TOWING ON THE RIVER SAINT LAWRENCE.

IT being strongly represented to the Commissioners of Public Works that the TOWING of VESSELS navigating the St Lawrence, between QUEBEC and KINGSTON, is more likely to be ensured in a prompt and satisfactory manner by leaving it open to private enterprise than by the employment of vessels chartered by Government for that purpose, and, as it is further stated that there are several suitable tug vessels which will be put in the line, if the former course is adopted, —NOTICE IS HEREBY GIVEN that it is not the intention of this Department to hire any vessels to tow during the ensuing season.

BRITANNIA LIFE ASSURANCE COMPANY.
No. 1 Princes Street, Bank, London.

CAPITAL. ONE MILLION.
EMPOWERED BY SPECIAL ACT OF PARLIAMENT
4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the *Britannia* are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eight and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure *an immediate Bonus* by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are 'Mutual Tables' adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assured will be paid without deduction: if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances may be obtained either by letter or personal application to

Another Living Witness of the Hydropathic and Botanic Medicines, from CAPTAIN McMASTER.

I WISH to inform the Public, for the good of the afflicted, that I was very unwell with a cough and inflammation of my lungs and chest, which threatened my whole constitution. I spared no cost or trouble to get rid of it, but I got no relief until I was advised to go to DR. LANKTREE, of Kingston, when I got his Medicine. It took but a short time, and little cost, until I could again rejoice in the return of my perfect health—thank God.

FRANCIS McMASTER.

Amherst Island, 23rd Aug., 1851. 212

SEEING and hearing of so many testimonials for Dr. Lanktree's Medicine, brings me to recollect my duty both to him and the public; for I was some time ago, to the knowledge of many in this city, given over as an incurable case, with Enlargement of the Heart and Liver Complaint, and was effectually cured by him; also, lately, I was in despair with a Dropsical Swelling, and obtained immediate relief, so that I am now able to do my business well, thank God.

ADVERTISEMENT.

THE NORTHERN OGDENSBURGH RAILROAD, 157 Broadway.—New York, February 23, 1852.—SAMUEL J. BEALS, Esq, Director.—Dear Sir; The arrangements for shipments by the Northern route and our Road will, on the opening of navigation, embrace the following advantages:—

Forty-eight hours running time from New York to Ogdensburgh—three and five days for all kinds of merchandise from this market to ports on Lake Ontario and the River St. Lawrence.

Shipments forwarded by the Troy line of steamers, and connecting lines of Railway, and express steamers to all ports on the North and South shores of Lake Ontario.

Our Road will connect at Ogdensburgh with the American and British line of daily steamers.

A line of ten propellers will run regularly to ports on Lake Erie and Lake Michigan and to direct Canada ports.

Sail vessels will meet such property as may not require the dispatch of steam facilities.

A large business will be done over the road to way stations, and in through freights and passengers. British imports for Canada West will be forwarded by our road in preference to the old route of the St. Lawrence.

The local business over the Road, up to the re-opening of navigation, will be found equal to the expectations of the Company, and prove in the aggregate, highly satisfactory.

Advices from Chicago state the probability of the crops in Illinois being light this year and that those in Michigan, Indiana and Ohio, were never better. that the tendency of the trade is from the Rivers towards the Lake, and that the lead, when intended for Eastern market, will take the Lake route in preference to the usual routes by the Mississippi.

There is not another route out of New York can offer the same transport facilities on up and down freights, as the Northern one, while we have all the advantages of extra quick time.

Your obedient servant,
R. J. CUMMING, Agent.

NOTICE.

THE Commissioners of Public Works will receive TENDERS until the FIRST of JULY next, stating the terms on which persons will be willing to contract for the establishing of an efficient LINE OF STEAMERS to ply between the ports of LIVERPOOL, QUEBEC and MONTREAL, once a fortnight from each port during the season for navigating the river St Lawrence; and in the Winter between the ports of LIVERPOOL and HALIFAX, PORTLAND or such other Atlantic port as may be agreed on, once in each month—such steamers to carry a mail, if required.

The tenders to be addressed "to the Commissioners of Public Works, Quebec," and endorsed, "Tender for Steamers."

The parties tendering will require to state the length and breadth of beam, draught of water, and age of the vessels, the power of the engines, capacity for carrying freight and passengers, and also to state the proposed rates for passage of the several classes, with any other information which may be considered useful,

A few more of the numerous Testimonials for the Hydropathic, and Botanic Medicines.

I wish to state, for the good of all who may be suffering any illness, that my wife was dangerously ill last June, with a Sore Breast, which caused her neck and head to swell to an alarming extent, so that it appeared there was no help, after getting all the aid I could for her; but on being advised to apply to DR. LANKTREE, the first two days he had charge of her, he reduced all the dangerous swelling from her, and removed the Fever she had on that occasion. And a few weeks since, I was afflicted in my Chest and Head; and, foolishly, I let it run on until I was taken alarmingly ill with delirious fits; whereupon I was forced to apply to DR. LANKTREE, and by this time the complaint terminated in a severe Brain Fever; but I thank God that now, after a few weeks' treatment through his care and unremitting attention, I am now over it.
