FOR PURIFYING THE BLOOD.

The reputation this exof which are trul Inveterate they were painfully afflicting, have been radicall cured in such great numbers in almost every

tion of the country, that the public scarcely need to be informed of its virtues or uses. Scrofulous poison is one of the most destruc enemies of our race. Often, this unseen and unf and invites the attack of enfeebling or fatal disease without exciting a suspicion of its presence. Again it seems to breed infection throughout the body, ar then, on some favorable occasion, rapidly develo into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear.
