The Rescript of the Pope.

By that capitulation which was subsequently confirmed by act of Parliament, it was provided that the Roman Catholic, Clergy might "hold receive and take their accustomed dues and rights with respect to such persons, only as shall profess the said religion. " Now this the Key stone to the title of the Roman Catholie clergy for the property and revenues they have, they would do well to consider the wisdom of any violation of it, for if there be a violation of it to-day to impose a new right h might be violated to-morrow to strip them of an old one-an unaccustomed due.

So far as we are concerned, it matters not whether Priest or Bishop receive a tenth more or less, but we tell our Roman Catholic fellow-countrymen that they better think twice before they submit to the imposition of a tax by a foreign potentate. If they recognise it for one purpose there will soon be found a pretext to impose it for another.
