## The Willy Wrighs.

SATURDAY EVENING, OCT. 8.

value of fortifications in warfare, and mak parison :ing conclusions: --

seem to us infinitely better to retire up the might go, their fortification but invites siege, enemy's flag flying in Montreal, but, with a Canaaltogether at their worst, and to have condemued the whole population of the city to Empire. the danger of shot and shell, of famine and of fever, as well as to the certain destruction of their property, would scarcely have made

So far as the defence of France is concerned it may be held confidently that the question has been determined by the prependerance and efficiency of the German armies - a preponderance that has made them adequate to the double task of beating the French army in the field and reducing the different garrisons standing in the way of their march on Paris.

The lesson for Canada may or may not be applicable in the case of the proposed the evening at six. fortifications; the present war is probably more to the purpose in showing us the de-

The past week has not been prolific of great events; but the progress of the war is not less interesting when we learn that the time has been mainly spent in preparher efforts to make the siege successful and to force France to terms. The bombardthe neutral powers are trying to arrange matters, and spare Paris from the destruction and horrors of a bombardment; but who can say that their efforts will succeed.

The invasion of France by the Landwehr or German reserves is also significant of the rich centre of a populous manufacturing district. To have Rouen occupied by the enemy and contributing to German in. stead of French resources will be a heavy blow to the Republic; but it would appear to be possible, and the Germans are confibesides have the effect of acquainting the of the Orange Lastitution of this city; and Counsel for defendants Mr Anderson, of To-Southern French with the reulities of war earnestly urged them to press forward with the ronto, and Mr A. S. Kirkpatrick. in their own country and impressing the same impetus which they had exhibited since | Fraser vs. The Home Introduce Company. | W population with the far-reaching power of the memorable event of 1860 (visit of the Prince | The facts in this case were the same as in the | t Prussia.

The French have placed much reliance on the Gardes Mobiles, and the new army formed by the conscription. These troops have in several places been brought into engagement against the Prussians. The Gardes Mobiles have fought very bravely. but they have not been able to oppose suificient resistance to prevent the Prussians from penetrating into the interior, and notably they have not hindered the encircling of Puris by a wide line of investment.

Another rename of the French is the nu. small bodies of the regular troops whenever they have the opportunity, The most signal achievement of these hushwhackers has Passport, from the west, landed here today five of the costs occasioned by the defendants' conso far been the murder of the Duke of Nas- very large hogs, two belonging to the Kingston duct for the decision of the court. sau, a loss which must lead the German Penitentiary and three to a stock dealel of The same counsel were engaged in this case. commanders to guard against and punish New York state, which had been on exhibition Macdonald and Patton plaintiff's attorneys. severely the deings of these irregular and received first prizes at the annual On-
