MONDAY EVENING, MARCH 17. Montreal Correspondence. Montreal, March 14.—With the present menth began the current civic year for this city. The new Mayor, Mr Cassidy, was inaugurated on the 10th inst. He is also an M.P.P., is an Irish Roman Catholic, and possesses the confidence and esteem of all classes on account of his liberal and enlightened views, and his integrity of character. Judge Coursol, the retiring Mayor, has held office for two years, and has been, perhaps, the most popular chief magistrate the city ever had. Wealthy, generous and affable, he has especially reflected credit upon the city by his magnificent hospitality to the many distinguished persons who have visited Montreal during his term of office. He is a French Roman Catholic, and his predecessor, Mr Workman, was a Protestant; and according to customary rotation, our next mayor III) ! should be a Protestant. There seems to be a tacit understanding that each of the three A GENTS WANTED, to sell Organs, classes of the population, namely, the French Melodeons and Pianos, for six of the Canadians, the Irish Catholics and the Protestants, should in turn have one of their own number for mayor. The same implied arrangement exists in the parliamentary rep-

Preparations are being made to meet the largely augmented trade which is expected to take place during the coming season. A BAZAAR, beg to announce that they will sell formed to carry on the forwarding trade beroom for their summer trade. This is no buildings so as to have a storage capacity of 1,350,000 bushels of grain and 160,000 barrels of flour. They will have seven of the most impreved elevators, each one of which will be capable of moving 4,000 bushels per hour, and of loading an ordinary train of cars in two hours. The Dominion Government has also taken the preliminary steps for deepening. and widening the Lachine Canal. It is intended to excavate an extensive basin near the canal on the flat ground at Point St. Charles, where ocean steamers and sailing vessels can lie at dock and receive cargoes from western vessels. When the Welland Canal shall also have been enlarged, as is contemplated, the huge iron steamers from Buffalo and Chicago, of from 1,200 to 2,000 tons burden, may be loaded direct for Montreal, and transfer their cargoes to the Allan steamships, while lying alongside in this basin. The indications are that during the coming season more trade will come via Montreal and the St.

ture commercial greatness of Montreal. GREAT CLEARING SALE now going on, to be the libel suit brought by Mr A. McGibbon, grocer, against the proprietors of the daily Witness. It will be remembered that on the occasion of the Governor-General's visit to Montreal, several snew-shoe clubs made a tramp across the Mountain, and were afterwards entertained to supper and "an unlim-
