THE VALUE OF MONEY .- We publish elsewhere to-day, a table showing the prices of various necessaries of life twenty years age and their prices at the present time. We referred to this subject of the decline ment. We had hoped that the Ontario government during the present session would entertain the question of an increase in the pay of public servants. It would appear however that such is not their in. intention. Perhaps they are waiting for the government of the Dominion to set sion at Ottawa.
