The Daily News

PRIDAY EVENING, OCTOBER 1.

CABLE SESS.

The Right Hon. Edward Cardwell, Secreof State for War, delivered a speech whis constituents at Oxford last evening an the subject of the policy of the government towards Canada. He said the geneal policy of governing Colonies from home al Canada, and briefly reviewed the prokeaker said, was the true policy to purme. If we benefit he Canadians, we beneourselves also. By this policy our Colonies have become sources of strength ! and honour. When the time comes, and England calls for the support of her Colonies, there will be a Confederation such as the world never saw under a single Sove-

Paris, Sept. 20.—Later despatches from Bordeaux state that only fifteen vessels-French-were burnt there at the recent fire. The fire was caused by an explosion

The Bank of France, during the past ! week, had a heavy out-flow of specie. Celebrated The amount on hand to-day is 9,200,000 francs less than on the corresponding day

The Hippodrome, in this city, was totally destroyed by fire last night. Loss I

New York Press Despatches. New York, Sept. 30. - The two great facts of the day on Wall street are the injunctions and the rise in stocks. The excitement the past week has given way to comparative now conducted in a more orderly manner. Brock Street. A large number of gold contracts on last Inday's business have been privately settled, and the complications incident to that J day's business have been reduced to a comparatively small compass. It is believed that this entire matter would have been a justed to-day had it not been for the ir erference of the Courts, whose action is | post paid. generally and severely condemned. The Commercial learns upon good authority of one million in stock of Toledo and Wabash Railroad Company. It is under-

y, and at the close of bank hours money ras rather easier. The general feeling is that the worst is now over, and a steady dvance in stocks is predicted. New York, Oct. 1 .- Matters at the Brookyn Navy Yard are assuming a lively ap-Parance. That the government intends ome active operations in connection with Suban matters is evident from the fact that the iron-clad Dictator and the steam frigate evern are already coaled, and expect immediate orders to proceed to the Cuban

stood that Legrand Lockwood agrees to

assign in favour of J. H. Banker. The

general feeling in Wall street continues

to improve slowly but, apparently, sure-

for steam; 181 @ 191c for kettle rendered. It has been noticed that in every part of Great Britain, and in considerable areas on the continent, butterflies and moths have been exceedingly scarce. Consequently many crops that suffered from caterpillars have been scarcely touched, and agriculturists have gained considerably by the scarcity. But in 1868 butterflies were as a total failure; there had consequent numerous. As there must have been a plentiful been substituted for it a policy to en- crop of eggs left, why have they been so scarce courage them to develope their own power this year? It is an article of faith that "the winter kills the vermin." It has been shown and resources, and stimulate them to a that this is a mistake, that insects are too well mirit of self-reliance. He showed how provided with protection, and with devices to mecessful this policy had been in the case | evade the attacks of wet and cold, to be seriously affected by a severe winter Yet for once it may be taken for granted that the winter did THE DAVIS SEWING MACHINES! Agress recently made by that Colony. She | kill the butterflies. The high temperature of the dready had an army of her own, and such | winter probably brought to life many broods merchant navy that, if her people chose larvæ, and the low temperature of the late when there was no vegetation to support the FIRST PRIZE SEWING MACHINE SALESme adopt the Act passed for the purpose, spring may have killed out millions of the newly the might become one of the first mari- hatched and starving creatures. Hard winters do not appear to be particularly fatal to insect life. But mild winters may be bad for them by preventing the complete torpidity of the pupæ, and by bringing eggs to life at a time when food is scarce and the temperature in-
