Toronto, Feb. 5th .- In the House several new bills were introduced. Mr E. B. Wood moved for all papers relating to the land claim of the Canada Central | was decided to proceed to the Railway Company. He went at some length into the history of this claim which is for i 342,000 acres of land, and arises out of a grant of that agreement, it was lately tried before ed to Mr J. He also explained that the railway did not terminate at Carleton Place, but was pushed forward to Renfrew, the intervening section having been aided from

the railway fund. Mr Cameron repudiated the charge of illiberalty made against the Government of which he was a member. He believed the terms on which Sandfield Macdonald had agreed to state the case to the Court of Chancery had been varied by the present Government. He thought there should be an appeal to the Court of Oyer and Appeal, seeing how large an interest the Prevince had in the matter.

suggested for the papers which would explain the whole case, declared that every conceivable legal means should be taken to test the claim. He would go not only to the Court of Appeal, but if their decision were in favour of the company to the Judicial Committee of the Privy Council. The motion was carried.

Other business was unimportant.
