DISTINCT VISION.

THE CELEBRATED PANTESCOPIC SPECTACLES

ARE constructed in accordance with the philosophy of Nature in the form of U. W They are admirably adapted to the organs of

sight, and afford the best artificial he'p to the human vision ever invented. A peculiar and important feature in these spectacles is witnessed where people have been obliged to resort to glasses from physical debility, having temporarily affected their vision. In such cases the eye regains its bealthy power, and the glasses can be la'd aside without injury; while other kinds of spectacles when once worn cannot ' dispensed with. For sale at the
