have been enough to immortalize inventive humanity to the end of time. It is said that when a man is perfectly helpless from intoxieation, ice water poured down the spinal column and back, will give such a shock to the nervous system as to perfectly overpower his intexication. The effect will be that in two minutes he will be enabled to walk as well as he ever could. There are a good many in Kingston who might be benefitted by a trial of the above prescription.

at Alymer this morning and is still raging.

disposed of, and the session cannot last more than a few days longer.

Ottawa, May 13.—A good deal of important business was transacted to-day. The committee appointed to try the East Teronto Election case reported that Mr Beaty was duly elected, and unanimously threw out the petition of Messrs Nixon and Merrick, praying that he be unseated. Several bills were passed, and a measure was advanced a stage to afford moderate protection to the manufacture of beet root sugar.

Dominion of Canada.

In reference to the recent statement that the Newfoundland Government possesses the aight to claim possession of the telegraph line next year, it is ascertained that by legislation three years subsequent to the granting of the original charter in 1854, the Colomial Parliament gave permission for the consolidation of the Newfoundland Company with the Atlantic Cable Company. This action, it is asserted on high legal authority in England, overrules the right of purchase through arbitration.

Weekly, The Engineer, The Builder, Canadian Patent Record and Mechanics' Journal, New York Tribune, Chicago Tribune and Scientific Americans. The meeting then adjourned until Tuesday evening, the 21st inst, when the sub-committees will make their reports.
