house, and all the arts and appli- | site the Montreal Telegraph Company's office ances of medicine were used to restore the ice-bensmbed limbs to sensibility. The efforts were partirlly successful, but we are informed that the poor lad only lived a few hours. - Buffalo Express.

ADVANCEMENT IS THE WORLD. Before the discovery of steam, the world laboured under many disadvantages; but now the difficulties are overcome. In like manner, before Depew's discovery, many cases of Dyspepsia, Bilousness, and diseases of the Liver and Kidneys, were set down as incurable, which have been affectually? cured by his Medical Victory. HOW THE OLD AND INFIRM ARE SUPPORT-ED BY FELLOWS' COMPOUND SYRUP OF HY POPHOSPHITES .- During the vigeur of youth, the expenditure of the power of the mind (which is the real seat of man's strength) balanced by activity of the nutritive functions, without the aid of science.

But Time, the everlasting dissipator of reason as of events, sets a limit to his power, and it is at this epoch that science may render to man the desired assistance and restere the drain upon his wasted energies.

Each effort of the mind, every act of the body, will extract a volume of nervous element in proportion to the magnitude of the thought or action, and since this Hypophosphites combination really will supply the vis vitæ to the body, it must support the human mechanism successfully after the vigour of youth is past .- Adv.
