By means of the Optometer, or Patent Eye-tryer, the proper focal distance for distinct vision can be ascertained with unfailing certainty, and thus the disagreeable necessity of trying on pair after pair of spectacles, and cor sequently fatiguing the eyes, is avoided. Per sons may have their eyes tested by this instrument, and see whether they are using glasses the proper degree of strength.

A quantity of these celebrated Spectacles have just been received at the MEDICAL HALL, as also a complete assortment of BRA-ZILIAN PEBBLES and other Optical Goods, warranted to give satisfaction. The Polariscope, or Pebble-tryer, distinguishes between real Pebble Spectacles and the imitations which are so often palmed on the public. At the MEDICAL HALL real Brazilian Pebbles, tested CHOCOLATE DE SANTE by the Polariscope, are sold for the same price charged by other dealers for common glasses, viz, \$2 50 a pair; and the Perfected Meniscus Spectacle, which is the best of the ordinary material, at the low price of \$1 a pair.
