frankly says, "Our great difficulty is to force upon them (the colonists) as much independence as we should wish them to enjoy. A declaration of independence on ne part, for instance, of Canada, would be Do you feel as much confidence in your- hailed with satisfaction." Jer's Cathartic Fills,

To MARRIED LADIES

For all the purposes of a Laxative lime bring on the monthly period with regnshe lost some of them, much to the benefit of mankind. Now she almost goes about the world begging some take her colonies off her hands She confesses herself unable to defend them, and therefore she deems them are all capable of producing a weakness of the most vulnerable points in her system.

much as the lesson of weakness which the

upon every section of English society. Unless we are wilfully intent upon disregarding facts, this alteration in public sentiment BUCHU across the Atlantic ought to change the features of our own speculations in reference to Canada. It used to be assumed that England would be loth to part with these provinces. Her statesmen and her Press now openly complain that Canada will not give up the connection. The late Sir Frederick Bruce, for some time English Minister to this country, used to lose patience with any of his countrymen who suggested that the independence of Canada was an event much to be desired. But his successors will probably need no instructions from home to induce them to avow the opinions which formerly would

have been resented.

It is quite clear that Canada is not likely to AND ALL DISEASES OF THE form a disturbing element in the national controversies of the future. So far as England i concerned, she has settled the question of how to her, she will not desert them; but the mosources, and the health and happiness, and ance they could expect in any great emergency. that of Posterity, depend upon the prompt use The Canadians are a great deal more attached to the connection with England than England is to the connection with Canada. When, then it is said that the time will come when the American continent will be entirely under our conveyed. She replies, in effect, "Yes; Canada must go from, us, and, since we do not know children, and hoping others may be alike to war to keep Canada against the will of the Canadians. Since the days of an insane kin the theory that no injustice was too great to j flict upon colonists has been gradually going out of favour in England, and it never had
