THE ORIGINAL OHLORODYNE, invented by R, Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present

century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings

so commonly arising from the use of opiates. It continues to hold its unshagen position in the estimation of the Profession as the best, most, reliable, and cheapest preparation.
