### A Great New Remedy, Electrical Nerve Tonics. title given.

A NEW WAY of strengthening the Nerves A of the Head and Face, and invigorat- tioneer. ing the Brain, with its organs of sight and hearing, has been invented. Do you suffer from Neuralgia? from Headaches? from THE NATIONAL HOTEL, in the village. Weak Sight or Hearing? from Loss of Memory? or is your Energy of Mind giving way? You may search in vain among the drugs of reach it. There is no prescription that will restore that. But Electricity, the great Nerve The House and Furniture are new; the Bar your electrical machine that gives a shock or Liquors; the Table is second to none in the strengthen the nerves. But your continuous currents which silently works its way, supplying the weakened nerves and the debili- rate. THE celebrated French Stallion LION tated brain with new vitality and new power. HEART. He is a pure French Cana- This method has been reduced to a very condian Horse, purchased by the owner in venient application. In two little shell cases Lower Canada, and is now known in the there are small but powerful galvanic piles, townships about Kingston as a first-class creating electricity all the time. These are farming horse. Any one wanting such a fixed to the side pieces of s pectacles and then applied to either side of the head. They connect through the head, and thus electricity must consequently pass through this part, giving its vitality to all the nerves and organs it comes in connection with. The current is

so mederate that it is not felt, yet so constant that its results are very powerfully effective. What is the human head but a telegraph office, which sends its orders by electricity over the nerves, the wires, which connect it with all parts of the body? And when there is a want of vitality there, what is it but a sign that the electricity is not sufficient. Why then not remedy the condition by furnishing electricity? Here you have it in a convenient way, easily used, and of the most remarkable success. Every man of sense can at once perceive that

the right thing has been hit by this invention.

The invention is known by the name of Dr.

Moses' Galvanic Spectacles., -From the Even-

ing Post, Hartford, Conn. April 17, 1872.

## A BY-LAW

To Raise \$20,000 to Retire Debentures.

TATHEREAS it is necessary and expedient that the sum of \$20,000 be raised by way of loan, for a term not exceeding ten

Be it therefore enacted by the Municipal Corporation of the County of Frontenac-1. That the sum of \$20,000 be raised by way of loan upon Debentures for a term not exceeding ten years, bearing interest at a rate not exceeding six per cent per annum, payable

2. That the Warden and Treasurer for the time being are hereby authorized and required to prepare, issue and sign Debentures of a denomination of \$100 and upwards, as occasion may require, to the amount of \$20,000, payable ten years after the date of issuing the same, bearing interest at a rate not exceeding six per cent per annum, payable half

3. That the amount realized from the sale of such Debentures shall be applied to the redemption of any Debenture or Debentures outstanding against the County as they shall become due and payable from time to time, and be duly accounted for by the said Treasurer in his account current, in the usual form

The above is a true copy of a By-Law to be taken into consideration by the Municipal Council of the County of Frontenac, at the Court House, Kingston, in said County, on Tuesday, the 10th day of June, 1873, at the hour of four o'clock in the afternoon, which time and place the members of the Council are required to attend for the purpose
