HAPPINESS AND COMPETENCE.

WIII IS IT?

I hat we behold many females, scarce in the meridian of life broken in health and spursts with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits and happy sevenity of mind, arising from a condition of health. Many of the causes of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course

IN AFTER YEARS, What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every WIFE AND MOTHER

Possessed the information contained in a little volume, (with in the reach of all) which would spare to herself YEARS OF MISERY, And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that comsetence which his exertions are entitled, and the possessi of which would secure the happiness of himself, wife, and

SECURE THE MEANS OF HAPPINESS By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands. In view of such consequences, n wife or morfier is excuespect to herself, which would spare her much suffering, bodies, with healthy minds. That knowledge is contained in
